

From Drew Lauderdale, Explora, dlauderdale@explora.us (505) 224-8383

Free Family Science Night!
Thursday September 7, 5-7:30pm
At the Senator John Pinto Library,
Diné College in Shiprock New Mexico
BIA Road 0570 Shiprock, NM 87420

Join in the fun on this night designed for family members of all ages to explore the digital world! Explora educators will offer fun hands-on activities to learn about the building blocks of digital literacy and share about how to get connected! No computer experience needed, just come play and connect with us! This event is provided by Explora Connect through the National Digital Inclusion Alliance (NDIA).* Choice® NTUA Wireless will be on hand to help you learn how to connect to the internet. Refreshments provided by Dine' College.

This event is free, and no registration is needed. Plans are underway to hold other similar Family Science Nights in the Navajo Nation in September and October.

For more information, please contact Drew Lauderdale, NDIA Pilot Corps Member and Explora Visitor Services Educator, at dlauderdale@explora.us or (505) 224-8383.

* It's hard for some of us to imagine a world without computers or smartphones, but even today this is a reality for many people living in rural and tribal communities in New Mexico. Explora and the National Digital Inclusion Alliance are committed to enriching lives by connecting people with the digital world that surrounds us all.

This event is part of the Digital inclusion Corps, a pilot project to help increase access to digital communication for people in rural and tribal communities. This pilot is part of a cooperative effort between the [Institute of Museum and Library Services \(IMLS\)](#) and the National Digital Inclusion Alliance (a program of The PAST Foundation) to create more equitable access to online information as well as to provide digital literacy support and training for all residents and communities, particularly rural and tribal communities. Find more information about the pilot project at digitalinclusion.org/corps.

Explore with Natives in STEM!

Come explore the digital world in real life with Natives in STEM (Science, Technology, Engineering, and Math) and Explora Science Center!

**Just come and join the fun as we explore together!
