About Diné College

Message from the President

Ya’at’eeh,

Welcome to Diné College. Our institution is the first tribal college founded and chartered by a sovereign tribal nation in the U.S. As a leader in tribal higher education since 1968, Diné College is committed to offering academic programs that focus on Diné culture, history, and language. We are committed to academic excellence and student success. Our faculty and staff work diligently to provide quality teaching and student-centered services to all of our students across six campus sites within the Navajo Nation in Arizona and New Mexico.

The mission of our College embraces and applies the Navajo principles of Sa’ąh Naaghái Bik’eh Hózhóón. We are committed to the advancement of student learning through the values of Nitsáhákees (Thinking), Nahat’á (Planning), Iná (Living) and Siihasin (Assurance).

Diné College continues to strengthen and expand our academic programs. Our degree offerings prepare students for further studies and employment in a multi-cultural world. Through engaging student learning environments, we strive to foster social responsibility, community service and scholarly research that contribute to the social, economic and cultural well-being of the tribal, state, national and global communities.

If your goal is to earn a degree, prepare for a transfer, or earn a certificate to advance your level of academic attainment, Diné College is the right place for you!

Education is an investment that requires care and persistence, and Diné College’s faculty, staff and administration are here to assist you along your pathway. The first step in your educational journey is to meet one of our academic advisors and discover which classes or degree programs are best suited for your long-term career goals.

I encourage you to take advantage of the College’s outstanding academic programs and student support services. Best wishes for a wonderful academic experience here at Diné College!

Sincerely,

Maggie L. George, Ph.D.
President

Maggie L. George, Ph.D.
President
**About Diné College**

**College Mission**

Diné bina’nitin áyisii ásiláago binahjí’, óhta’i na’nitin náasjí’ yee ináahvúüdool’ átíjí yéego bidziilgo ádíłníl, áko Diné nílinii t’áá altso yá’át’éeego bee bit nahaz’a’gq dooleel niidzin.

Rooted in Diné language and culture, our mission is to advance quality post-secondary student learning and development to ensure the well-being of the Diné People.

**College Vision**

Níhi’óta’gi, Diné Bidziilgo Ólta’gi na’nitin al’qá ádaat’ éii ólta’i bee nantíinígí dúó t’áá ha’át’i shííj bee biká’ aná’ álwo’igíi bidziilgo dúó bohóneezáago ádííñíl niidzin. Díí binahjí’ Diné bi’óta’ gi’óhoo’aaht ts’ áá bohóneezdianíí bee bit ház’a’ílljí dooleel.

Our vision is to improve continuously our programs and services to make Diné College the exemplary higher education institution for the Diné People.

**College Principles**

Nihina’nitin, Sq’a’ah Naaghái Bik’ehózhóón bil hadít’éego, dúó índa Diné yee iná’íl’íi’gi át’éego nahasdzáán bikáa’gi dúó yádínilhí biiyáagí bohóneezáíígi át’éego yee hiná. Díí binahjí’ t’áá altso’déé’ bik’ihwiini’jí’go bitah yá’ahoot’éego yee iná’íl’íí.

Our educational principles are based on Sq’a’ah Naaghái Bik’eh Hózhóón, the Diné traditional living system, which places human life in harmony with the natural world and universe. The system provides for protection from the imperfections in life and for the development of well-being. The principles are four-fold:

- **Nitsáahákees.** Thinking. Baa nitsidzíkees. Apply the techniques of reasoning. Analyze alternative solutions through the use of the principles of logic and creativity.

- **Íiná.** Implementation. T’áá hó ájitéego hózhóogo oodáádl. Demonstrate self-direction based on personal values consistent with the moral standards of society. T’áá hó ájítíego hózhóogo oonish. Demonstrate quality, participation, work, and materials.

**College Values**

Our employees and students will adhere to the following values to achieve the mission and purposes of the College:

- **T’áá hó ájít’éego.** Excellence and self-initiative in problem-solving, compassion, setting clear goals, and establishing positive working relationships.

- **Ahíl na’ánish.** Cooperating and helping one another, keeping all employees well informed, using proper language for communication, respecting one another on equal terms, and honoring Ké.

- **Il Ídí.** Respecting the cultural, racial, and gender diversity of the Diné People, maintaining safe, courteous, respectful, and positive learning environments, and valuing inclusiveness.

- **Il Éáchózin.** Understanding, thoughtfulness, competence, confidence, consciousness, and reflectivity for serving the needs of the Diné Nation.

**Diné College History**

Diné College is the first tribally controlled and accredited collegiate institution in the United States. Established in 1968 as Navajo Community College, it was later renamed Diné College. The Navajo Nation sought to create an institution of higher education that encouraged Navajo youth to become contributing members of the Navajo Nation and the world.

Under the direction of an eight-member Board of Regents, appointed by the Navajo Nation President and confirmed by the Health, Education and Human Services Committee of the Navajo Nation Council, the College continues its goals for student success.

Today, Diné College serves a predominantly Navajo student population across the 26,000 square miles of the Navajo Nation that spans across the states of Arizona, New Mexico, and Utah. The College offers General Education courses that provide students with a high-quality experience while earning various Certificate as well as Associate and Bachelor degree programs in the areas important to the economic, political, environmental, and social development of the Navajo Nation.

**Accreditation**

Diné College is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools, 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604-1411, (800) 621-7440, (www.ncahlc.org).
One College, Multiple Sites

Tsééhilj, the “place where the stream flows into the canyon,” is also known as Tsaile, Arizona, the location of the main campus. In addition to the main campus, there is a branch campus in Shiprock, New Mexico, and four regional sites located in Arizona and New Mexico. The Arizona locations are in Tsaile, Window Rock, Chinle, and Tuba City. The New Mexico locations are in Shiprock and Crownpoint.

All locations offer General Education courses and programs to support post-secondary learning and to prepare students for further study or future employment.

Diné College Campuses/Centers

List of locations with contact information:

**Tsaile Main Campus**
1 Circle Dr. Route 12, Tsaile, AZ 86556  
Ph: (928) 724-6600

**Shiprock Branch Campus**
1228 Yucca Street  
PO Box 580, Shiprock, NM 87420  
Ph: (505) 368-3500  
The Shiprock Branch has two locations: north and south campuses.

**Chinle Center**  
Hwy. 191 – Hospital Drive  
PO Box 1997, Chinle, AZ 86503  
Ph: (928) 674-3319  
Fx: (928) 674-8488  
The Chinle Center is located across from the Chinle Hospital.

**Crownpoint Center**
Junction New Mexico 371  
West Navajo Route 9  
PO Box 57, Crownpoint, NM 87313  
Ph: (505) 786-7391  
Fx: (505) 786-5240  
The Crownpoint Center is located 0.4 miles south of Bashas.

**Tuba City Center**
600 Edgewater Drive  
PO Box 1716, Tuba City, AZ 86045  
Ph: (928) 283-5113  
The Tuba City Center is located next to the Tuba City Dialysis Center.

**Window Rock Center**
Tribal Hill Dr.  
PO Box 1924, Window Rock, AZ 86515  
Ph: (928) 871-2230  
Fx: (928) 871-2395  
The Window Rock Center is located north of the Education Building.

Non-Discrimination Policy

Diné College is committed to the policy of equal opportunity and non-discrimination in employment and education regardless of race, ethnicity, religion, national origin, sex, age, or disability.

Title IX

Title IX of the Education Amendments of 1972 prohibits sexual discrimination in any form; to include any form of sexual harassment and gender discrimination.

Federal law states: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any educational program and activity.”

Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their educational records. (An “eligible student” under FERPA is a student who is 18 years of age or older or any student who attends a postsecondary institution).
About Diné College

These rights include:

1. The right to inspect and review the student's education records within 45 days after the day Diné College ("College") receives a request for access. A student should submit to the registrar, dean, head of the academic department, or other appropriate official a written request that identifies the record(s) the student wishes to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. A student who wishes to ask the school to amend a record should write the school official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student along with the notice of the right to a hearing.

1. The right to provide written consent before the College discloses Personally Identifiable Information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The College discloses education records without a student’s prior written consent under the FERPA exception for disclosure to College officials with legitimate educational interests. A College official is a person employed by the Diné College in an administrative, supervisory, academic, research, or support staff position (including law enforcement personnel and health services staff); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee. A College official also may include a volunteer or contractor outside of the Diné College who performs an institutional service or function for which the College would otherwise use its own employees and who is under the direct control of the College with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent, or a student volunteering to assist another College official in performing his or her tasks. A College official has a legitimate educational interest if the official needs to review an education record in order to fulfill her or his professional responsibilities for the Diné College.

2. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Diné College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

For additional information regarding FERPA, contact:
(202) 260-3887 (voice), (800) 877-8339 (TDD)

Drug-Free and Zero Tolerance Policy

The College is committed to the Drug Free Schools and Communities Act Amendments of 1989 specified by P.L. 101-226. This is demonstrated in the College Drug-Free and Zero Tolerance policy and is in accordance with the Navajo Nation policies prohibiting the manufacture, possession, distribution, or use of alcohol or controlled substances by students, employees and campus guests in the workplace and facilities owned or leased by the College. Smoking and the use of smokeless tobacco are also prohibited in College buildings and vehicles.

Jeanne Clery Act

In compliance with the Jeanne Clery Act of 1965, Diné College provides information regarding campus safety and crime policies outlined in the Student Code of Conduct. This Code of Conduct contains information about reporting crimes, the sexual harassment policy, the drug/alcohol policy, etc.

Student Complaints and Recommendations

Students have the right to file a grievance. Please refer to the Student Code of Conduct. To obtain a copy of the Student Code of Conduct, please contact Student Services personnel at your location.
Admission Policies and Procedures

Admission Requirements
For admission to Diné College, new and transfer students must submit and complete ALL of the following (before an appropriate admission deadline):

- Admission application with a non-refundable $20 application fee
- Official Certificate of Indian Blood (CIB) or enrollment card (applies to American Indian students only)
- Official high school transcript with graduation date or high school equivalency credential (GED®, HiSET®, or TASC®) with scores test
- Official college transcript(s) from other accredited colleges/universities

Letter of Admission
Students who have met the College’s admission requirements will receive an official Letter of Admission from Records and Admissions.

Denial or Cancellation of Admission
The College reserves the right to deny or cancel student admission or registration. Any student found to have willfully concealed or falsified information on his/her admissions application may be subject to penalties pursuant to tribal, state, or federal codes and may be subject to immediate expulsion.

International Students
International students must submit the following documents to Records and Admissions before being issued an I-20 form. All documents must be translated into English.

- Official high school transcript
- Official college transcript(s) (if applicable)
- TOEFL Scores
- Verification of Financial Support

For more information, contact Records and Admissions at (928) 724-6630.

Degree-Seeking Students
A student seeking a certificate or undergraduate degree is classified as a degree-seeking student.

First-Time Freshman
A first-time freshman student who has never attended any other college prior to enrolling at Diné College.

Transfer Students
Students who attended another accredited college or university prior to being admitted to Diné College are considered as transfer students. Official transcripts are required. Based on transcript evaluation a maximum of 40 credit hours below the 300 course level with grades of “C” or better will be accepted. Transfer courses will not be included in the student’s Cumulative Grade Point Average (CGPA) and will be shown without designated equivalents. Transfer credits remain on a student’s permanent transcript.

Returning Students
Previously stopped out students who have returned to the College are classified as returning.

Stopped Out Students
Previously admitted students who have not taken classes for two or more consecutive semesters (not including summer sessions) are classified as stopped out.

Student Status

Full-time
Registered for twelve or more credit hours per semester

Part-time
Registered for fewer than twelve credit hours per semester

Non-degree seeking
Not pursuing a degree. A non-degree student is not eligible for federal financial aid.

High School Concurrent Enrollment (Non-Degree)
High school or home-schooled students who have completed their sophomore year may enroll for a maximum of two courses per semester and one course per summer session. The student must have a minimum of 2.50 CGPA. The student must obtain and submit a High School Concurrent Enrollment Form including an admission application and his/her high school transcript.

The student is required to take the college placement tests. The student must maintain a “C” grade average. The student must meet the prerequisites and course requirements. Student transcripts will be established based on credit earned from the college. A student is not permitted to audit courses.
Admission Policies and Procedures

Dual Credit Program

What is dual credit?
Diné College’s Dual Credit Program allows high school students to get a jump start on college by earning college credits while still attending high school. Dual credit is a process by which high school students enroll in a Diné College course(s) so they receive concurrent academic credits for the course(s) from both the College and the high school.

Student Eligibility
High school students must have at least a 2.0 GPA or have the principal/guidance counselor’s approval, and meet the enrollment requirements of the Diné College Registrar’s Office. Other requirements established by individual high schools may also apply.

Eligible Classes
A list of College courses that have been approved for the Dual Credit Program is available at the Dual Credit Office and online at: http://www.dinecollege.edu/dual-credit-program/index.php. Only academic courses are eligible for dual credit classification. These courses allow for transfer of college credit based on transfer agreements among public colleges and universities in Arizona, New Mexico and Utah, including other tribal colleges and universities. Vocational, remedial, and physical education classes are not eligible for dual credit.

Placement Tests
Potential Dual Credit students must take Accuplacer tests in reading, writing, and math. The College uses the scores to determine which courses that Dual Credit students are eligible to take.

Enrolling in Dual Credit Courses
Dual Credit students must submit the following to the Records and Admissions Office before registering for classes (all documents must be original, no copies or scanned documents accepted):

- Diné College Application
- Official Certificate of Indian Blood
- Diné College Dual Credit Request Form (Arizona, New Mexico or Utah) signed by the student, parent/guardian and high school representative
- Accuplacer test results given by the College and with scores attached to application

Tuition and Fees
Tuition and fees are waived at the time of enrollment and registration. Upon completion of the Dual Credit course(s), the College requests for reimbursement from appropriate funding sources. According to federal guidelines, Dual Credit/Enrollment students are not eligible for financial aid.

Textbooks
High school representatives are responsible for purchasing and distributing all textbooks and learning materials, which are available online at http://www.dinecollege.edu/bookstore/virtual-bookstore.php
Registration

Academic Advising

Academic advising provides the following services to assist students with their academic and personal goals at Diné College.

Academic Advisors and Faculty Advisors support students in the following areas:

- Identifying appropriate courses to fulfill program requirements
- Exploring educational and career goals
- Exploring academic degree programs
- Gathering information about resources and services for managing academic life
- Understanding institutional policies, procedures, and programs
- Transferring to/from four-year institutions

All students are required to meet with either an Academic Advisor at the Student Success Center (Tsaile and Shiprock campuses only) and/or Community Campus Office, or a Faculty Advisor prior to scheduling classes each semester. This will ensure students are enrolling in the right classes for their curriculum and possible transfer plans.

Shiprock Student Success Center, call (505) 368-3621
Tsaile Student Success Center, call (928) 724-6855
Chinle Center, call (928) 674-3319
Tuba City Center, call (928) 283-5113
Window Rock Center, call (928) 871-2230
Crownpoint Center, call (505) 786-7391

Student Orientation

Student Orientation is designed to help new students transition to Diné College and general college life. Freshman and transfer students are required to attend Fall or Spring orientation. The College’s Bachelor Degree programs have additional orientation activities. For more information, call the Student Success Centers in Tsaile or in Shiprock.

Placement Tests

All first-time freshmen, concurrent enrollment students, and dual enrollment students are required to take the placement test in the three subject areas of reading, writing, and mathematics prior to registration. The test results will determine the level of course placement.

Students who do not agree with the placement test results, may take challenge tests. A challenge may be taken to advance a student to the next level of course sequence. It must be taken prior to registration:

1. The challenge test for reading and mathematics will be conducted at the Learning Centers.
2. The challenge writing test will be given by the English Faculty.

Transfer students are required to take the placement test unless an unofficial transcript is presented at the time of testing for reading, writing, and mathematics. Students pursuing a degree may have their writing or mathematics test waived upon evaluation of transcripts. A document to waive courses will be sent to the Registrar’s Office and the Advisor.

Reading Proficiency is required for graduation either by passing or testing out of FST 131 – Advanced Reading.

A student who has earned an associate degree or higher may be exempt from the placement tests.

Diné College recommends students retake the placement test after not attending college for four (4) years.

Contact the Learning Center in Tsaile at (928) 724-6725/26, Shiprock at (505) 368-3621, or the Offices at the regional sites in Chinle, Window Rock, Crownpoint and Tuba City.

A Navajo Language Placement Exam is also required for all Diné College Students who will enroll in Diné College's Navajo language classes for the first time. Exam results will determine the level of course placement in Navajo language classes. For more information about the Navajo Language Placement Exam, or to schedule an exam, please contact Center for Diné Studies at 928-724-6658 located at Tsaile Campus.
Students with an account balance in excess of $150.00 are not allowed to register. Account balance must be below $150.00.

Tuition

Tuition cost for all A.A.S., A.A., A.S., B.A. degrees and Certificate programs are $55 per credit hour or up to $660 for full-time students (12 credits).

Required Fees (Non-Refundable)

- Application (new first time students) $20
- Technology Fee $20
- Activity Fee (TS, SR, TC Sites only) $20
- Vehicle Parking Permit (student) $5
- Vehicle Parking Permit (staff/faculty) $10
- Student ID Replacement $5
- Graduation Petition and Diploma $25
- Late Graduation Petition $35
- Official Transcript (per copy) $5
- Same day Transcript $15
- Residence Life Improper Check out $30
- Residence Life Cleaning Fee $50
- Residence Life Lost Key $20
- Residence Life Housing Damage Varies
- GED Administration Test (AZ/NM) Varies
- GED Administration Re-Test per Subject $20

Technology Fee

All students are required to pay a $20 Technology Fee each semester. The fee pays for computer lab usage, software, distance education, ITV and Warrior Web.

Activity Fee

Students at the Tuba City, Tsáile and Shiprock campuses are charged a $25 Activity Fee for the Fall and Spring Semesters. The fee pays for activities that are held on campus such as lectures, cultural events, social events and sports.

Cancelled Course Policy

Students will receive a tuition refund, if a course was cancelled by the College. The refund will not include the non-refundable fees (technology and activity fees, where applicable).

Payment Options

Payments are accepted at all Diné College locations by cash, money order or credit card (VISA and MasterCard only). The Finance Office accepts credit card payments over the phone. The College does not accept personal checks.

Payment Plan

FALL and SPRING Semesters ONLY

Diné College offers a payment plan to students who are not eligible for financial aid. The plan works by dividing the tuition bill into four (4) equal payments. The payment plan is a non-interest student promissory note or loan, and does not accumulate interest charges. The student tuition bill will be paid in full when the payment plan ends. Tuition bill payments are due every 4th Friday of each semester month.

SUMMER Session

The plan works by dividing the tuition bill into bi-weekly payments. Tuition bill payments are due every 2nd and 4th Friday of each semester month.

NOTE: Students who sign up for the payment plan will not be eligible to register for the upcoming semester or request an official transcript until payments are completed and the account balance is zero. All accounts with a balance will be put on an Accounts Receivable (AR) Hold status.

Official Transcript Requests

All financial obligations to the College must be met before official transcripts will be released. Exceptions can be made for ONNSFA scholarships only; upon review.

Refund Policy

A financial obligation to the College occurs when a student registers for classes. The refund amounts and timeframe is outlined in the refund tables. Students who completely withdraw from the College (no longer enrolled in any classes) must complete an Official Withdrawal Form. Students who drop a course(s) by completing an Official Drop Form, but continue enrollment may be eligible for a refund based on the date of when the course(s) was officially dropped. Students who fail to attend class or request an Instructor Drop WILL NOT be released from financial responsibility. It is the student’s responsibility to complete the appropriate paperwork.
within the allotted timeframe to be considered for a refund, failure to do so will result in the forfeiture of tuition refunds.

**Tuition and Fees**

**Tuition and Fees**

**Tuition Refund**

Tuition is refunded from the date instruction begins as follows:

<table>

Office of Financial Aid & Scholarships

Diné College administers federal, state, tribal, and institutional grants and scholarship programs to assist students based on financial need or academic merit. Available funds are used to provide assistance to qualified students. Students are responsible for initiating the application process for financial assistance and scholarships. Students are encouraged to apply as early as possible.

The Office of Financial Aid & Scholarships (OFA&S) supports the College’s mission by providing access and equal opportunity for financial assistance to eligible students through federal, tribal, state, institutional, and private sources regardless of sex, color, age, or other circumstance. The main goal of the OFA&S is to educate students to seek other funds to meet the rising costs of education through grants, part-time work or scholarships.

Students are eligible for federal financial aid if they are enrolled in a certificate or degree program. The degree program should be at least one academic year in length and the student must meet satisfactory academic progress (SAP), have a high school diploma or equivalent, and must be a U.S. citizen or eligible non-citizen. Male students must comply with Selective Service registration requirements.

All students must complete the following:

A Free Application for Federal Student Aid (FAFSA) and a Financial Aid Data Form (FADF) are available at Diné College’s OFA&S at Tsaile, Shiprock and regional sites, any high school counselor’s office, or online at www.fafsa.ed.gov. The FAFSA/ISIR response will determine a student’s Expected Family Contribution (EFC).

Financial Aid Data Forms (FADF) and other financial aid information are available at Diné College’s Office of Financial Aid & Scholarships and online at http://www.dinecollege.edu.

Cost of Attendance (COA)

Diné College has established a cost of attendance for Dependent and Independent students as well as for students living in the dorm, Residence Life. The Pell Grant award is based on the COA and student/parent’s EFC – expected family contribution; therefore, no two students’ awards are exact. Following is a cost of attendance (COA) example for an On Campus student living in the dorm/Residence Life for one semester:

<table>
<thead>
<tr>
<th>COA Example</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition and Fees</td>

<tr>
<td><strong>Unmet Need</strong></td>
<td><strong>$1,463</strong></td>
</tr>
</tbody>
</table>

Award Amounts vary based on several factors:
- Enrollment Status
- Grade Point Average (GPA)
- Satisfactory Academic Progress (SAP)
- Degree or Major
- Dependent or Independent
- Child care expenses

Satisfactory Academic Progress Policy (SAP)

Federal regulations require Diné College to establish satisfactory academic progress standards for students who are receiving Title IV financial assistance. Diné College’s OFA&S reviews grades at the end of each semester and measures satisfactory academic progress in the following areas: grade point average (GPA), completion rate or pace, and maximum timeframe.
Students receiving financial aid must meet satisfactory academic progress (SAP) toward the completion of a certificate or degree program. Diné College has both qualitative and quantitative measures of academic progress:

**Qualitative Standard:**
- Minimum grade point average (GPA)

**Quantitative Standards (Pace):**
- The maximum timeframe a student has to complete a degree,
- A minimum percentage of courses attempted must be passed, and
- A maximum number of courses from which a student is allowed to withdraw or drop

*NOTE: Grades of F, I, W, or IP are not accepted as passing and could affect eligibility for future financial aid. (See “Non-Grade Designation Table” in this Catalog).*

### SAP Impact of Course Repetition, Withdrawals, Incompletes, Transfer Credits, Changes in Major

#### Course Repetition
Repeat credits are applied when a student repeats a course in order to improve a grade. Students are allowed to repeat any previously passed course and have it count toward enrollment for financial aid eligibility only once. Each attempt at the course, however, will count toward a student’s pace and maximum timeframe.

#### Official Withdrawal
A school’s SAP policy cannot exclude “W” grades in SAP reviews. Withdrawal hours are assigned when a student withdraws from a class after the drop period.

Withdrawal hours count as credit hours attempted toward both pace and maximum timeframe.

#### Unofficial Withdrawal
An unofficial withdrawal occurs when a student does not successfully complete any courses (receives all “F” grades), stops attending classes, or did not complete any coursework. A student with an unofficial withdrawal may be required to repay up to 50% of his/her financial aid received for the term. Students who never attended any of their classes and did not complete any course work are required to repay 100% of the financial aid received for the semester or summer term. Non-attendance does not relieve students of the financial responsibility for tuition charges once they are registered for a class.

#### Incompletes
Incomplete (I) is a temporary grade that is assigned only in exceptional circumstances. It will be given only to students who cannot complete the work of a course on schedule because of illness or other circumstances beyond their control. Once an official grade is received, students should notify the Office of Financial Aid & Scholarships.

#### Transfer Credits
Coursework taken at another institution that is accepted and officially transfers as transfer credit by Diné College will count as both attempted and completed credit hours toward pace and maximum timeframe. Students who exceed the maximum timeframe can submit a SAP Appeal to determine if their aid can be reinstated.

#### Change in Major
Students who have changed majors or are pursuing a second degree may reach their maximum timeframe before their program of study is complete. All credits attempted are treated in the quantitative, qualitative, and maximum timeframe standards for SAP.

#### Additional Degree(s)
Students who already have an equivalent of an A.A. or A.S. degree (or higher) do not qualify for additional Pell Grant funds unless the student is officially accepted into a Bachelor of Arts degree program in Business Administration or Elementary Education.
Repeat

Students may repeat courses previously taken at the College to better their understanding of the material or to improve their grade. A transcript shows that the course was repeated, but only the higher grade is used to compute the student’s Cumulative Grade Average.

Retake

Courses may be retaken, but only one retake of a course counts towards a student’s eligibility for financial aid purposes.

If students with disabilities can demonstrate equal or higher academic performance as their typical college peers and/or demonstrate the ability to maintain satisfactory academic progress, they may be considered eligible for accommodations such as course substitutions. Course substitutions could be a workshop, independent study, special topic classes, or practicum experiences.

The substitute course must be at the freshman and sophomore levels, and be closely related in content, objectives, and outcomes to the original required course. Such accommodations will be considered on a case-by-case basis to ensure students with disabilities meet the necessary and required coursework for the specific degree or certificate program.

Financial Aid Warning

Recipients of financial aid will receive a financial aid warning notice after any semester in which their semester/term grade point average falls below the “Completion Rate/Pace” and/or they fail to satisfactorily complete 67% of the credit hours in which they are enrolled.

The financial aid warning letter serves as a WARNING to the student that he/she did not maintain satisfactory academic progress during the most recent semester of attendance at Diné College. Failure to meet one of the academic progress standards for one semester results in financial aid warning. Students on financial aid warning are eligible for Title IV Funds. Students will be removed from warning status after completing the following semester in good academic standing.

Financial Aid Suspension

Recipients of financial aid will be suspended from aid if they fail to meet the semester grade point average and/or to complete 67% of their enrollment. Failure to meet one of the academic progress standards for two consecutive semesters may result in financial aid suspension. Students on financial aid suspension are not eligible for Title IV Funds.

Financial Aid Appeal Process

Students who are on financial aid suspension must submit a completed Financial Aid Appeal form with supporting documentation by the designated deadline, if they want to be considered for Title IV funding. The Financial Aid Director or the Financial Aid Committee will review the appeal. An appeal should be based on extenuating circumstances and documented by the student: i.e. hospitalization, accident, death in the family, etc. The results of the appeal will be sent to the student following the consideration and decision. Information and forms are available at the Office of Financial Aid & Scholarships or online at www.dinecollege.edu.

NOTE: Students are encouraged to seek other available resources including the Payment Plan / Options with Diné College pending final approval by the FA Appeal Committee.

Reinstatement of Financial Aid Eligibility

A student may lose federal and institutional aid eligibility because he/she is not meeting the SAP GPA or Pace standards.

A student may regain eligibility by the following:

- Submit a Financial Aid Appeal form with supporting documentation; a student must be advancing toward a degree and show progress within the SAP Academic plan for graduation

Financial Aid Probation: If a student’s FA Suspension appeal is approved, the student will be awarded on a Financial Aid Probation Status and must complete all credits with a 2.0 grade point average by the end of the semester, otherwise, he/she will go on FA Suspension.

- Complete one semester using his or her own resources or utilize Diné College’s Payment Plan with at least half-time enrollment (6 or more credit hours); courses taken must be chosen in consultation with an Academic Advisor; a student must advance toward attaining a degree and adhere to the Degree Checklist
Once eligibility is restored, a student will be awarded aid for the following terms, subject to availability of funds.

Return to Title IV (Refund & Repayment Policy)

If students receiving federal financial aid officially and/or unofficially withdraw from the College, the amount of the financial aid to be repaid or refunded is calculated using a formula supplied by the U.S. Department of Education. The last day of attendance is used to calculate the total amount to be repaid. A refund is the difference between the amounts paid toward institutional costs (including financial aid and/or cash paid) and the amount the school may retain under the appropriate refund policy. For more information on the Title IV Refund/Repayment policy see the Office of Financial Aid & Scholarships.

The order of refund of Title IV funds to the programs from which the student received aid during the payment period or period of enrollment is in the following, up to the net amount disbursed from each source:

1. Unsubsidized Federal Stafford loans*
2. Subsidized Federal Stafford loans*
3. Unsubsidized Direct Stafford loans (other than PLUS loans)
4. Subsidized Direct Stafford loans
5. Federal Perkins loans
6. Federal PLUS loans
7. Direct PLUS loans
8. Federal Pell Grants for which a return of funds is required
9. Academic Competitiveness Grant for which a return of funds is required
10. National Smart Grants for which a return of funds is required
11. Federal Supplemental Educational Opportunity Grant (FSEOG) for which a return of funds is required
12. Federal TEACH Grants for which a return is required

NOTE: *Diné College does not participate in the Federal Student Loan Program and will not certify enrollment or share information with potential lenders.

Changes That May Impact Eligibility
(Consolidated Appropriations Act of 2012: Effective July 1, 2012)

- Federal Pell Grant Duration of Eligibility – Beginning award year 2012–2013, the duration of a student’s eligibility to receive a Federal Pell Grant is reduced from 18 semesters or its equivalent to 12 semesters or its equivalent; the calculation of the duration of a student’s eligibility will include all years of the student’s receipt of Federal Pell Grant funding

- Pell Grant Lifetime Limit – Beginning Fall 2012, students are now limited to receiving 12 semesters (or 600%) of Pell Grant eligibility during their lifetime; this change affects all students regardless of when or where they received their first Pell Grant; students may view their percentage of Pell Grant used by logging into www.NSLDS.ed.gov (Your ‘Lifetime Eligibility Used’ percentage will be displayed in the ‘Grants’ section)

Completion Rate/Pace & Maximum Timeframe

Maximum Timeframe/Pace

The U.S. Department of Education places a credit hour limit on funding for all financial aid students. Funding is available until students have reached 150% of the credit hours required to complete their program. This includes all double majors, additional degrees, repeat credits, and transfer credits (example: A.A. in Bus Admin. = 69 credits × 150% = 103 credit hour maximum timeframe)

Financial Aid

Paying Prior-Year Charges
In general, FSA funds may only be used to pay for the student’s costs for the period for which the funds are provided. However, a school may use current-year funds to satisfy prior award year charges for tuition and fees, room and board (and with permission, educationally related charges) for a total of not more than $200. A school may not pay prior year charges in excess of $200.

Federal Work Study Program (FWS)
FWS is a federally-funded program and a part of the Title IV student aid funds. It provides jobs for students with financial need, allowing them to earn money to help pay for their educational expenses.

Student Consumer Information
Diné College provides current information through annual publications on students’ rights and responsibilities concerning financial aid. For more information contact the Office of Financial Aid & Scholarships.

Payment Plan
Other resources available to help pay for educational-related expenses include Federal Work Study, Tribal Scholarships, etc. Diné College also offers an affordable monthly payment plan if a student is not eligible for financial aid.

Office of Financial Aid & Scholarships Contact:
The Office of Financial Aid & Scholarships is located at the Student Success Center at Tsaile Campus and Shiprock North Campus. For more information, call:

Student Services at Diné College

The purpose of Student Services at Diné College is to support the instructional programs, respond to student needs, and foster students’ academic, personal, and social development.

In efforts to promote students’ leadership skills and quality student life, Student Services offers a variety of services including Financial Aid and Scholarship, Academic Advising, Transfer and Career Services, Counseling, Disability Support Services, Retention, GED/Adult Education, Student Orientation, Tutoring, Residential Life, and more.

Adult Education Program

Diné College offers basic educational opportunities for students who need to work on their reading, writing, and mathematics skills. This Program also helps to prepare students for High School Equivalency Tests. For more information on this Program, call the Adult Education Program in Shiprock at (505) 368-3563.

Associated Students of Diné College (ASDC)

The Associated Students of Diné College (ASDC) serves as a communication link between students and the administration. All currently enrolled students are members of ASDC. The motto of ASDC is “Students Helping Students.” Members can take advantage of many student government opportunities in terms of leadership development, college and community life, student development, and group interactions in both intellectual and social settings. For more information call (928) 724-6726 or (928) 724-6611.

Athletics

Since 1968, Diné College has supported athletic teams and developed an overall intercollegiate athletic program that ranks among the very best in Division I nationwide. Diné College Warriors have won many conference, regional and national championships in a variety of sports. Winning teams have become a tradition at Diné College in both men’s and women’s sports.

Community support for intercollegiate athletics at Diné College has been outstanding. The caliber of coaching, the quality of uniforms and equipment, and the opportunity to play against worthy competitors are superior. Diné College Athletic Programs aspire to the highest level of intercollegiate competition, sportsmanship and academic excellence, visit website at: http://www.dinecollege.edu/gowarriors

Financial Support for Student Athletes

Athletic scholarships, grants-in-aid and special inducements or privileges for athletes do exist at Diné College in accordance with the rules governing community college athletics. For more information on financial aid for athletes see financial aid.

Intercollegiate Athletics for Men and Women

Eligibility for Intercollegiate Sports

For a student to be eligible for any intercollegiate competition, the student must meet the following regulations:

- Graduate of an accredited high school with a diploma or earned a General Education Development (GED) Certificate
- Enrolled in a recognized academic program and making progress toward a two or four year degree at the attending college
- Receive passing grades in 12 credit hours during his/her first term and have a GPA of 2.00
- Receive passing grades in 24 credit hours during the two preceding terms of enrollment
- Achieve a 2.00 cumulative GPA after accumulating 24-48 credit hours
- Summer and inter-term credit hours can be used to satisfy the 12/24 credit hour rule and GPA requirement
- Summer credit hours should be attached to the preceding Spring Semester for eligibility purposes

An eligibility form must be filed with the Office of Records and Admissions prior to participation in intercollegiate sports. Student athletes are not permitted to participate in athletic competition without proper documentation.

Student Athletes Class Attendance

Student Athletes are responsible for maintaining the attendance requirements as described in the course syllabi. As a reminder for student athletes, academics come first and athletics second. Services are available to help student athletes accomplish and reach their goals.
Student Services and College Resources

Student Athletes on Satisfactory Academic Progress (SAP)
Student athletes must demonstrate satisfactory progress with a 2.00 GPA or higher to continue athletic participation and must maintain enrollment of 12 credit hours. Student athletes who drop below 12 hours and/or whose GPA falls below 2.00 are immediately ineligible for athletic participation.

Satisfactory Completion
To be eligible for the next semester, a student athlete must have passed 12 or more credit hours and maintain a 2.00 GPA or higher.

Falsification of Records
Student Athletes who falsify their academic records shall become immediately ineligible from further participation and competition.

Intermural Sports for Men and Women
Volleyball, Basketball, Soccer and Softball compete locally with colleges in the area. Basketball also competes annually at the American Indian Higher Education Consortium (AIHEC) National Championship. Eligibility requirements follow the same collegiate school regulations.

Bookstore
The bookstores at Tsaile and Shiprock campuses provide general merchandise such as art supplies, office supplies, personal items, snacks, soft drinks, gift items, general reading books, and official Diné College apparel. For more information, call (928) 724-6750/6871.

Note: The College now has an online Virtual Bookstore, in partnership with eCampus, the Virtual Bookstore aims to provide competitive pricing of textbooks available for purchase online.

Textbooks are now purchased online at www.ecampus.com/dinecollege, for more information, call 1-877-284-6744.

Cafeteria
Located in the middle of the Tsaile Campus is a full-service cafeteria managed by Aramark. The cafeteria provides breakfast, lunch, and dinner with a self-serve salad and beverage bar for a fee. Menus are available and posted around campus. Everyone is welcome.

Campus Security
The Tsaile and Shiprock Campus Security Department operates 24/7, year-round. Security Officers serve and protect people and property on the campus. All sites are covered by the Navajo Nation Department of Law Enforcement. Security Contact information:

Parking Permits
All students (residential and commuters), faculty, and staff are required to have parking permits for their vehicles. Parking permits may be purchased at the respective security offices. Parking Permits cost:
- Faculty and Staff: $10 Annually
- Students: $5 per Semester

Career Services
Career Services are available at the Tsaile and Shiprock campuses as part of the comprehensive education and student services offered at the College.

Career Services assists students with exploring, developing, and setting goals to each student’s unique educational and academic needs. These services include career assessments, occupational information, goal setting, degree planning, and employment resources.

Our goal is to prepare students to become active participants in their career goals and build employable skills while attending Diné College. Contact information:

Computer Services
The Information Technology Department (ITD) provides an array of computer-related services. Computer labs are located across the main campus and at the various regional sites for student use. Wireless access is available at all regional sites. Students who have their own computers must have current anti-virus protection installed in order to gain access to the Internet with the College.
Students who do not have current anti-virus software must contact ITD for more information. Laptops have to be registered with the IT department for access to the internet and WarriorWeb.

**WarriorWeb**

WarriorWeb is the official portal to the Diné College community. WarriorWeb provides students, staff, and faculty with exclusive 24-hour access to internal college information and resources. Those with a WarriorID and password will be able to access online courses and important announcements, news, and events.

WarriorID is used for:

- Diné College computers
- Student information on Diné College’s portal, WarriorWeb (grades, schedule, Financial Aid, and Student Billing)
- Diné College e-mail account
- Networked Student Folder (S drive)
- Online classes through Learning Management System (LMS), such as eRacer or Blackboard
- Diné College wireless access points
- Purchase of textbooks via the virtual bookstore

**Counseling Services**

The Counseling Services provides academic, career, and personal counseling designed to:

- Help students identify and attain their educational and career goals
- Promote personal growth and development of students
- Guide and assist students in becoming active, responsible, and self-disciplined individuals
- Encourage and assist students with explorations of personal and professional choices.

We offer individual counseling on a short-term basis to focus on personal issues that may prevent a student from achieving academic success. Counselors can also help students make contact with appropriate community resources.

Counseling Services are located at the Tsaile, Shiprock and Tuba City locations. Tsaile, Chinle and Window Rock students should contact (928) 724-6854; Shiprock and Crownpoint students should contact (505) 368-3628; and Tuba City students should contact (928) 283-7505.

**Disability Support Services**

Diné College is committed to providing college-wide academic support services for students with documented disabilities. Students who have specific learning disabilities, sensory impairments, psychological disorders, or physical conditions are encouraged to meet with the Disability Coordinator to discuss support services and reasonable accommodations.

The following services are available: classroom accommodations, testing accommodations, referral for academic support services, academic advising, and supportive counseling.

Eligibility for support services is dependent upon documentation by a licensed or medical professional. Documentation must be within three years of an individual’s disability. Students must apply for disability support services each Fall/Spring semester.

The Disability Support Services are located at the following campuses/centers:

- Tsaile (928) 724-6856
  *Chinle & Window Rock Students contact Tsaile*
- Shiprock (505) 368-3627
  *Crownpoint students contact Shiprock*
- Tuba City, (928) 283-7505

**Diné Environmental Institute (DEI)**

(DEI) through Federal Grants has been utilizing and strengthening Diné College’s Science, Technology, Engineering and Math (STEM) programs to support Diné College students through greater attention to cultural relevance, scaffold learning and research-based classroom and laboratory instructional delivery. Key to these goals is the understanding of the Diné process and method of research and analysis using core ancient Diné principles and values which guide environmental research and education.

The Diné concept of and relationship to the environment and the natural elements of life are strongly linked to the use of core ancient Diné principles and values which guided environmental research, curriculum and Math/Science STEM approaches. Educational sessions obtained from these research activities are taken into the Collegiate classrooms, K-12 schools, community and other professional entities.
Diné Environmental Institute at the Shiprock, New Mexico campus of Diné College holds considerable promise for Diné Interns advancing real-life practical applications drawn from the philosophical strengths of Navajo culture to the understanding of issues and to the generation of solutions to the major contemporary issues of society — both Navajo and national. The Goals of the DEI Internship Program are:

1. To encourage students to develop a strong interest in science, math and/or engineering and to complete an Associate of Science degree (any option).
2. To prepare students to transfer to a four-year college or university and complete a BA/BS degree program (minimum) in a Math, Science or Engineering major.
3. To provide real-life research experiences for students at national laboratories, partner agencies/universities and local communities and to expose students to activities commonly encountered in scientific careers.
4. To encourage Native American students to return to their communities as scientists and engineers.

**Diné Policy Institute**

The Diné Policy Institute (DPI) was established in 2005 as a partnership between the Navajo Nation Council and the Board of Regents of Diné College. DPI is an academic research entity of Diné College, implementing dynamic policy analysis based on Diné teaching and paradigms. DPI researches key issues facing the Navajo Nation using the framework of Diné philosophy to inform its methods of data collection, analysis, and recommendations and serves as a resource to provide quality research and education to the Diné people.

DPI also advises Navajo Nation law and policymakers by developing innovative policies and solutions for the Navajo Nation and the Diné people. Through its unique approach to research, the Diné Policy Institute identifies, articulates, analyzes, and applies Diné paradigms to issues facing the Navajo Nation. DPI employs qualitative, quantitative and community-based research methodologies. DPI consults with an Advisory Circle, composed of traditional knowledge holders and Navajo scholars, to provide valuable insights and wisdom related to the Institute’s research areas.

Both undergraduate and graduate research internships are available at the Diné Policy Institute on projects pertinent to the Diné people and the Navajo Nation. Interns will support DPI research projects in various ways under the mentorship of DPI researchers, and will address contemporary Navajo issues, such as Food Sovereignty, Public Health, Sustainable Community Development, Education, Social Service, Cultural Rights, and Government Development.

The Diné Policy Institute is housed at the Tsaile Campus of Diné College, Ned Hatathli Center (NHC) 632, http://www.dinecollege.edu/institutes.php

**High School Equivalency (HSE) Tests and Credentials**

Individuals who are 16 years or older and have not received their high school diplomas are eligible to have the HSE Tests administered to them. The State of Arizona administers the GED® Test and New Mexico administers the GED® and HiSET® tests. The HSE credentials are issued by the Arizona Department of Education or New Mexico Public Education Department, respectively. Prior to testing, individuals are strongly encouraged to enroll into a local Adult Education Program to prepare. For more information on the HSE tests, call Student Services in Shiprock at (505) 368-3629.

**Land Grant Office (LGO)**

Through an act of Congress, all tribally controlled colleges were granted Land Grant institution status in 1994, which means that they are eligible to receive federal funds with certain restrictions. To uphold the Land Grant mission, the Diné College Board of Regents established the Institute for Integrated Rural Development in 1996 and subsequently changed the name to the Land Grant Office.

The Land Grant mission is to serve consumers through higher education programs, community outreach, and research. In doing so, the Land Grant Office has developed informal education which is disseminated as community outreach activities and projects, research, and extension in the areas of Natural Resource Management and Agriculture. Projects include large animal herd health workshops and presentations, developing farms at Tsaile and Shiprock campus, drip irrigation and hoop house construction workshops, Environmental Youth Camps, Sheep is Life Celebration, and 4-H clubs and recruitment. For more information, call (928) 724-6940.
**Student Services and College Resources**

**Land Grant Office Internship**

Available to students in any major. Students must maintain a GPA of 2.5. Student projects include the demonstration farms at Tsaile or Shiprock and assisting with community events involving agriculture, nutrition, or 4-H programs. This internship is designed for students considering a career as an extension agent or working with the USDA.

**Learning Centers**

The Learning Centers are located at the Tsaile, Shiprock, Tuba City, and Window Rock sites. The Tsaile Learning Center is located on the first floor of the Ned Hatathli Center. The Shiprock Learning Center is located inside the Student Success Center at south campus.

The Centers provide academic support to students including:

- Placement Testing for incoming students, Proctoring Tests for institutions, online courses
- Free one-on-one tutoring by peers
- Computer labs: Microsoft and Macintosh based operating systems
- Academic improvement workshops
- Internet access, telephone, emailing, proctoring, printing, copying, faxing, and scanning
- Academic Advising

**Library Services**

The Diné College library system is located on the Tsaile, Shiprock (south campus), and Crownpoint sites. Library access and services are provided to students, faculty, staff, and the local community. In addition to books, the library's homepage gives access to electronic databases and other resources.

At the Tsaile campus, the Kinyaa'aanii Library houses the R.C. Gorman Collection, a large movie and documentary selection, an extensive juvenile literature section, and a large selection of Navajo and Native American books in the Moses-Donner Indian Collection. At the Shiprock campus, the Senator John Pinto Library houses the David Brugge Collection of books, journals, and archaeological studies. The library at the Crownpoint site houses the Mary Shepardson Collection, a must-see for Navajo researchers. For more information, call:

**Library Card**

Student ID Cards can be activated as library cards. A student at the Tsaile or Shiprock campuses or the Crownpoint Center can take his/her Student ID to the library for activation. Students at the other Centers can speak to staff members to have a library card sent from Tsaile. Library Cards are needed to access the system, check out materials, and use the computers.

**Ned Hatathli Museum**

The museum is located on the fourth floor of the Ned Hatathli Center at the Tsaile Campus. It features a variety of audiovisual exhibitions, traveling exhibits, workshops, and lectures. The museum holds unique archaeological and ethnographic items. For information, call (928) 724-6982.

**Navajo Language Proficiency Test**

The Navajo Nation Department of Diné Education authorizes the Center for Diné Studies to administer the proficiency test for oral and written Navajo language. The test fee is $65.00. For more information or to schedule the test, contact the Tsaile Campus Center for Diné Studies at (928) 724-6663 or (928) 724-6658.

**The Office of Institutional Advancement (OIA)**

OIA works with multiple constituencies within Diné College in order to secure the resources required to fulfill the College’s mission. OIA focuses on shaping the future of the College by providing leadership, expertise, and support in the areas of fundraising, development, donor relations, institutional planning, campus development, data research, institutional grants, marketing, radio, and public and community relations. For more information, call: (928) 724-6698.
Residence Life Program

Residence Halls are available for students at the Tsaile Campus only. Students with a GPA of 2.0 from the prior semester, transfer, and new incoming students are given priority. Students must provide their own linens and are responsible for the cleanliness of their assigned rooms and common rooms of assigned halls. Coin-operated washing/dryer machines are available in each of the Residence halls. Housing policies and regulations can be obtained from the Residence Life Office or on the Diné College website under Residence Life. For more information regarding student housing, call (928) 724-6782.

Single Applicants - Application Requirements:
- Completed and signed Residence Life Application and Contracts. If the student is a minor, the student’s parent must sign the application and all other necessary paperwork requiring a signature
- Background check clearance
- Class schedule (must be full time/12 credit hours)
- Verification of funding sources
- Security deposit receipt

Family - Married/Single Parent Applicants - Application Requirements:
- Completed and signed Residence Life Application and Contracts
- Married students applying for family housing or family apartments must provide a marriage certificate/license, a certified court order of a traditional Navajo wedding or common law marriage or birth certificate listing both parents
- Background check clearance
- Class schedule (must be full time/12 credit hours)
- Copies of birth certificates for all dependents
- Verification of funding sources
- Security deposit receipt

Parents must purchase meal plans for their dependents 6 years to 12 years of age residing in residence halls. For health and safety reasons, no more than 2 children, 0–12 years of age, are permitted to live with their parent(s) in the residence halls.

Guest Housing

Residence Life has four guest rooms during the fall/spring semesters for overnight guests, students, staff and faculty, depending on availability. Reservations must be made 24 hours in advance with the Residence Life Office.

- $25 for single occupancy per night
- $35 for double occupancy per night
- $10 per night for current registered students

Guests must verify availability with the Residence Life Office before paying the fee at the Business Office. Guests must bring the receipt to the Residence Life Office before a room will be assigned and guests receive a key. Guests are required to fill out a Guest Registration Form and must abide by the Residence Life Policy.

Parking Permit

Diné College requires all residence hall students to display a current parking permit. Parking permits can be purchased at the Cashier’s Office for $5 and permits are distributed by Campus Security Office.

Retention Office

The purpose of the Retention Office is to identify, recruit, retain, and empower students. The Retention Office works with students who are struggling to stay in school. Students struggle for a variety of reasons including academic difficulties, work-related issues, and life pressures; The following services are provided to assist students:

- Assistance in accessing student support programs and services such as financial aid, career services, counseling services, academic support, special needs, etc
- Support and encouragement to stay in school
- Linking students to community resources such as daycare, financial assistance programs, etc

Student Activities

Student Activities promotes programs creating social engagement, leadership and student development opportunities. The Student Activities mission is to promote diverse and creative programming that will enhance the out of classroom college experience.

Activities include Talent Shows, guest speakers, live performances, music and dance events, movies, food events, magic shows, and Traditional Navajo Shoe games.
Student Services and College Resources

Health and Wellness events include Health Fairs, Workshops, Fun Runs and much more. The Student Activities office is located inside the Student Union Building. For more information call Tsaile Student Activities at (928) 724-6743 or 6744 or Shiprock Student Activities at (505) 368-3533.

**Student Clubs and Organizations**

To make the most of your time at Diné College, you want to get involved, whether that means planning a Powwow or helping to organize a charity event to raise funds. Whatever you do, you want to make a difference, and you can start by getting involved in one of the clubs and organizations available to Diné College students.

When you join a club, you meet other students with the same interests, develop leadership skills, embark on an adventure, and have fun. All Clubs are sanctioned by the Associated Students of Diné College. For more information Tsaile Student Activities at (928) 724-6743 or 6744 or Shiprock Student Activities at (505) 368-3533.

**Transfer Services**

Students who are interested in pursuing a bachelor’s degree from another institution should contact Academic Advising. Advisors are available to assist you with researching 4-year institutions, bachelor degree programs and requirements. Some resources and support services offered through transfer services are:

- One-on-one advisement focused on transfer options
- Informational brochures on 4-year institutions
- Assistance with the admissions process

**Veteran Services**

Diné College is committed to serving the educational needs of veterans. Veterans Services is an integral component of Student Services at the College. A designated Veterans Affairs (VA) School Certifying Official is available at each of the following DC locations to assist veterans needs: Tsaile, Crownpoint and Shiprock.

Certifying Officials provide and assist returning military members to enroll at the College and to expedite the processing of Veteran’s Education & Training Benefits while enrolled at the College. There are numerous VA Education Benefit programs available to Veterans based on military service at the time of discharge.

Diné College curricula and courses are approved programs by both Arizona and New Mexico Veterans Education & Training Approval Agency for training of Veterans & eligible dependents. Veterans who meet the eligibility requirements to receive Education Entitlement are required by law to comply with all VA regulations under which a Veteran is granted Education Benefits.

Please contact a Certifying Official for more information. Veteran students enrolling at Tuba City, Chinle, or Window Rock Centers, please contact Tsaile campus.

In order for students to be successful, it is the responsibility of the students to familiarize themselves with the academic policies.

Academic Appeals
Students placed on academic probation or suspension may appeal to the Academic Standards Committee by filing an appeal with the Registrar. The student has the right to appeal any action affecting their academic status by obtaining the appropriate form from the Registrar’s Office: Appeal of Suspension, Appeal of Probation, Grade Appeal, or General Appeal.

Academic Course Load
A full course load normally will consist of twelve (12) to sixteen (16) credit hours each semester. Depending upon the student’s major and degree of academic preparation, a student may take more than 16 credit hours. The student must have 3.00 cumulative GPA or higher, and obtain approval from an assigned advisor and the Dean of Academics, to take 17 to 21 credit hours for Fall and Spring. Under no circumstances may a student enroll for more than 21 credit hours in one semester. During the summer, students may take a maximum of 6-8 hours per session and no more than 12-14 total over the summer. Credits earned through Credit by Examination are not counted in this policy.

Academic Integrity
Students are responsible for the integrity of their academic work. Examples of academic dishonesty include but are not limited to, obtaining unauthorized assistance in any academic work; cheating on a test; plagiarizing; quoting without proper credit; modifying any examination, paper, record, report or project without the instructor’s approval for obtaining additional credit or an improved grade; and, representing the work of others as one’s own. Some of the penalties that may be imposed include: warning (written or oral); reducing the grade for the assignment, test, or project; reducing the grade for the course; assigning a failing grade for the course; dismissing the student from the course and issuing a grade of “W”; academic probation or suspension; expulsion; and recording the decision in the student’s academic record.

Academic Probation
Students who do not maintain a semester GPA of 2.00 are subject to academic probation for the next semester of regular attendance. Academic probation is not recorded on the transcript. The criteria for full- or part-time students are:

- Full-time students, upon completion of 12 or more semester credit hours, are placed on academic probation if they have a GPA less than 2.00 (higher levels specific to each Bachelor’s program); if the number of semester credit hours drops below 12 as a result of an “In Progress” (IP) grade (see below), students are still considered to be making satisfactory progress.
- Part-time students, upon completion of 16 or more cumulative semester credit hours, are placed on academic probation when a total of 11 or fewer credit hours of work have been attempted in a semester and the cumulative GPA is less than a 2.00.
- Students on academic probation may take no more than 14 credit hours per semester unless approved by an advisor.

Academic Recognition
Academic recognition can be achieved as follows:
- President’s Honor List: Students must achieve a semester GPA of 4.00, complete a minimum of 12 credit hours, and receive no grades of “I” or “IP”. “Honors” will be noted on transcript.
- Dean’s Honor List: Students must achieve a semester GPA of 3.50 – 3.99, complete a minimum of 12 credit hours, and receive no grades of “I” or “IP”. “Honors” will be noted on transcript.

Academic Standing
Students must maintain a 2.00 cumulative grade point average (CGPA) throughout their program of study. (or higher levels in the Bachelor’s degree programs; consult the program handbooks for details). When students receive final grades of A, B, C, D, or F, they are considered credit hours attempted and earned. W, I, or IP grades earn no credit and are not considered hours completed. Transfer credit hours accepted by Diné College are not calculated in cumulative grade point averages for determining satisfactory progress.

Academic Status Change
When change of an “Incomplete” (I) or “In Progress” (IP) grade alters a student’s academic status (see Table of Non-Grade Designations on pg. 33), the student is notified of the change in writing by Records and Admissions. When the changes are formally adjusted, students are placed on academic probation or suspension and the restriction is effective immediately.
Academic Policies

Academic Suspension

Students who do not satisfactorily meet the minimum standards required during the probationary semester will be placed on academic suspension. Academic suspension means the student will not be permitted to enroll in any classes at Diné College for the semester of suspension. Upon returning, the student will be placed on academic probation until minimum standards for satisfactory progress are met.

Academic suspension is not recorded on a student’s transcript. Students who are placed on academic probation or academic suspension are subject to additional regulations regarding Satisfactory Academic Progress (SAP). A student may appeal academic suspension by obtaining appeal information from Records and Admissions. Program-specific policies regarding academic suspension apply to each of the Bachelor’s degree programs. Consult the program handbooks for details.

Access to and Confidentiality of Records

Social Security or Student Identification Numbers are used for students' identification and records only. The Family Education Rights and Privacy Act of 1974 (FERPA) protects the privacy of such information. The College provides access to specified official records related to the student and an opportunity to change such records if they are inaccurate while providing for the confidentiality of records if they are inaccurate while providing for the challenge of actual grades received. To ensure that their rights are upheld, students are required to file requests for non-disclosure on an annual basis if withholding of directory information is desired. Such requests will be honored for one academic year.

Only the Registrar’s Office and other authorized personnel have access to student files. An authorized personnel is a person employed by the College in an administrative, supervisory, faculty, academic research, or support staff position (including law enforcement unit personnel), or other authorized personnel offices; a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Regents; or a student serving on an official committee or assisting another school official in performing his or her tasks.

Administrative Withdrawal

The College reserves the right to withdraw a student from classes for any reason when College officials consider this action to be in the best interest of the College or of the students.

Auditing Courses

With the exception of laboratory courses, if space is available and permission is secured from the faculty, a student may audit a course. Full tuition is assessed for audits and confers no credit, grades, or quality points and does not apply toward graduation. A student must declare audit status at the time of registration. Changes from credit to audit or audit to credit are not permitted after the last day to add a class (See Academic Calendar). Audited courses will be noted on the student’s permanent record as “AU” grade.

Change of Grade

The Instructor and Division Chair must approve a grade change. Students wanting to appeal a grade must complete an Academic Grade Appeal form and follow the appeal process. Circumstances necessitating a change of grade may include a clerical error made by the instructor or data entry personnel in preparing the grade report or the change of an “Incomplete” grade. With the exception of the “I” and the “IP” grade which must be changed by the end of the following semester, a grade may be changed within one academic year from the time it was given. Changes of grades for summer courses must be completed by the end of the following Spring semester.

Change of Major

Students may change their major at any time by completing the Change of Major Form and submitting it to their adviser. Students who have changed their major must consult with their advisor to determine additional curriculum needs. Change of major may impact a student’s Financial Aid eligibility.

Class Attendance

Students are expected to attend all classes and required labs. Instructors will keep attendance records. An absence does not excuse a student from classwork or assignments that are missed. Repeated absences and tardiness that affect student performance will be reflected in the final grade.

Course Change or Cancellation

Diné College reserves the right to cancel any scheduled course or to change the day, time, location, and/or faculty of any course without notice. Students will not be penalized for cancelled courses. Tuition is fully refundable. Registration, technology, and other applicable activity fees are non-refundable.
### Course Substitution

The Course Substitution Request Form is available at all sites and must be submitted to Records and Admissions. The course substitution must be initiated and approved by both the Division Chair and Academic Dean and given to all applicable Chairs for their signatures. Students must consult with their assigned advisor prior to graduation. Request for course substitution must be approved by the appropriate Division Chair and the Dean of Academics.

### Credit-by-Examination

Students who are currently enrolled in Diné College may apply for credit-by-examination in certain courses by contacting the Academic Dean. The Registrar and the Division Chairperson must also grant permission. Students may not petition to challenge a course a second time, nor may they take an exam for a course in which they have previously enrolled. Each academic division may have additional qualifications. Students must register for examinations by the end of the fourth week of classes. Students at the Regional Sites may need to take the exam at the Tsaile Campus. Students must pay for the cost of the examination and the tuition fees, which are non-refundable. The exam and other division requirements must be passed with a grade of A, B, or C for credit to be given. A notation of “Credit by Examination” is placed on the transcript. The grade is included in the total earned credit hours but is not computed in the total grade point average. Students should note that Diné College’s credit by examination may not transfer to other colleges and universities.

### Dropping and Adding Course(s)

Students who drop course(s) must complete a Drop/Add Form with proper signature(s) required and submit it to the Records and Admissions Office by the Drop/Add Date Deadline (See “Academic Calendar”). Students who fail to fill out the appropriate form and/or stop attending classes will receive an “F” grade. A student who properly drops a course will receive a “W” grade on his/her record. “W” grades do not affect the student’s GPA.

- The student may drop courses by completing a Drop/Add form available from the Registrar’s Office or the respective site
- The Drop/Add form must be signed by the instructor of the class and the student’s advisor. Completed Drop/Add forms must be returned to the Registrar’s Office or to the respective Sites for processing by the drop deadline date (See Academic Calendar)

- A course dropped in the first two weeks of the semester will not appear on a student’s transcript
- A grade of “W” will be recorded for all classes dropped beginning the third week of the semester
- Residential students dropping below 12 credits at any time during a semester lose eligibility for campus housing. Any appeals to this must be submitted to Residence Life
- Students receiving financial aid must check with the Financial Aid and Scholarships Office for continued financial aid eligibility
- Any student who discontinues a course at any time without officially dropping the course is subject to a grade of “F”

### Enrollment Status

The number of credit hours carried per semester indicates a student’s enrollment status.

- **Full-time**—a student carries 12 or more credits per semester and must complete 24 credits in an academic year
- **Three-quarter time**—a student carries 9-11 credits per semester and must complete 18 credits in an academic year
- **Half-time**—a student carries 6-8 credits per semester and must complete 12 hours in an academic year

Students who have earned fewer than 32 credit hours are classified as freshmen. Students with more than 32 hours are classified as sophomores.

### General Grade Appeal

Grades are determined solely by the individual faculty who taught the course for the session(s) or the semester(s). A student who wishes to contest a grade must first attempt to resolve the matter with the course faculty.

If the matter cannot be resolved with the instructor, the student may appeal to the appropriate Department Chairperson. The student must provide the evidence as to why the grade posted by the faculty is in error. If the matter is not resolved with the Division Chair, the student may appeal a final time to the Academic Standards Committee. The decision of the Academic Standards Committee is final.

Grades may be appealed within one academic year. The Grade Appeal Form can be obtained by Records and Admissions and will guide students through each of the three steps.
Academic Policies

Grade Point Average (GPA) System

Grade Point Average (GPA) refers to the average grade at any particular time during, or at the end of, any particular semester. It is determined by the total number of credits divided by quality points earned.

The Cumulative Grade Point Average (CGPA) is the average for all courses taken at the college. It is computed by taking the sum of all quality points earned while in attendance at Diné College divided by the sum of all eligible credit hours earned.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Total Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
</tbody>
</table>

Example:
A in ENG 101 = 3 credits x 4 Quality Points = 12
B in MTH 110 = 4 credits x 3 Quality Points = 9
C in PSY 111 = 3 credits x 2 Quality Points = 6
Student GPA = 3.00 (27 Quality Points / 9 = 3.00)

Non-Grade Designations

<table>
<thead>
<tr>
<th>Letter Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>Incomplete Grade</td>
</tr>
<tr>
<td>IP</td>
<td>In-Progress Grade</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawal Grade</td>
</tr>
<tr>
<td>AU</td>
<td>Audit Grade</td>
</tr>
<tr>
<td>CR</td>
<td>Credit Grade</td>
</tr>
<tr>
<td>R</td>
<td>Repeating a Course</td>
</tr>
</tbody>
</table>

This grade indicates incomplete coursework. The incomplete grade must be converted to a credit grade at the end of the following regular semester, including the summer session, or it automatically changes to an “F”. If the change places the student on academic probation or suspension, this restriction is effective immediately.

This grade indicates that the student has met attendance requirements and has worked continuously toward meeting the objectives of the course. Re-enrollment in the course in the next semester is required. Therefore, IP may be given only once for the same course and only in the following pre-college courses: ENG 100A, 100B; FST 130, 131, and 133; and MTH 096 and 100. If the change places the student on academic probation or suspension, this restriction is effective immediately.

A student may withdraw from a course and receive a “W”, or the faculty may also drop or withdraw a student for any legitimate reason. A student has the right to appeal an Instructor Drop/Withdrawal by submitting a petition in writing to the appropriate faculty. Refer to the Academic Calendar for Withdrawal Deadline.

An “AU” is awarded for class participation and does not indicate proficiency in the subject matter. Course credit is not included in the Grade Point Average (GPA) or Cumulative Grade Point Average (CGPA).

A CR grade is awarded through a challenge examination. It is included in the total earned credit hours but is not computed in the GPA or CGPA.

Students may repeat courses previously taken. The transcript will show that the course was repeated, and the higher grade is used to compute a student’s Cumulative Grade Point Average (CGPA). Repeating a course impacts Financial Aid; see the Financial Aid Student Handbook for more information.
The following rules are considered in computing the CGPA:

- Courses that are repeated are counted only once for credit and the CGPA; however, all repeated courses appear on the student's transcript.
- The higher grade is used for computing the CGPA whenever a course is repeated.
- Certain courses can be repeated for credit and therefore are exempt from the two rules above (e.g., 099, 199, and 299 courses; students should consult with their advisor).
- When grades of “I” or “IP” have been changed to letter grades, they are computed in the CGPA.
- A “CR” grade is computed in the total credit hours earned, but is not included in the CGPA.
- Individual instructors or academic divisions have specific policies and requirements for the “IP” grade; students are advised to check each course syllabus carefully to be informed about the “IP” grade policy for courses.
- F, a failing grade, is shown on the transcript and computed in the CGPA unless the student retakes the course and passes at which time the passing grade is entered on the transcript and the quality points are computed in the CGPA and the semester GPA.

Graduation Requirements

To be eligible for graduation and participation in a commencement exercise, students must meet the requirements for a degree or certificate as illustrated below.

Graduation Requirements for an Academic Degree or Certificate:

1. Fulfill all coursework and degree requirements listed on the Graduation Degree Checklist.
2. Cumulative Grade Point Average of “C” or better.
3. Completion of Reading Proficiency requirement (Not applicable to Certificate Programs).
4. File a completed Graduation Petition and Degree Checklist with the Office of Records and Admissions by the deadline (See Academic Calendar).
5. Pay the $25.00 non-refundable filing fee to the Cashier’s Office ($35.00 for late graduation petition fee).
6. Pay all outstanding and prior accounts in full to the College.
7. Return all checked-out materials to the library.
8. Complete the College’s student graduate survey.
9. Have all course substitutions approved by submitting a Course Substitution Form.

Reading Proficiency Requirement for Graduation

Satisfactory skill levels in reading, English, and mathematics are required for graduation. Graduation with a certificate does not require reading proficiency unless specified by courses required for the certificate. English and mathematics development are embedded into the General Education course requirements. Although reading courses do not fill any general education requirements, students must demonstrate satisfactory ability to read with comprehension in one of the following ways:

1. Students earn a passing score on the College’s reading placement test during enrollment or when it is offered as part of a reading course in which they are placed.
2. Students who have not passed the reading placement test by the time they have completed one semester of FST 131 Advanced Reading must either take the course again and pass it with at least a “C” or pass the reading test when it is given during the semester.
3. Students who have taken FST 131 a second time and have not passed either the course or the reading test must either:
   a. Retake and pass FST 131 or
   b. Retake and pass the reading test.

Students may not retake the reading test more than two times per semester and must wait a minimum of eight weeks between each attempt.

Graduation Degree Checklist

A Degree Checklist needs to be completed with the assistance of an Academic Advisor and/or a Faculty Advisor. The Degree Checklist requires their signature for submission. Students use the Degree Checklist from the year that they begin attending classes at the College. If a student stops taking classes at the College for one year or longer, he or she can use the checklist in the catalog year that they return. Any student, regardless of admittance year, is permitted to use the current Catalog.

A Degree Checklist should be reviewed each semester prior to registering in order to assist a student in selecting courses for registration.

A Degree Checklist for each major or academic degree program includes:
1. General Education requirements
2. Program Requirements
*Degree Checklists are available on WarriorWeb.

Graduation Regalia

Appropriate college cap and gown are required for the commencement exercise. Traditional attire may be worn with the cap. The cap and gown signify the completion of a college degree program.

Graduation Exercise

A formal commencement exercise is held once each year at the end of the spring semester. Participation in commencement exercises does not in any way infer the awarding or issuance of a degree. Degree conferral hinges solely on the student’s satisfactory completion of all requirements.

Graduating Catalog Year

Students maintaining continuous enrollment at Diné College graduate according to the requirements of the catalog in effect at the time of initial enrollment. If continuous enrollment is not maintained for an academic year, the student must meet the requirements for graduation of the catalog in effect at the time they re-enroll. Students enrolling or re-enrolling during a summer term may follow the current catalog or the subsequent catalog. Students have the option at any time, regardless of admittance year, to use the current Catalog Degree Checklist.

Graduation Petition

Students must complete and submit a Graduation Petition to the Records and Admissions Office prior to the graduation deadline. Deadlines are posted on the Academic Calendar.

Graduation with Honors

The appropriate honors are recorded on a student’s transcript. The honors are based on scholastic achievement and are as follows:

<table>
<thead>
<tr>
<th>GPA</th>
<th>Honor</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50 to 3.69</td>
<td>Cum Laude</td>
</tr>
<tr>
<td>3.70 to 3.89</td>
<td>Magna Cum Laude</td>
</tr>
<tr>
<td>3.90 to 4.00</td>
<td>Summa Cum Laude</td>
</tr>
</tbody>
</table>

Hold on Student Records

Students who fail to meet their obligations to the College, financial or otherwise, will have their academic records placed on hold until the obligation is resolved. No grade report or transcript will be issued to the student until obligations are satisfied in full.

Instructor Drop

Students may be dropped from the course by the faculty. Instructor drop forms must be submitted to the Records and Admissions for processing. Any student dropped by the faculty will be notified of the action by the Records and Admissions Office. A student who wishes to be reinstated in a course from which they have been dropped must receive permission from the faculty and the Academic Dean. If the drop is revoked, the student will be responsible for payment of tuition and submit the Drop/Add form to the Records and Admissions Office.

Midterm and Final Grade Report

The midterm examinations occur during the 8th week of classes during the Fall and Spring semesters. Midterm grades are not entered on the permanent record. Final examinations are scheduled at the end of the semester and must be taken during scheduled times.

Military Service Credit

Basic training components of all military branches served may be approved to fulfill the physical education credit (2 credits) requirement. To be eligible to receive a physical education credit waiver, a veteran must possess an Honorable Discharge (DD-214) document. In addition, a veteran is also required by the instructor to pass a physical education evaluation and obtain an approved signature by the Science Division Chair.

Participation in College-Sponsored Events

Participation in official college events or activities, such as intramural sports or conference attendance, requires satisfactory academic standing with a 2.00 GPA and completion of a Class Release Form prior to departure.

Repeating Courses

Students may repeat courses previously taken at the College to better their understanding or to improve their grades. A transcript shows that the course was
repeated, but only the higher grade is used to compute the student’s CGPA. Repeating or retaking a class can affect a student’s financial aid. (Please see repeat or re-take in Financial Aid Policies.)

Satisfactory Academic Progress Policy (SAP)
The Satisfactory Academic Progress Policy delineates requirements for satisfactory academic progress as well as guidelines for academic probation and academic suspension. They are:

- Full-time students are placed on academic probation if, upon completion of 12 or more semester credit hours, they have a semester grade point average less than a “C” (2.0); if a student’s number of semester credit hours drops below 12 as a result of an IP grade, the student is still considered to be making satisfactory progress.
- Part-time students who have accumulated 16 or more semester credit hours are placed on academic probation whenever a total of 11 or less semester credit hours of work have been attempted and a CGPA less than a “C” (2.0) or is earned.
- The Satisfactory Academic Progress Policy applies to part-time students who have not yet accumulated a minimum of 16 semester credit hours.
- Students on academic probation may take no more than 14 credit hours per semester unless approved by the appropriate Academic Dean.
- Students placed on academic probation or academic suspensions are subject to additional regulations regarding SAP; students should contact the Financial Aid Office for pertinent Financial Aid (SAP) regulations.

Student Rights and Responsibilities
All Diné College students have rights and responsibilities identified in the Student Code of Conduct Handbook. A copy may be obtained from any Diné College site or online.

Transcripts
Students may request an official transcript from the Records and Admissions Office from the main campus in Tsaile. The Transcript Request Form is available at all sites and on the College website. A fee is required for each Official Transcript. Currently enrolled students may review their unofficial transcript at any time by logging into WarriorWeb.

The Records and Admissions Office is not permitted to provide transcript services to any current or former student who owes money to the college. Same-day service is available only for in-person requests at the Tsaile Campus, for a nominal fee. The fee for a transcript is $5.00 and the same day service is $15.00 per transcript. Diné College cannot send an Official Transcript by e-mail or fax.

Transfer Credits
Transfer of credit is awarded for coursework completed at other colleges and universities. Records and Admissions is responsible for conducting official credit evaluations. Transfer students wishing to receive transfer credit must request official transcripts from colleges previously attended. AP tests and IB scores are also considered. Transfer credit evaluations can take up to two weeks.

Withdrawal from College
Students who officially withdraw from the College must use a Withdrawal Form available from Records and Admissions or respective campus site. Failure to withdraw properly results in the forfeiture of any refunds, and a grade of “F” is given for each course in progress at the time of the unofficial withdrawal. Withdrawal Forms must be returned to the Registrar’s Office with all the required signatures.
General Education

General Education Curriculum

Diné College works with other colleges and universities to achieve full recognition of Diné College general education courses and degree programs. To earn an associate degree or certificate, you must take classes that satisfy the designated general education requirements.

Mission Statement

Diné College is committed to providing students with the opportunity to acquire skills and knowledge that include the ability to write clearly, read critically, speak effectively, use mathematics competently, think critically and creatively, understand abstract concepts, and use technology.

At Diné College we believe that Diné history, language, culture and philosophy, art, music, literature, and contemporary issues are necessary to understand and tell “the story of the Diné people.” The purpose of Diné College’s General Education curriculum is to enable students to pursue their academic and professional aspirations with experiences that consider diverse world views, philosophies, culture and contemporary experiences.

Course Information

Courses in the General Catalog are offered in any given semester. The College reserves the right to add or delete courses in the list of offerings during the year and to withdraw courses with low enrollment at the beginning of each semester. Students should consult the course schedules published every semester and plan accordingly. Course schedules show course number, title, credit hours, meeting times, days, and location. Additional laboratory hours that may be required are designated in the course description.

IMPORTANT NOTE REGARDING GENERAL EDUCATION

The A.A. degree in Early Childhood Education provides a Navajo Language option in the Communication Core.

The A.S. degree in Mathematics requires MTH 110 or MTH 114 to fulfill the Mathematics Core.

The A.S. degree in Health Occupation requires PSY 111 to fulfill the Social and Behavioral Science Core.

The A.S. degree in Physics requires CHM 151 and CHM 152 to fulfill the Science Core.

These General Education Requirements do not apply to the A.A.S. Degrees. The A.A.S. Degrees have their own specific General Education Requirements. Each of these options and exceptions are also noted under the degree descriptions.

General Education Program Requirements

ENG 101, 102 for the English Option.

General Education

Communications Requirements

NAV 212, 291, 301 for the Navajo Option (These courses do not meet AGEC option A, B, and S, the New Mexico Core Competencies, nor do they satisfy the ENG 101 prerequisite of college-level courses).

COM 121 is required for New Mexico Core Competencies.

Students in the Associate of Applied Science (A.A.S.) degree program must complete six credit hours in any of the following combinations; ENG 100B and ENG 101 or ENG 101 and ENG 102.

Humanities and Fine Arts Requirements

For Diné College students earning an A.A. degree and/or students transferring to Arizona universities, 6 credits are required in the Humanities/Fine Arts. No more than three credit hours may be in one field of study so students are introduced to different areas.

New Mexico transferability requires 6–9 credits in Humanities/Fine Arts and 6–9 credits in Social Sciences. A total of 15 credits are required in Humanities and Social Science for the New Mexico Common Core. NIS 221 may be used as the 3 credits required for Diné College’s general education requirements.

All students completing an A.A. degree must take one history class (HST) which may be used to meet either the Humanities or the Social and Behavioral Sciences requirements.

- Art History (ARH)
- Fine Arts (FA)
- History (HST) 101,102,135 or 136
- Humanities (HUM)
- Theater (THR)
- ENG 212, 213, 231, 233, 234, 241, 297
- NIS 101-108, 205, 208, 220, 222, 225

Note on special requirements: Several courses that meet the Humanities and Fine Arts requirements also fulfill the AGEC special requirements of intensive writing/critical inquiry and/or ethnic/race/gender awareness and are identified under the course descriptions.

Mathematics Requirements

MTH 106, MTH 114, or MTH 110 or any mathematics class with either of these courses as a pre-requisite is required for the A.A. degree, and MTH 110 or MTH 114 is required for the A.S. degrees. MTH 100 fulfills the requirement for an A.A.S. degree. Students in the Associate of Applied Science program need to take MTH 100, except for Office Administration students, who can take BUS 142-Business Math, to satisfy their mathematics requirement.

Navajo and Indian Studies Requirements

Students must complete 9 or 10 credit hours depending on their Navajo Language proficiency. Navajo and Indian Studies courses are required of all students enrolled in all degree programs. Navajo culture, history, and language are areas in which courses are taught in Navajo and English. Courses are offered in two tracks of Navajo language ability: speaker and non-speaker.

Students must complete the following courses to meet the Navajo and Indian Studies General Education Course Requirements:

- One Navajo Language course, based on placement test
- NIS 111: Foundations of Navajo Culture
- NIS 221: Navajo History to Present

Note on special requirements: Several courses that meet Navajo and Indian Studies requirements also fulfill the AGEC special requirements of intensive writing/critical inquiry, ethnic/race/gender awareness, and/or historical awareness, as specified in the respective course descriptions.

Physical/Health Education Requirements

To fulfill the physical education requirements, students must complete a minimum of two credit hours from: PEH 113, PEH 148 or HEE 110-112.

Science Requirements

The A.A. and A.S. degrees require two science courses with a lab, one in the Physical Sciences and the other in the Life Sciences. A.S. degrees have required General Education science courses specific to the degree.

Social and Behavioral Science Requirements

For Diné College students earning an A.A. degree and/or students transferring to Arizona universities, 6 credits are required in the Social and Behavioral Sciences. Three credit hours must be from HST 101, 102, 135, or 136. Students in the Associate of Arts degree pro-
program must complete three credit hours from any one of the fields of study listed below.

- Anthropology (ANT)
- Economics (ECO)
- History (HST) 101, 102, 135 or 136
- Political Science (POS)
- Psychology (PSY)
- Sociology (SOC)
- Social Work (SWO)
- Social Science (SSC)

New Mexico transferability requires 6–9 credits in Humanities/Fine Arts and 6–9 credits in Social Sciences.

Note on special requirements: Many courses that meet the social and behavioral sciences requirements also fulfill the AGEC special requirements of intensive writing/critical inquiry, ethnic/race/gender awareness, and/or historical awareness and are identified under the course descriptions.

Transferring General Education Credits

The following is a more detailed explanation of the requirements for Arizona and New Mexico College or universities.

Transfer to Arizona Universities

Diné College’s Arizona General Education Curriculum (AGEC) has been approved by the State of Arizona. Students who complete an AGEC are better able to transfer general education courses taken at Diné College as a block, instead of the university evaluating each course for its transferability. Information for students who plan to transfer to Arizona colleges or universities can find more information at http://az.transfer.org.

Arizona General Education Curriculum (AGEC) Requirements

A 35-semester credit “block” can be completed at any Arizona community college. Because there are differences in the mathematics and science requirements for different degrees, there are three AGEC options. The blocks will transfer without loss of credits between any Arizona public community college or university in the programs designated by AGEC.

- AGEC-A for liberal arts (social science, fine arts, humanities) is a 35 semester-credit, lower division general education curriculum block that fulfills the lower-division general education requirements for the programs listed above
- AGEC-B for business administration is a 35 semester-credit, lower-division general education curriculum block that fulfills the lower-division general education requirements of business majors
- AGEC-S for science/mathematics is a 35 semester-credit, lower-division general education curriculum block that fulfills the lower-division general education requirements of majors with more stringent mathematics and mathematics-based science courses

Completion of all AGEC courses with a grade of “C” or better and a cumulative GPA of 2.00 guarantees admission to any college or university in the State of Arizona if you are a resident. It also guarantees your ability to transfer your lower-division general studies requirement to any Arizona public university for the majors that articulate with that AGEC. Non-residents must have a grade point average of 2.5 on a 4.0 scale.

The mathematics and science requirements differ among the three forms of AGEC.

- AGEC-A requires a minimum of college mathematics or college algebra
- AGEC-B requires a minimum of brief calculus
- AGEC-S requires a minimum of calculus and a minimum of university chemistry, physics, or biology

AGEC-A for Liberal Arts Majors

An approved AGEC-A block must contain intensive writing/critical inquiry (IW/C1), ethnic/race/gender awareness (ERG), and historical awareness (HA) components. These components may be fulfilled by taking Diné College general education courses that are designated in the catalog. Students may need to take one or more courses to meet these requirements.

Additional information about these special requirements can be found at: http://az.transfer.org/cas/students
General Education

AGEC-S for Mathematics and Science Majors
An approved AGEC-S block must contain intensive writing/critical inquiry (IW/CI), ethnic/race/gender awareness (ERG), and historical awareness (HA) components.

These components may be fulfilled by taking Diné College general education courses that are designated in the catalog.

* Mathematics requirement: MTH 191 or higher
** History courses may be counted as social and behavioral sciences
*** Science requirement: 8 credits of university chemistry or 8 credits of university biology. Choose the science appropriate for your major
**** For Navajo Studies, two courses from the following three options: NAV 101 or 211, NIS 111, NIS 221

AGEC-B for Business Administration Majors
An approved AGEC-B block must contain intensive writing/critical inquiry (IW/CI), ethnic/race/gender awareness (ERG), and historical awareness (HA) components.

These components may be fulfilled by taking Diné College general education courses that are designated in the catalog. Students may need to take one or more courses to meet these requirements. Additional information about these special requirements can be found at: http://az.transfer.org

* History courses may be counted as social and behavioral sciences or humanities
** Navajo Studies: two courses from the following three options: (1) NAV 101 or 211; (2) NIS 111; (3) NIS 221
*** MTH 110 College Algebra or MTH 114 College Mathematics

<table>

* Humanities and fine arts: Introductory history survey and introductory philosophy, and introductory course in history, theory, or aesthetics of the arts or literature.

** Social/behavioral sciences: Introductory courses only for political science, psychology, sociology, and anthropology, and only macroeconomics and microeconomics for economics.
Degree and Certificate Programs

Certificate Programs
Certificate programs offer practical training for immediate employment. They do not require general education courses. The courses are not designed to transfer to an upper level program of study.

- Digital Arts
- Irrigation Technician
- Navajo Nation Leadership
- Natural Resources
- Navajo Cultural Arts
- Public Health

Associate of Applied Science Degrees
- Business Management
- Office Administration

Associate of Arts Degrees
- Business Administration
- Computer Information Systems
- Diné Studies
- Early Childhood Education
- Education
- Fine Arts
- Liberal Arts
- Social and Behavioral Sciences
- Social Work

Associate of Science Degrees
- General Science
- Public Health
- Health Occupation
- Environmental Science
- Agroecology/Environmental Science
- Biology
- Mathematics
- Physics

Bachelor of Arts Degrees
- Elementary Education (For General Classroom Teachers)
- Business Administration
Digital Arts Certificate

The Digital Arts Certificate prepares students to learn the basics of graphic arts and graphic art design programs and for employment in the computer graphics and publishing field. It is also for entrepreneurs starting their own business. Students follow basic aesthetic principles in creating work. Students will gain experience in page design, illustration, photography, and web design using professional Adobe programs.

Note: The following Electives are optional. They are recommended but not required for the certificate.

DA 213 Photographic Image Editing II, DA 215 Web Design II, ENG 180 Technical Writing

*The following Digital Art courses may be used as electives for the A.A. degree in Fine Arts:

DA 112 Computer Illustration I; DA 113 Photographic Image Editing I, DA 212 Computer Illustration II; DA 213 Photographic Imaging II
# Certificate Programs

## Irrigation Technician Certificate
This program is designed in collaboration with Navajo Agricultural Products Industries (NAPI), New Mexico State University (NMSU), and Diné College Science Division to provide students the fundamental training skills needed to transition into an entry-level irrigation technician position or related fields. The courses are designed to teach students through a practical curriculum intended for agriculturally based projects and programs.

Certificate Programs

Natural Resources Certificate
The Natural Resources Certificate Program prepares students with the training and skills to seek employment in entry level positions in the careers of Agriculture and Natural Resources. The courses are taught according to the Diné Education Philosophy to incorporate, assessment, planning, implementation and evaluation.

The courses utilize hands-on learning by incorporating applicable Natural Resources concerns on tribal lands particularly on the Navajo Nation. The skills learned in this program can be applied to public, private and federal Agriculture and Natural Resource organizations and programs.

Program Credits: 21
Public Health Certificate

The Certificate in Public Health provides a basic set of courses that prepare the student for meaningful participation in public health programs and research projects, including employment in some of the public health services programs in the Navajo Nation.

This certificate is jointly awarded by Diné College and by the Mel and Enid Zuckerman College of Public Health at the University of Arizona. The courses are taught according to the Diné Education Philosophy following the program development cycle of assessment, planning, implementation, and evaluation.

*Option A: Calls for PUH 280 and one elective course chosen from the list provided, both of which can be taken during the regular academic year

**Option B: Specifically applies these principles to the conduct of public health research through participation in the Summer Research enhancement program consisting of PUH 290 and PUH 297

NOTE: Student will not be eligible for Title IV Financial Aid in this certificate program.
ASSOCIATE OF APPLIED SCIENCE DEGREE PROGRAMS
The Associate of Applied Science (A.A.S.) degree programs prepare students for employment following graduation. A minimum of 64 academic credits must be earned in specified coursework. Associate of Applied Science degrees are awarded in two programs of study: Business Management and Office Administration.

Business Management (A.A.S.)
This program provides students with business skills for entry-level positions and for starting and managing their own small businesses. It enables students to pursue further business studies and to apply business and organizational skills in their personal lives. The program features the practical, “real world” application of business concepts to challenges facing Navajos.

Fine Arts (A.A.)
The Fine Arts program offers a visual arts curriculum for students who want to transfer to a four-year program. The curriculum promotes personal development in the arts. It includes studio art courses in Ceramics, Drawing, Commercial Art, Graphics, Painting, Photography, and Sculpture, as well as Art History and Art Education. Interested students should consult the catalog of four-year institutions that offer Bachelor of Fine Arts programs and speak with Fine Arts advisors. Ceramics, Painting, Photography, and Sculpture are available only at Tsaile.

### Liberal Arts (A.A.)
This program offers students an intensive investigation of ideas and practices in the arts, humanities, and social sciences that is required in the general education program with an emphasis on critical inquiry and creative expression. It is designed to prepare students to transfer to four-year programs of study in Liberal Arts or related degree programs in the arts, humanities, and social sciences. The range of courses required in the Liberal Arts program is appropriate for all students seeking a Bachelor of Arts in these areas.

### Social and Behavioral Sciences (A.A.)
The Social and Behavioral Sciences (SBS) degree is an interdisciplinary, liberal arts program designed to introduce students to the foundations of human behavior and cultures. SBS disciplines include Anthropology, History, Political Science, Psychology, Social Work, and Sociology. This program prepares students for transfer to a four-year degree program and provides basic training for work in social sciences.

ASSOCIATE OF SCIENCE DEGREE PROGRAMS

Students completing these Associate of Science (A.S.) degree programs will be prepared to enter the job market in positions that require a two-year degree or to transfer to a four-year college or university. *All A.S. degrees require ANY BIO class to fulfill the Science Core.*

Public Health (A.S.)

This program is designed for health professionals who want to pursue a career in community and population health. It promotes Navajo concepts of health and wellness. This degree can be used to transfer to a college that offers four-year programs in public health, health education, health promotion, or community health. The program offers two options: Health Education (Sociocultural) and Environmental Public Health.

Agroecology/Environmental Science (A.S.)

Agroecology is a track under Environmental Science. It is the science of applying ecological concepts and principles to the design and management of sustainable agro ecosystems. This discipline brings together the elements of agricultural sciences, ecology, and environmental thought and is influenced by the experiences of people who manage land and water to produce food and other products. This unique program will incorporate traditional knowledge into all aspects of the curriculum. Students should consider this option to prepare for a wide range of careers with varying specializations, including animal studies, pre-veterinary medicine, horticulture, soils and environment, resource economics, and sustainable agriculture. *IMPORTANT: To fulfill the General Education Science Core, students are required to take BIO 181 and ENV 101.*

Health Occupation (A.S.)
Health Occupation is appropriate for students who plan to enter nursing or other allied health professions. Upon completion of this degree, students will be prepared to transfer to programs at four-year universities or technical schools. Math 114 is a recognized option to meet the General Education requirements for the State of Arizona and also meets the requirement for a math course in the nursing programs at NAU and ASU.

IMPORTANT: To fulfill General Education Social and Behavioral Science Core Students must take PSY 111. All A.S. degrees require ANY BIO class to fulfill the Science Core.

Bachelor of Arts in Business Administration

The Bachelor of Arts in Business Administration is designed to prepare students to take responsible positions in the management of economic growth with more than 500 federally recognized Native American Tribes. The focus of the degree program is Tribal Management and Economic Development.

The 4-year program includes instruction in business management, accounting and financial management, human resources management, economics and business law (Federal, State and Tribal) designed to train students to promote the economic well-being of their respective tribal communities.

The program is offered on a full-time basis at the Tsaile Campus. Individuals may apply at any time of the year but are formally considered in spring. The application deadline is June 1. This allows for an admission decision prior to the Navajo Nation Scholarship deadline.

A student may be admitted to years 1 (freshman), 2 (sophomore) or 3 (junior) based on their academic record. Admission requirements are one of the following:

- An A.A. degree in Business Administration for junior level
- Any other Associate degree will require students to take additional courses that meets Diné College’s A.A. in Business Administration requirements and placed in the sophomore level, or
- High school diploma with a CGPA of 2.5 or higher, and GED with equivalent grade, and eligible to be placed in ENG 101 and MTH 110 will be admitted as a freshman

### Bachelor of Arts in Elementary Education

The Bachelor of Arts in Elementary Education program prepares prospective teachers to develop the necessary values, knowledge, skills, and confidence to promote children’s academic skills and confident cultural identities in English and Navajo.

To assess student learning, each teacher candidate develops a working portfolio in semester’s I-III that reflects the candidate’s unique experiences, aims, and desires as measured against the goals and competencies of the semester’s courses and apprenticeship activities. From the working portfolio, candidates develop a presentation portfolio in semester IV that is presented to the college community.

The program is offered on a full-time basis at the Tsaile campus. Individuals may apply any time of year but are formally considered in spring. The application deadline is June 1. This allows for an admission decision prior to the Navajo Nation Scholarship deadline.

Admission criteria are as follows:

- Completion of an A.A. in Elementary Education (based on the College's 2009-2010 or more recent catalog) or Education (based on the 2012-13 catalog) with a cumulative grade point average of 3.0 or better
- Passing score on the NES Elementary subject knowledge subtests I and II (this requirement is being phased in; recent applicants were required to at, a minimum, take the test)
- Current Navajo Nation tribal background check;
- Current Fingerprint Clearance Card from the state of Arizona
- Application with essay (completed at the Center for Diné Teacher Education) and unofficial transcripts;
- Personal interview with an admissions committee

Applications from individuals who hold an A.A. in Elementary Education from another institution or from Diné College prior to fall 2009, or an A.A. in different academic specialization, are reviewed on a case-by-case basis. These individuals may need to take additional lower-division coursework.

More information is available at: http://www.dinecollege.edu/cdte.
B.A. in Elementary Education - cont’d

Professional Preparation Coursework

*Candidates may petition to graduate with an A.A. in Education upon completion of General Education Core and Lower Level Requirements (61-64).

** Admission to the Professional Preparation courses requires the following:

- 53 credits that include: EDU 200, 238, 240, 261, and 297; MTH 280 and 281; three lab sciences; NAV 101 or 211; ENG 101 and 102; and 12 other General Education credits
- CGPA of 3.0 or higher
- Scores from NES Elementary Subject Knowledge Tests I and II
- Current Navajo Nation and Arizona background checks
- Official transcripts
- Interview with BAEE admissions committee

ACCOUNTING (ACC)

ACC 100 Fundamentals of Accounting (3)
Prerequisite: MTH 096.
This course is an introduction to accounting fundamentals. It includes journalizing, posting, worksheets, financial reports, and data processing for accounting.

ACC 200 Financial Accounting (3)
Prerequisite: ACC 100
This course covers the theory and practice of accounting in sole proprietorships, partnerships, and corporations. It emphasizes the accounting cycle, periodic reporting, receivables, payables, inventories, and accounting systems. One (1) hour laboratory required.

ACC 201 Managerial Accounting (3)
Prerequisite: ACC 200
This course is a continuation of ACC 200 with emphasis on corporations, taxes, investments, and managerial approaches for decision-making.

ACC 310 Government and Non-Profit Accounting (3)
Prerequisite: Acceptance into the BA Business Administration program
This course covers the theory and practice of accounting for governmental and not-for-profit units. Topics include financial reporting; budgetary accounting; fund accounts; and nonprofit accounting for entities such as public colleges, universities and health care providers.

ACC 350 Finance (3)
Prerequisite: Acceptance into the BA Business Administration program
Introduction to the theories and applications associated with the functions of capital markets. This includes the conceptual foundations of portfolio theory, risk management, and asset valuation. This course will examine the markets for equity, money, bonds, mortgages, futures, options and swaps.

AGRICULTURE (AGR)

AGR 103 Conservation Planning (4)
This course introduces students to the understanding natural resource conservation issues and concerns to allow them to develop conservation plans necessary to improve natural resource conditions applicable to tribal lands.

AGR 110 Monitoring/Assessments and Rangeland Management (4)
This course will introduce students to the various grazing management concept, identify local vegetation communities, plant identification of local plants, as related to current Navajo producers grazing management systems. Field trips and field works will serve as a lab for hands-on and field experience to learn range and vegetation monitoring concepts.

AGR 220 Equine Management (3)
The Equine Management course will provide student knowledge of the basic skills needed to maintain the overall health and upkeep of horses. Students will be introduced to safe handling practices, basic grooming techniques, deworming and vaccinations practices, as well as nutrition. This class will integrate the Diné cultural significance of the horse for students to learn about philosophical importance of the horse within the Diné culture.

ANTHROPOLOGY (ANT)

ANT 111 Introduction to Cultural Anthropology (3)
Prerequisite: ENG 101 or concurrent enrollment
This course is an introduction to the study of human cultural diversity. It includes subfields of anthropology, sub-disciplines and topics, historical origins, influences, key figures, theory and methods, and an introduction to the comparative study of cultures. The course emphasizes the general education special requirements of ethnic/race gender awareness (ERG).

ANT 112 Physical Anthropology (3)
Prerequisite: ENG 101 or concurrent enrollment
This course is an in-depth survey of topics and methods in physical anthropology, including paleoanthropology, geology, genetics, primatology, and hominid evolution.

ANT 201 Ethnographic Methods (3)
Prerequisite: ENG 101 or concurrent enrollment
Ethnographic Methods introduces students to methods of conducting research into human cultures and provides guidance and supervision as students conduct research in the community on an aspect of Navajo life.

ANT 210 Ancient Societies in Prehistoric Times (3)
Prerequisite: ENG 101 or concurrent enrollment
ANT 210 is an exploration of prehistoric human societies and cultures throughout the world based on archaeological studies of the remains of ancient dwellings, ceremonial sites, and artifacts.
Course Descriptions

ANT 225/NIS 225 Indians of the United States and North America (3)
Prerequisite: ENG 101 or concurrent enrollment. Cross-listed with NIS 225.
This course surveys the indigenous groups of the U.S. and Canada with an emphasis on changing economic and political forces that influence various tribal groups. Students will be called upon to focus on origins, language, arts, and habitats.

ANT 250 Principles of Archaeology (3)
Prerequisite: ENG 101 or concurrent enrollment
An introduction to the history of archaeological research and a survey of concepts and methods in the study of prehistoric cultures with an emphasis on modern theories and techniques.

ANT 265 Archaeology of the Southwest (3)
Prerequisite: ENG 101 or concurrent enrollment
A survey of the prehistory of the American Southwest from the Pleistocene to the Spanish historical period, this course focuses on prehistoric cultures of Arizona and New Mexico. The general education special requirements of ethnic/race/gender awareness are emphasized. (ERG and HA).

ASTRONOMY (AST)

AST 100 Fundamentals of Astronomy (4)
Prerequisite: ENG 100B, FST 131, or instructor’s permission
Students will be introduced to the planets, solar system, and galaxy: sun, moon, and other satellites; stars and constellations; black holes; and other celestial bodies. Navajo stories of creation are related to the scientific view. A nighttime laboratory is required. This course meets for three hours lecture and three hours laboratory per week.

ART EDUCATION (ARE)

ARE 228 Elementary Art Methods and Curriculum Development (3)
This course is designed for an art endorsement for K-12 teachers who have a teaching certificate from the State of New Mexico and Arizona. Course covers teaching strategies, learning environments, teaching sources and use of technology in Elementary setting. New Mexico and Arizona State Board of Education Teaching Standards will be emphasized.

ARE 229 Secondary Art Methods and Curriculum Development (3)
This course is designed for an art endorsement for teachers who have teaching certificate from the State of New Mexico and Arizona. Course covers teaching strategies, learning environments, teaching sources and use of technology in secondary or high school setting. New Mexico and Arizona State Board of Education Teaching Standards will be emphasized.

ART HISTORY (ARH)

ARH 110 Art Appreciation (3)
Prerequisite: Reading Proficiency, ENG 101, and computer literacy
Develops an understanding and appreciation of the visual arts by exploring major art works in history, discovering meaning and looking at different styles and media of art.

ARH 211 Survey of Native American Art (3)
Prerequisite: Reading proficiency; ENG 101 or instructor’s permission.
This course provides an overview and develops an appreciation of Native American Art through both historical and contemporary perspectives. This course emphasizes the general education special requirements of ethnic/race/gender awareness (ERG).

ARH 213 Survey of World Art, Prehistoric to 1500 (3)
Prerequisite: Reading proficiency plus ENG 101 or instructor’s permission.
This course provides knowledge of and appreciation for Western and Eastern Art from the Prehistoric Age until the 1500s. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

ARH 214 Survey of World Art, 1500 to Present (3)
Prerequisite: Reading proficiency plus ENG 101 or instructor’s permission.
This course provides knowledge and appreciation of Western and Eastern Art from 1500 to contemporary art movements. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race gender awareness (IW/CI and ERG).

BIOLOGY (BIO)

BIO 100 Biology Concepts (4)
Prerequisite: ENG 100B
This one-semester, non-major introductory course covers basic principles and concepts of biology, including how organisms get and use energy, reproduction, heredity, evolution, and response to the environment. Environmental issues affecting life, such as global warming, are introduced.
Course Descriptions

BIO 156 Introduction Biology for Allied Health (4)
Prerequisite: FST 131 plus ENG 101 or instructor’s permission
For allied health majors, this is an introductory course with an emphasis on the human body. Includes instruction in fundamental concepts of cell biology, histology, genetics microbiology, and principles of the scientific method.

BIO 160 Introduction to Human Anatomy and Physiology (4)
Students examine the structure and function of all the major systems of the body. Basic principles and concepts of scientific method, organization, homeostasis, and control mechanisms are studied. This course meets for three hours lecture and three hours laboratory per week. This course does not meet nursing program requirements.

BIO 165 Cancer Prevention and Control (3)
Cancer Prevention and Control focuses on the core concepts of biology and public health as they relate to cancer. The course addresses both the biological processes within cells that may result in cancer and public health approaches to cancer, including cancer epidemiology, education, screening, early detection, and treatment options. Special emphasis is placed on the impact of language and cultural issues in developing and implementing cancer prevention programs. Numerous basic concepts of biology and public health are covered, so students should have taken at least one course in introductory biology and one course in introductory public health before enrolling in this course.

BIO 170 Medical Terminology (3)
Prerequisite: Reading proficiency requirement or concurrent enrollment in FST 131
Basic tools are provided, such as root words, prefixes, and suffixes, for building an effective verbal and written biomedical vocabulary.

BIO 181 General Biology I (4)
Prerequisite: FST 131, MTH 100, plus ENG 101 or instructor’s permission
One year of high school chemistry or one semester of college chemistry recommended. This course entails basic principles of structure and function of living things at the molecular, cellular, and system levels of organization. This course meets for three hours lecture and three hours laboratory per week.

BIO 182 General Biology II (4)
Prerequisite: BIO 181 or instructor’s permission
Students deepen their understanding by learning additional principles of structure and function of living things at molecular, cellular, and higher levels of organization. This course meets for three hours lecture and three hours laboratory per week.

BIO 184 Plant Biology (4)
The study of principles and processes in plant biology with emphasis on vascular plants. Students survey the plant kingdom. Course includes study of Native American Medicinal Plants. This course meets for three hours lecture and three hours laboratory per week.

BIO 201 Human Anatomy and Physiology I (4)
Prerequisite: BIO 181
Anatomy and physiology is the study of the structure and function of the human body. Selected topics include cells, tissues, and the integumentary, skeletal, muscular, and nervous systems. This course meets for three hours lecture and three hours laboratory per week.

BIO 202 Human Anatomy and Physiology II (4)
Prerequisite: BIO 181; BIO 201
This course is a continuation of the study of the structure and function of the human body. Selected topics include the endocrine, circulatory, respiratory, digestive, urinary, and reproductive systems. This course meets for three hours lecture and four hours laboratory per week.

BIO 205 Microbiology (4)
Prerequisite: BIO 181 and another BIO class (college level) or CHM class
One semester of college-level chemistry is recommended. Students study micro-organisms and their relationship to health, ecology, and related fields. The field of microbiology is extensive, and in this class emphasis will be on basic principles and their application in medical microbiology. The class will meet for three hours lecture and four hours laboratory per week.

BIO 218 Human Pathophysiology (3)
Prerequisite: BIO 201, BIO 202 or instructor’s permission. BIO 205 recommended
Faculty provide a survey of disease processes affecting the major organ systems of the body, beginning with cell injury and death, inflammation, repair and defense mechanisms, and disorders of cellular differentiation. Concepts learned will form a basis for understanding the altered physiological states that will be encountered in the health care professions.

BIO 223 Vertebrate Zoology (4)
Prerequisite: Minimum grade of “C” in BIO 181
This course is a study of the evolution, diversity, distribution, and ecology of the vertebrates. It meets for three hours lecture and three hours laboratory per week. This class is offered only at Shiprock.
BIO 226 Ecology (4)
Prerequisite: ENV 101 or BIO 181 or BIO 182.
Students are introduced to the concepts and principles of ecology, including organization, function, and development of ecosystems; biogeochemical cycles; population dynamics; and other related topics. This course meets for three hours lecture and three hours laboratory per week, which includes field studies and possible weekend field trips.

BIO 242 General Genetics (4)
Prerequisite: BIO 181 and another BIO class (college level)
One semester of college-level chemistry is recommended. Students will survey mechanisms of inheritance (Mendelian and non-Mendelian) and modern molecular genetics, including regulation of transcription and translation, introduction to genomes, understanding the basics of gene transmission, mutation, expression, and regulation, and extra nuclear genomes of mitochondria. This course meets for three hours lecture and three hours laboratory per week. Laboratory sessions include utilization of techniques of both classical genetics (with plants, fungi, and invertebrates) and contemporary molecular genetics.

BIO 296 Scientific Research Seminar (1)
The course is for science and engineering majors, but anyone who is interested in learning more about science-related research is also welcome. It offers a broad-based background in current scientific research. Weekly discussions on various methods used in scientific research are covered in the course along with some hands-on research experiences.

BIO 242 General Genetics (4)
Prerequisite: BIO 181 and another BIO class (college level)
One semester of college-level chemistry is recommended. Students will survey mechanisms of inheritance (Mendelian and non-Mendelian) and modern molecular genetics, including regulation of transcription and translation, introduction to genomes, understanding the basics of gene transmission, mutation, expression, and regulation, and extra nuclear genomes of mitochondria. This course meets for three hours lecture and three hours laboratory per week. Laboratory sessions include utilization of techniques of both classical genetics (with plants, fungi, and invertebrates) and contemporary molecular genetics.

BUS 141 Introduction to Business (3)
Prerequisite: FST 131.
This course introduces the students to general office duties, including telephone techniques, receptionist duties, record-keeping, time management, and employment preparation.

BUS 142 Business Math (3)
Prerequisite: MTH 096; FST 131.
This course emphasizes mathematics used in business: percentages, interest, discounts, cost markup and markdown, taxes, checking accounts, insurance, and payroll with emphasis on proficient use of the calculator.

BUS 143 Business English (3)
This course introduces students to basic grammar and sentence structure used in the business world.

BUS 180 Computers in Business (3)
Prerequisite: Basic keyboarding skills.
This course is an introduction to microcomputers in the business world. It emphasizes the use of software for processing business data, including word processing, spreadsheets, databases, and presentation software.

BUS 142 Business Math (3)
Prerequisite: MTH 096; FST 131.
This course emphasizes mathematics used in business: percentages, interest, discounts, cost markup and markdown, taxes, checking accounts, insurance, and payroll with emphasis on proficient use of the calculator.

BUS 204 Business Law (3)
Prerequisite: FST 131.
This course introduces law and the legal process as they relate to business transactions such as contracts, sales, commercial paper and secured transactions. It also includes discussions of business ethics.

BUS 211 Business Internship (3)
Prerequisite: Must have successfully completed 45+ credit hours.
The course is for advanced business students who have completed the majority of their program requirements. The students will be employed in a position related to their degree program. All students will be required to work 100 hours at their job site. The interns will be responsible for weekly reports, work evaluations, completing a career portfolio, and other class-related activities assigned by the coordinating teacher.

BUS 214 Word Processing I (3)
Prerequisite: BUS 111, FST 130.
This course is a basic introduction to word processing. It includes application of the basic functions of the word processor.
BUS 216 Word Processing II (3)
Prerequisite: BUS 214.
A continuation of Word Processing I. Applies basic and advanced functions of word processing.

BUS 240 Personal Finance (3)
Prerequisite: FST 131; MTH 096; ACC 100.
This course creates an awareness of personal money management with particular emphasis on budgeting, borrowing, purchasing, investing, insurance, and other financial planning.

BUS 243 Business Communications (3)
Prerequisite: FST 131, and ENG 100B.
This course emphasizes the importance of skills in oral and written communication in the world of business, giving special attention to proofreading and mechanics of grammar.

BUS 246 Principles of Management (3)
Prerequisite: FST 131; ENG 101.
This course introduces vital aspects of supervisory management. It gives an overview of skills, functions, communications, employee problems, productivity management, and legal concerns related to supervisory tasks.

BUS 265 Statistical Analysis for Business (3)
Prerequisites: Minimum grade of C in MTH 110.

BUS 270 Quantitative Methods in Business (3)
Prerequisites: Minimum grade of C in MTH 110.
Business applications of quantitative optimization methods in operations management decisions.

BUS 340 Technical and Grant Writing (3)
Prerequisite: Acceptance into the BA Business Administration program
This course will guide students in analyzing and improving their writing styles for printed texts, as well as adjusting their styles to online writing standards. With technical writing as a foundation, developing a grant proposal will be the primary focus in the course plus writing, editing, printing documents, and modifying them for posting online.

BUS 350 Business Professional Ethic (3)
Prerequisite: Acceptance into the BA Business Administration program
An examination of ethics in business and work. Among the topics to be addressed are: recognizing and analyzing ethical issues in business; promoting ethical behavior in corporation and institutions; the social responsibilities of business; the role of business in a free market economy; ethics in the global economy; the role of the professions in contemporary American society.

BUS 360 Business of Gaming Industry (3)
Prerequisite: Acceptance into the BA Business Administration program
This course examines the role of the gaming industry in tribal economic development. Students will analyze the state and federal laws (compacts) governing the gaming, management of casinos and related enterprises, revenue streams and how the revenue are being used to promote economic development and the well-being of the population.

BUS 460 Tribal and Federal Laws (3)
Prerequisite: Acceptance into the BA Business Administration program
This course will examine the relationship between the Federal Government and Tribes deriving from Federal and state law. Students will also study the composition and jurisdiction of the different levels of courts having jurisdiction over the tribal territories and other tribal issues resulting from the legal relationship between the Federal Government and Tribes.

BUS 480 Internship (3)
Prerequisite: Acceptance into the BA Business Administration program
Students carry out a work project in a private or public sector organization under the direct supervision of a designated faculty member and executive. Students meet with faculty member and other interns to discuss findings and common problems.

CHEMISTRY (CHM)

CHM 130 Fundamental Chemistry (4)
Prerequisite: ENG 100B, FST 131, and MTH 096.
Students receive a survey of modern chemistry and the relationship of chemical principles to familiar aspects of living, including topics relevant to Navajo culture. The faculty will discuss theories of atoms, molecules, chemical bonds, chemical reactivity, solutions, and the chemical basis of life. This course is suitable for allied health and education majors. This course meets for three hours lecture and three hours laboratory per week.

CHM 151 General Chemistry I (5)
Prerequisite: High school chemistry plus MTH 110 or equivalent or instructor’s permission.
The first semester of this two-semester sequence presents fundamental concepts of chemistry with an emphasis on theoretical and physical principles; atomic and molecular structure and theory; principles of chemical bonding, and their impact.
on the properties of gases, liquids, and solids. Laboratory experiments illustrate chemical principles, some of which are quantitative in nature, involving titrimetric and gravimetric methods. Instrumentation in this class includes use of the spectrophotometer. This course meets for four hours lecture and three hours laboratory per week.

Note: This course is designed for pre-professional, engineering and chemistry majors.

CHM 152 General Chemistry II (5)
Prerequisite: CHM 151 or equivalent.
This course is a continuation of CHM 151. Topics include physical states of matter, equations of state, phase transformations, solutions and colloids, chemical thermodynamics and kinetics, electrochemistry, ionic equilibrium, and instrumental analysis. This course meets for four hours lecture and three hours laboratory per week.

CHM 230 Fundamental Organic Chemistry (4)
Prerequisite: CHM 130 or equivalent or instructor’s permission.
In this course, students survey modern organic chemistry. Topics include structure, properties, and reactions of the various classes of organic chemicals, such as saturated and unsaturated hydrocarbons, alcohols, halides, carbonyls, and amines. Reaction mechanisms are introduced with examples such as simple synthesis and biochemical reactions. This course is designed for allied health and nursing majors. This class meets for three hours lecture and three hours of laboratory per week.

CHM 235 General Organic Chemistry I (4)
Prerequisite: CHM 152 or instructor’s permission.
This is the first course in a two semester sequence that will study the structure, physical properties, synthesis, and typical reactions of the various series of aliphatic, alicyclic, and aromatic compounds, with attention to reaction mechanisms and applications to living systems. This course meets for three hours lecture and three hours laboratory per week.

Note: This course is for pre-professional, engineering, and chemistry majors.

CHM 236 General Organic Chemistry II (4)
Prerequisite: CHM 233
This course is a continuation of CHM 235. Topics include spectroscopic applications in organic chemistry; condensation reactions of carbonyl compounds, rearrangement reactions, and mechanisms; and chemistry of fats, amines, proteins, and carbohydrates. This course meets for three hours lecture and three hours laboratory per week.

COMMUNICATION (COM)

COM 121 Speech Communication (3)
Prerequisite: ENG 101 and FST 131.
A study of principles, cultural dimensions, and techniques of public speaking. Students prepare and present speeches.

COMPUTER INFORMATION SYSTEM (CIS)

CIS 101 Spreadsheet (3)
Beginning to intermediate use of Microsoft Excel. Students will create worksheets for budgets, financial planning and forecasting, and personal finance, including multiple worksheets, as well as create charts and work with the database function of Excel.

CIS 111 Introduction to Computers (3)
Prerequisite: ENG 100B, FST 131, MTH 096
This course introduces business information systems and the uses of business application software with an emphasis on database and spreadsheet packages.

CIS 155 Introduction to Programming (3)
Prerequisite: Minimum grade of ‘C’ in CIS 111.
Study of the fundamentals of programming, including algorithmic design, programming constructs object-oriented concepts, data structures, file processing, and testing. Uses the C#.Net platform.

CIS 210 Systems Analysis and Design (3)
Prerequisite: CIS 155
Principles of information systems analysis and design using high-level development tools. Covers flow diagrams, PERT charts, and Gantt charts. Requires a case study (small-group) project.

CIS 420 Management Information Systems (3)
Prerequisite: Acceptance into the BA Business Administration program
This is an introduction to management information systems. Topics include executive information systems, management information systems, decision support systems, expert systems, and emerging advanced systems.

COMPUTER SCIENCE (CSC)

CSC 140 Hardware Fundamentals (3)
Introduction to electronics as it applies to computers. Theory of computer hardware and how programs are implemented in that hardware. Practical skills of maintaining, upgrading, and
building computers. Three hours lecture and two hours laboratory per week.

CSC 150 Programming Fundamentals (3)
Co-requisite: MTH 100.
This is the first programming course for CS majors—a re-introduction to computers from a programmer’s perspective. Topics include history of computers; social and ethical aspects of computers; working with files and folders; fundamentals of procedural programming (data types, variables, control structures, functions and arrays, input/output, built-ins); the use of pseudo code; high-level languages (interpreted and compiled); and the basics of software development. Three hours lecture and two hours laboratory per week.

CSC 170 Web Fundamentals (3)
Co-requisite: ENG 100B.
Web fundamentals for CS majors. How to create structured documents and share them on a network. HTTP, HTML, XML, and CSS. Media on the web: images, sound, animation, and text encodings. Security and usability, integrating programs and data-bases with web documents. Three hours lecture and two hours laboratory per week.

CSC 190 OS Fundamentals (3)
Co-requisite: CSC 150 or CSC 170.
Fundamentals of operating systems—theory and system administration using Linux or other POSIX compliant OS. Three hours lecture and two hours laboratory per week.

CSC 200 Object-Oriented Programming (3)
Prerequisite: CSC 150.
This course assumes that students are familiar with the basics of procedural programming. Students should already be able to write, from scratch, simple programs that use variables, conditionals, loops, and arrays. The course will begin with a review of this material. Then students will be introduced to the basics of object-oriented programming. Key notions are classes, objects, properties, and methods. Emphasis is on building programs using the object-oriented paradigm. Three hours lecture and two hours laboratory per week.

CSC 240 Network Fundamentals (3)
Prerequisite: CSC 150 or CSC 170.

CSC 295 Internship or Practicum (3)
Prerequisite: Departmental approval and at least 3 semesters of Computer Science.
The student will work with Computer Science Faculty to customize an internship or practicum that will tie together, and go beyond, what the student has learned in the rest of the courses. This course would normally be taken in the student’s last semester. The student should have completed most of the required courses.

DIGITAL ARTS (DA)

DA 109 Introduction to the Mac (1)
Introduction to the Macintosh computer. Course covers basics of selected software, printing creating files, saving files and backing up on external drives. Project-based assignments help students learn technical skills on the Mac.

DA 110 Introduction to Graphic Arts (3)
Introduction to principles of good design, and processes of commercial art, including layout, typography, illustration. Topics include raster and vector graphics, file formats, color, resolution, and practice design projects. Two hours lecture and three hours laboratory per week.

DA 111 Page Design I (3)
Prerequisite: DA 110.
An introduction to page layout. Students will learn the basic tools and techniques of the Adobe program, in Design. Students will also learn formatting, editing and linking text blocks, and importing text and graphics from other applications. In-class exercises emphasize the basic principles of typography and page layout and design. Students will complete finished page layout projects. Two hours lecture, three hours laboratory per week.

DA 112 Computer Illustration I (3)
Prerequisite: DA 110.
Introductory course in digital illustration, using the program, Adobe Illustrator. Students will learn Design principles in commercial illustration. Also learn tools and techniques, such as geometric and free form drawing tools, transformation tools, path editing, paint and type tools, and printing output. Students will complete finished digital drawing projects.

DA 113 Photographic Image Editing I (3)
Prerequisite: DA 109, 110.
Note: Cross list with FA 181 Digital Photography and Image Editing.
An introduction to the creation and manipulation of Digital Images. Students are introduced to the concepts and techniques of digital cameras and Adobe Photoshop to create, edit and manipulate images. Two hours of lecture and three hours laboratory per week.
Course Descriptions

DA 115 Web Design I (3)
Prerequisite: DA 110, 111, 112, 113.
Introductory course in web design, using the program, Dreamweaver and HTM. Students will learn Web Design principles and setting up the workspace, using type and graphics, links, tables, and uploading. Two hours lecture and three hours laboratory per week.

DA 211 Page Design II (3)
Prerequisite: DA 111.
An intermediate course in page layout. Students will learn theory and continue using the tools and techniques of the Adobe program, in Design. In-class exercises emphasize the basic principles of typography and page layout and Prerequisite: DA 110.

DA 212 Computer Illustration II (3)
Prerequisite: DA 112.
Intermediate course in digital illustration, using the program, Adobe Illustrator. Students will learn Design principles in commercial illustration. Also continue working with tools and techniques, such as geometric and free form drawing tools, color controls, and gradients. Students will complete finished digital drawing projects and create a portfolio. Two hours lecture, three hours laboratory per week.

DA 213 Photographic Image Editing II (3)
Prerequisite: DA 109, 110.
Note: Cross list with FA 281 Digital Photography and Image Editing.
A second semester of the study of Digital Photography and Image Editing. Students will focus on using intermediate functions of digital cameras, intermediate image composition, multiple images, intermediate portfolio development, and critical analysis. Basically students will explore more advanced features of image-making in camera, and image-editing using Photoshop. Artistic and commercial aspects of the medium are a focus of the course using the elements and principles of design. Two hours lecture, three hours laboratory per week.

DA 215 Web Design II (3)
Prerequisite: DA 110, 111, 112, 113.
Intermediate course in web design, using the program, Dreamweaver and HTML. Students will continue exploring Web Design principles and techniques. Work on setting up the website, links, table, and uploading. Two hour lecture and three hours laboratory per week.

DA 220 Digital Portfolio (2)
Prerequisite: Capstone course. Must have completed - or be concurrently enrolled in - all DA courses. Must be taken during the student’s last semester.

Students will create a final portfolio: physical and electronic, that shows exemplary skills in page layout, computer illustration, digital image editing, and web design. One hour lecture and three laboratory per week.

EARLY CHILDHOOD EDUCATION (ECE)

ECE 108 Field Experience I: Birth-Preschool (2-4)
Prerequisite: ECE 111 and another ECE program core course.
This course is designed to assist candidates in applying content from ECE coursework to the daily experiences of teaching in a birth-preschool setting. Candidates are expected to apply theory, materials, and research discussed in the coursework, assess applicability, and critique best practices in teaching and learning for young children. The course can be applied toward CDA Subject Areas 5, 6, and 7 (managing an effective program, maintaining a commitment to professionalism, and observing and recording children’s behavior), and provides CDA assessment preparation. It also counts toward an Arizona ECE endorsement.

ECE 110 Field Experience II: K-3rd grade (2-4)
Prerequisite: ECE 111 and another ECE program core course.
This course is designed to assist candidates in applying content from ECE coursework to the daily experience of teaching in a K-3 setting. Candidates are expected to apply theory, materials, and research discussed in the coursework, assess applicability, and critique best practices in teaching and learning children in grades K-3. The course can be applied toward CDA Subject Areas 5, 6, and 7 (managing an effective program, maintaining a commitment to professionalism, and observing and recording children’s behavior), and provides CDA assessment preparation. It also counts toward an Arizona ECE endorsement.

ECE 111 Introduction to Early Childhood Education (3)
Prerequisite: ENG and one Navajo language course that meet the General Education requirement (or instructor permission for Endorsement Program enrollment).
This survey course covers major concepts across basic areas of study in early childhood education. It focuses on curriculum development in all areas, including literacy, numeracy, the arts, health, science, social skills, and adaptive learning for children from birth through eight years old. The course integrates curriculum across content areas, using home language, experiences, and cultural values. It is taught in Navajo. It can be applied toward all eight CDA Subject Areas. It also counts toward an Arizona ECE endorsement.
Course Descriptions

ECE 116 Language, Literacy, and Cognitive Development (3)
Prerequisite: ECE 111.
This course covers the development of language, literacy, and mental growth in children from birth through eight years old. It focuses on the use of instructional methodologies in language, math, science, and social studies during adult-child interactions, and facilitates dialogue among children so as to develop expressive language and thought. The course develops candidates’ knowledge about literacy development, language assessment, and instruments for determining each child’s language strengths. It is taught in Navajo. It can be applied toward CDA Subject Area 2 (advancing children’s physical and intellectual development). It also counts toward an Arizona ECE endorsement.

ECE 220 Creative Arts for Young Children (3)
Prerequisite: ECE 111.
This course focuses on the central role that the creative arts play as an overall design element for early childhood care programs. Candidates learn to use drawing, painting, sculpture, drama, music, dance, and other modalities in planning learning activities for children. Through the arts, instructional strategies are explored that foster responsibility, autonomy, self-reliance, and positive social interactions. The course is taught in Navajo. It can be applied toward CDA Subject Area 2 (advancing children’s physical and intellectual development). It also counts toward an Arizona ECE endorsement.

ECE 225 Child Growth and Development (3)
Prerequisite: ECE 111.
This course covers theories and research about the physical and psychological development of young children. It also covers strategies for parents and teachers to encourage healthy development. The course is taught in English. It can be applied toward CDA Subject Area eight (understanding principles of child development and learning). It also counts toward an Arizona ECE endorsement.

ECE 235 K’é, Ádaa’ Ákohwiindzin, Social Development, and Community (3)
Prerequisite: ECE 111 or instructor’s permission.
This course examines the structure of healthy Navajo communities by focusing on clan and extended family systems. Structures are expanded and related to other institutional support systems that provide for the welfare of children and their families. Classroom management strategies are explored, as well as assessing, monitoring and reporting children’s progress. The course is taught in Navajo. It can be applied toward CDA Subject Areas 3, 4, and 7 (supporting children’s social and emotional development, building productive relationships with families, and observing and recording children’s behavior). It also counts toward an Arizona ECE endorsement.

ECE 245 Wellness and Special Needs for Young Children (4)
Prerequisite: ECE 111.
This course focuses on the health, nutrition, and safety of young children. Candidates learn about basic safety and illness prevention. The course also covers inclusion of children with special needs. It requires application of the material in field experiences at a childcare center. It is taught in English and Navajo. It can be applied toward CDA Subject Areas 1 and 3 (planning a safe and healthy learning environment, and supporting children’s social and emotional development). It also counts toward an Arizona ECE endorsement.

ECONOMICS (ECO)

ECO 111 Introduction to Economics (3)
Prerequisite: ENG 101.
This course is an introduction to the study of capitalism, including macro and micro perspectives. The course draws comparisons with other forms of economic organization, including those of the Navajo.

ECO 200 Principles of Macroeconomics (3)
Prerequisite: MTH 100; ENG 101, or concurrent enrollment.
This course is an introduction to macro-analysis of the capitalist system. Topics include national income accounting, aggregate demand and supply, inflation, unemployment, and monetary and fiscal policies. Topics relate to the productive capacity of the Navajo economy, international economics, and current economic issues. This course emphasizes the general education special requirements of intensive writing/critical thinking (IW/CI).

ECO 201 Principles of Microeconomics (3)
Prerequisite: MTH 100, ENG 101 or concurrent enrollment.
This course is an introduction to micro-analysis of the capitalist system. Topics include utility theory and consumer choice, the theory of the firm, costs and producer choice, supply and demand and price determination, perfect and imperfect markets, business regulations, markets for resources, and the determination of wage rates. This course emphasizes the general education special requirements of intensive writing/critical thinking (IW/CI).

ECO 460 Tribal Economic Issues and Development Strategies (3)
Prerequisite: Acceptance into the BA Business Administration program.
This is a basic economic development course. It treats the economic development of less developed countries. Topics include theories of economic development: Marxist theory, Classical theory, Rostow’s takeoff theory, savings, investment and capital accumulation, population growth and food supply,
and the importance of available resources in the economic development of the Navajo Nation.

**EDUCATION (EDU)**

**EDU 200 Foundations of Education (3)**
*Prerequisite: ENG 101 and one Navajo language course that meets General Education requirement*

The course examines the philosophical, sociocultural, historical, and legal foundations of education. Students explore methods and materials, bilingual and bicultural programming, and teaching careers, with particular emphasis on Navajo Nation education.

**EDU 238 Children and Youth Literature (4)**
*Prerequisite: ENG 101 and one Navajo language course that meets General Education requirement*

This course provides an overview of prose and poetry for K-12 learning environments with special attention to Navajo Nation and Indigenous cultures. Emphasis is placed on understanding the purpose and content of literary works to encourage literacy, life-long love of reading, critical thinking, and creativity. Ways to promote the development and assessment of reading skills are examined.

**EDU 240 Introduction to Special Education (3)**
*Prerequisite: ENG 101 and one Navajo language course that meets General Education requirement*

This course includes an overview of the history, current trends, and future directions of special education. The course covers federal legislation and policies, learning about disabling conditions, classroom integration/inclusion, and social issues.

**EDU 261 Technology in Education (3)**
*Prerequisite: ENG 101 and one Navajo language course that meets General Education requirement*

This course offers opportunities to increase computer application skills and understand how technology can be used to enhance learning in K-12 classrooms. Students will use technology to organize instruction, facilitate group and individual instruction, and assess student learning. Projects require the use of office and educational software as well as digital and video cameras.

**EDU 297 Practicum in Education (1)**
*Prerequisite: ENG 101; one Navajo Language course that meets the General Education requirement; any two EDU courses; Navajo Nation Tribal background check; and an appropriate state fingerprint clearance card.*

Through Nitsáhákees, Nahat’á, Iiná, Siihasin, this course is designed to provide an opportunity for practical application of education courses in a K-12 setting. The course includes 24 hours of field experience as well as classroom experience conducted as a seminar. The seminar focuses on instructional approaches, learning styles, and broader issues associated with teaching and learning.

**EDU 345 Understanding Human Development in Schools (3)**
*Prerequisite: Acceptance in the BA Elementary Education Program*

This foundations course introduces pre-service teachers to educational theories to help them understand how children attempt to “make sense” of information and events that shape learning and development in their lives at school as well as outside the school environment. Navajo and Non-Nativo perspectives of how children learn and develop are studied with a focus on students from non-English-language backgrounds.

**EDU 352 Methods for Teaching Diné Educational Philosophy in K-8 Schools (3)**
*Prerequisite: Acceptance into the BA Elementary Education Program*

This course examines Diné Educational Philosophy and how it can be applied inside and outside of schools. Teacher candidates explore Navajo perspectives on learning, teaching, classroom management, parental and community involvement, and Ké. Instruction is in Navajo and English.

**EDU 353 Diversity in Navajo and American Indian Education (3)**
*Prerequisite: Acceptance in the BA Elementary Education Program*

This course surveys theories on Native student learning and empowerment with implications for Navajo and American Indian educational program development. It examines factors that affect relations among student learning, schools, other social institutions, communities, language, culture, and power; teaching and assessment strategies for addressing differences among students, and strategies for maintaining effective home-school and community-school relations.

**EDU 354 Emergent Literacy, Language Learning, and Assessment in Bilingual/ESL Settings (3)**
*Prerequisite: Acceptance in the BA Elementary Education Program*

In this course, pre-service teachers are introduced to ways of understanding home and school language and literacy as a part of self-expression. Literacy across the disciplines and in Language Arts K-8 classrooms will be studied. The focus is on how the emergent literacy and language acquisition of non-English-language-background students can be observed and supported by elementary teachers in Navajo Nation schools. Topics covered include language and literacy learning, developing and organizing instruction, self-understanding and self-expression, feedback, and assessment of learning.
**Course Descriptions**

**EDU 358 Field Experience I (2)**  
*Prerequisite: Acceptance into the BA Elementary Education program.*  
This 6-week field experience provides the pre-service teacher with opportunities to apply course content in a K-8 classroom and actively reflect on the teaching profession. A mentor teacher and CDTE supervisor provide guidance during this learning experience. The pre-service teacher will engage in daily classroom activities and teach and assess lessons with individuals and small groups.

**EDU 360 Special Education in Indigenous Classrooms (3)**  
*Prerequisite: Acceptance in the BA Elementary Education Program and successful completion of EDU courses 345-358.*  
This course expands the knowledge and practical applications of skills and strategies needed to meet the diverse needs of learners from non-English-language backgrounds in general education classrooms, particularly on the Navajo Nation. Emphasis is on federal legislation and policies; identifying, assessing, and implementing classroom learning for children with diverse needs; principles of classroom organization and management; and effective teaching strategies and methods. Course content includes lectures, readings, discussions, and projects focusing on pre-service teachers’ knowledge and skills to meet the diverse needs of learners in a general education classroom and to develop strategies in differentiated instruction.

**EDU 361 Methods for Language Diverse Students I (3)**  
*Prerequisite: Acceptance in the BA Elementary Education Program and successful completion of EDU courses 345-358.*  
This course introduces pre-service teachers to instructional strategies which enhance language learning for K-8 non-native speakers. K-8 Navajo-as-a-second-language (NSL) learners will be studied in depth along with the experiences of other groups learning a second language. In addition, pre-service teachers will explore factors that have excluded the Navajo language from K-8 schools and ones that now make access possible. The pre-service teacher will develop an understanding of the general characteristics of K-8 second-language learners, and learn how to evaluate oral and written language proficiencies. They will demonstrate proficiency in preparing and teaching lessons that utilize methods and materials for learning oral and written second language.

**EDU 362 Integrated Elementary Teaching Methods for Bilingual/ESL Classrooms I (3)**  
*Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345-358.*  
This course introduces integrated methods, strategies, and materials for teaching science, math, and social studies in K-8 classrooms. Candidate teachers will apply appropriate state, tribal, and common core standards to design inquiry-based lessons with cooperative learning strategies. They will apply science, math, and social studies concepts to explore issues in local communities.

**EDU 374 Bilingual/ESL Reading Methods, Management and Assessment (3)**  
*Prerequisite: Acceptance in the BA Elementary Education Program and successful completion of EDU courses 345-358.*  
The pre-service teacher will study the teaching of reading instruction for limited-English-proficient students in K-8 schools, particularly on the Navajo Nation. They will examine the reading process, comprehending a variety of texts and instructional strategies, and assessing student learning. They will gain a greater understanding of children’s literature and how it can be utilized in the classroom. Pre-service teachers will plan, select, and collect materials, develop appropriate goal-setting, and assess students’ reading skills.

**EDU 378 Field Experience II (2)**  
*Prerequisite: Acceptance in the BA Elementary Education Program and successful completion of EDU courses 345-358.*  
This 6-week field experience provides the pre-service teacher an opportunity to apply course content in a K-8 classroom and actively reflect on the teaching profession. A mentor teacher and CDTE supervisor provide guidance during this learning experience. The pre-service teacher will engage in daily classroom activities and teach and assess lessons with whole groups.

**EDU 397 Teacher Licensure Subject Area Test Preparation (3)**  
This course prepares pre-service teachers and non-certificated teachers for the content area portions of the state licensure exam. Topics include test taking skills, mathematics, science, arts, health, fitness, reading and English language arts, and social studies. Students will take the required content area state licensure tests.

**EDU 474 Bilingual/ESL Writing Methods, Management and Assessment (3)**  
*Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses EDU 345 – 378.*  
In this course, pre-service teachers will develop their own personal philosophy about teaching writing, participate in activities that develop their own writing and practice, record and acquire a variety of techniques and methods for teaching and assessing limited-English-proficient K-8 students in Navajo Nation schools. They will gain facility with the writing process, six-trait writing instruction and assessment, writing port-
Course Descriptions

folios, a variety of assessment methods, and a variety of options for publishing student writing. Pre-service teachers will experience the importance of integrating writing across the content areas as a tool for learning and as a subject of study.

EDU 475 Methods for Language Diverse Students II (3)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345 - 378.
This course prepares pre-service teachers to understand language acquisition and language learning in a K-8 setting. Pre-service teachers will gain knowledge of debates and processes of inquiry central to the elementary disciplines (i.e., advantages and limitations of teaching Navajo via situational, immersion, and/or second-language teaching approaches). Ways of teaching K-8 subjects in the target language will be explored. Pre-service teachers will develop lesson plans that have clearly defined instructional objectives and employ a variety of instructional approaches, strategies, techniques, and assessment options.

EDU 476 SEI/ESL for Linguistically Diverse Learners in Bilingual Settings (3)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345–378.
This course introduces theories related to teaching children who are learning a second language. The purpose is to prepare teachers to work with children who experience the languages of Navajo and English and must gain competency in both to be a part of their community and to have options in schooling and when selecting a career. This course examines immersion topics of instructional SEI/ESL methods and strategies, assessment, feedback, and the contexts in which languages are learned and used. This course follows the curricular framework for Sheltered English Immersion instruction in accordance with the Arizona State Department of Education.

EDU 477 Integrated Elementary Teaching Methods for Bilingual/ESL Classrooms II (3)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345–378.
This course introduces integrated methods, strategies, and materials for teaching science, math, and social studies in K-8 classrooms. Candidate teachers will apply appropriate state, tribal, and common core standards to design inquiry-based lessons with cooperative learning strategies. They will apply science, math, and social studies concepts to explore issues in local communities.

EDU 478 Field Experience III (2)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345 – 378.
This 6-week field experience provides the pre-service teacher opportunities to apply course content in a K-8 classroom and actively reflect on the teaching profession. A mentor teacher and CDTE supervisor provide guidance during this learning experience. The pre-service teacher will engage in daily classroom activities and teach and assess a thematic unit with whole groups.

EDU 487 Indigenous Culture-Based Education: International Seminar (3)
This seminar will provide an opportunity for students from multiple sites to engage in the comparative study of issues associated with the education of Indigenous peoples and communities on an international scale with an emphasis on the role of language and culture through a review of educational practices and theories that have emerged from a variety of sources. Is offered every other year in tandem with EDU 488 Indigenous Culture-based Education: International Seminar.

EDU 488 Indigenous Well-Being through Education: International Seminar (3)
Cultural perspectives on human development and well-being of indigenous peoples. Designed to promote, nurture, explore and understand the influence of culture on the indigenous person. Of a special interest to educators in schools serving indigenous students regarding cultural understandings and change in a historical and contemporary context. Is offered every other year in tandem with EDU 487 Indigenous Culture-based Education: International Seminar.

EDU 496 School Law (2)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345–378.
This course explores legal actions and theories applied in Navajo Nation schools. The Navajo language, culture, and philosophy are integrated and addressed through the course. Pre-service teachers will gain a greater understanding of how to protect the legal rights of students, teachers, and the schools on the Navajo Nation by examining the legal system. There will be discussions of practical guidelines to prevent litigation.

EDU 498 Student Teaching (8)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of all BAEE courses except EDU 496 and EDU 499.
This course covers the final semester of the senior year. Pre-service teachers are placed in a K-8 school. They will be expected to show understanding and application of pupil management, planning and delivery of instruction, and assessment.

EDU 499 Diné Education Seminar (2)
Prerequisite: Acceptance into the BA Elementary Education program and successful completion of all BAEE courses except EDU 496 and EDU 498.
This is a capstone course in which pre-service teachers reflect upon their experiences in student teaching and review their commitment to a career in Elementary Education. During this
semester, the pre-service teachers, as cohort members, will share their experiences in schools—lessons learned, current dilemmas, and joys experienced. Pre-service teachers will create, complete, and present a professional portfolio. They will also conclude preparation for the AEPA Professional and Subject Matter standards exams and show completion of or a scheduled date for taking the exam.

ENGINEERING (EGR)

EGR 105 Electricity I (2)
Prerequisite: ENG 100B or taken concurrently.
This course introduces students to the concepts associated with electricity, such as electricity standards, dimensions, and circuits.

EGR 110 Electricity II (2)
Prerequisite: EGR 105.
This course is a continuation of Electricity I. Students in this course will learn about direct current (DC), alternating current (AC) theory, and circuits (series, parallel, and combination).

EGR 111 Introduction to Engineering (2)
Prerequisite: MTH 100 or equivalent.
A broad survey of the various fields of engineering and an in-depth look at the disciplines of study needed to pursue a career in engineering. Particular attention given to measurement and calculation with an introduction to computing and the BASIC programming language.

ENGLISH (ENG)

ENG 100A Communication Workshop I (3)
Prerequisite: FST 133 or placement test.
This course develops the students’ writing abilities (specifically, the writing of paragraphs), with additional effort focused on grammar, vocabulary building, and mechanical skills. Narrative and descriptive writing are emphasized. (IP grade applicable).

ENG 100B Communication Workshop II (3)
Prerequisite: ENG 100A or placement test.
This course advances students’ abilities to write well-crafted and grammatical essays, with appropriate and effective word choice. Elements of expository prose are emphasized. Advanced grammar and other discrete skills are taught as necessary. (IP grade applicable).

ENG 101 Freshman English I (3)
Prerequisite: FST 131 and ENG 100B or placement scores of NRR and test into ENG 101.

ENG 102 Freshman English II (3)
Prerequisite: ENG 101 with a grade of C or greater.
Emphasizes critical reading and writing to develop necessary college level communication skills. One guided research paper is required.

ENG 121 Creative Writing: Poetry (3)
Prerequisite: ENG 101 or concurrent enrollment.
An introduction to techniques of writing poetry. Introduces forms, elements of poetry, and the creative writing process.

ENG 122 Creative Writing: Short Fiction (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course is an introduction to the writing of short fiction. Emphasizes the elements of short fiction.

ENG 180 Technical Writing (3)
Prerequisite: ENG 101.
Instruction in writing and analysis of proposals, technical descriptions and articles, manuals and reports, and business letters.

ENG 181 Reading and Writing for Special Purposes (3)
Prerequisite: FST 131 and ENG 100B.
This course introduces students to techniques of reading and analyzing materials. Addresses topics of current public interest.

ENG 182 Technical Writing II (3)
Prerequisite: ENG 101.
Instruction in writing and analysis of proposals, technical descriptions and articles, manuals and reports, and business letters.

ENG 212 Creative Writing: Poetry (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course is an introduction to techniques of writing poetry. Introduces forms, elements of poetry, and the creative writing process.

ENG 213 Creative Writing: Short Fiction (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course is an introduction to the writing of short fiction. Emphasizes the elements of short fiction.

ENG 231 Introduction to Literature (3)
Prerequisite: ENG 102 or 101 and instructor’s permission.
Study of poetry, short stories, drama, essays, and novels from a variety of perspectives. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

ENG 232 Introduction to Native American Literature (3)
Prerequisite: ENG 102 or 101 and instructor’s permission.
A survey of American Indian literature with emphasis on contemporary writers and oral tradition. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

ENG 234 Literature of the Southwest (3)
Prerequisite: ENG 102 or 101 and instructor’s permission.
A survey of selected works by Southwest authors in a variety of genres to promote appreciation and understanding of this multicultural region. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).
Course Descriptions

ENG 241 Journalism and Mass Media (3)
Prerequisite: ENG 101
This course is designed to help students survey the fields of communications and mass media and to acquire the skills needed to recognize, develop, and write news stories. Print media, visual media, digital media, advertising, production and media ethics are included in this course.

ENG 297 Journalism Practicum (3)
Prerequisite: ENG 101, either concurrent enrollment in ENG 241 or completion ENG 241 with grade of C or better.
Hands-on experience producing a college magazine. Emphasis on planning, editorial writing and editing, news judgment, page design, computer pagination, photo usage, headline writing.

ENVIRONMENTAL SCIENCE AND TECHNOLOGY (ENV)

ENV 101 Introduction to Environmental Science (4)
Prerequisite: FST 131, ENG 100B, MTH 096.
This course presents basic information for understanding environmental problems and making good personal choices. It surveys sources, types, and effects of pollutants on the environment and human health as well as ways to control pollutants and to mitigate pollutant damage. Special emphasis on the local environment and public health issues incorporates Navajo views of the environment, science, and health. Students research contemporary issues of health, diet, consumer products, and resource management. This course meets for three hours lecture and three hours laboratory per week.

ENV 103 Introduction Cartography/GPS/GIS (1)
Prerequisite: ENG 100B.
This course is a basic introduction to cartography, the Global Positioning System (GPS) using hand-held GPS receivers and the Geographical Positioning System (GIS) using ArcView.

ENV 105 Climate Change for Tribal Peoples (4)
Prerequisite: ENV 101 or BIO 182.
Students are introduced to scientific evidence of global climate change especially relating to Native American tribes, including ecological changes on tribal lands. They explore conditions causing climate change and the influence of human behaviors. They also investigate actions that can be taken locally to mitigate the impacts of climate change. This course meets for three hours lecture and three hours laboratory study per week, which includes field studies and possible weekend field trips. Emphasizes reading, note taking, summarizing, and reporting.

ENV 110 Introduction to Soils/Lab (4)
Prerequisite: ENV 101.
This course introduces students to the physical, chemical and biological properties of soils, the origin, classification, and distribution of soils and their influence on people and food production, and the conservation and environmental impact of soil use.

ENV 123 Introduction to Physical Hydrology (3)
Prerequisite: ENG 100B.
This course is a qualitative introduction to the dynamics of surface and groundwater from an intuitive perspective, laying the foundation for understanding the physical mechanisms by which water is transported throughout a hydrologic system. Connectivity with the non-aquatic physical environment is also explored.

ENV 160 Introduction to Geographic Information System (3)
Prerequisite: Student must be accepted into a Summer Research Program.
During this course, students are introduced to Geographic Information System (GIS) software using the ArcInfo program. Faculty covers GIS planning methods and the uses and analysis of geographic and attributes data. Students are required to apply what they have learned to summer research projects. The course also includes an introduction to ArcInfo data commands and the ArcView display program. Students must use GIS in a summer research project and in a final presentation.

ENV 216 Irrigation and Drainage (3)
Prerequisite: ENV 123.
This course looks at design, evaluation and management of irrigation and drainage systems. It addresses concepts and processes such as soil-water-plant relationships, evapotranspiration and infiltration, water requirements, effective water use, system scheduling and planning.

ENV 218 Water Resources Technology (4)
Prerequisite: GLG 101 and MTH 110 or above.
In this course, students are introduced to the concepts of hydrology, water law, water resources management, and planning with special focus on the Navajo Nation.

ENV 225 Principles of Agroecology (4)
Prerequisite: ENV 101 or BIO 182.
This course introduces ecology in the analysis of agriculture and sustainable systems, with an emphasis on the fundamentals of agriculture: soils, plants, water, and the geographical and cultural context of farming systems. Topics include traditional farming, farm development and design, and sustainable farming practices.
Course Descriptions

ENV 230 Environmental Sampling and Monitoring (4)
Prerequisite: BIO 181 or BIO 182.
Covers the principles of geology, ecology, and introduces methods and techniques in environmental sampling and monitoring for water, air, and solids. This course meets for three hours lecture and three hours laboratory.

EDUCATIONAL PROFESSIONAL DEVELOPMENT (EPD)

EPD 250 Teaching numbers and operations in grades K-8 (6)
Prerequisite: Must hold a current elementary teaching certificate.
This course focuses on number sense and operations in grades K-8. Stresses learning environments, teaching resources, and use of technology. Emphasizes Common Core math competencies for the elementary and middle grades. Includes practical applications of instructional assessment strategies. Frames all aspects of number sense and operations within context of place-based acquisition and application of math concepts.

EPD 251 Teaching geometry and measurement in grades K-8 (3)
Prerequisite: EPD 250. Must also hold a current elementary teaching certificate.
This course focuses on geometry and measurement in grades K-8. Covers geometric properties, transformation of shapes, and coordinate geometry and measurement. Stresses learning environments, teaching resources, and use of technology. Emphasizes Common Core math competencies for the elementary and middle grades. Includes practical applications of instructional and assessment strategies. Frames all aspects of geometry and measurement within the context of place-based acquisition and application of math concepts.

EPD 252 Teaching patterns, algebra, and functions in grades K-8 (6)
Prerequisite: EPD 250 and 251. Must also hold a current elementary teaching certificate.
This course focuses on patterns, algebra, and functions in grades K-8. Covers algebraic notation, properties, relations and functions, and quotations and inequalities. Stresses learning environments, teaching resources, and use of technology. Emphasizes Common Core math competencies for the elementary and middle grades. Includes practical applications of instructional and assessment strategies. Frames patterns, algebra, and functions within context of place-based acquisition and application of math concepts.

EPD 253 Teaching data analysis, probability, and discrete mathematics in grades K-8 (3)
Prerequisite: EPD 250, 251 and 252. Must also hold a current elementary teaching certificate.
This course focuses on data analysis, probability and discrete mathematics concepts in grades K-8. Covers statistics, sampling, systemic listing and counting, and vertex edge graphs. Stresses learning environments, teaching resources, and use of technology. Emphasizes Common Core math competencies for the elementary and middle grades. Includes practical applications of instructional and assessment strategies. Frames data analysis, probability, and discrete mathematics within context of place-based acquisition and application of math concepts.

EPD 254 Teaching mathematics classroom assessment in grades K-8 (3)
Prerequisite: EPD 250, 251, 252 and 253. Must also hold a current elementary teaching certificate.

EPD 255 Teaching pedagogy and instructional leadership in mathematics in grades K-8 (3)
Prerequisite: EPD 250, 251, 252, 253, and 254. Must also hold a current elementary teaching certificate.
This course focuses on teaching pedagogy and instructional leadership in mathematics in grades K-8. Covers teaching strategies, curriculum development, supervision and evaluation of teaching, and design and implementation of mathematics improvement programs. Stresses research-based approaches. Emphasizes Common Core math competencies for the elementary and middle grades. Includes practical applications of program development strategies. Frames teaching and instructional leadership within context of place-based acquisition and application of math concepts.

FINE ARTS (FA)

FA 106 Color Theory (3)
An introduction to basic and advance color theory. The principles of color: design, color wheels, contrast, harmony, impressions, composition and vocabulary will be introduced. Creative solutions using Nitsišk̓ee, Nahat’á, Líné, Siihsai in visual problems will be emphasized. Two hours lecture and three hours laboratory per week.

FA 107 3D Design (3)
Course Descriptions

Prerequisite: FA 112, FA 113
An introduction to the basic elements: form, serial planes, wall structures, prisms, cylinders, polyhedral structures, triangular planes, linear frameworks and vocabulary of three-dimensional design. Creative solutions using Nitsáhkees, Nahat’á, Liná, Siilhasin to visual problems will be emphasized. Two hours lecture and three hours laboratory per week.

FA 112 2 D Design (3)
This course involves creative, imaginative, and perceptual problem-solving using design, color theory, and critical evaluation. It covers two- and three-dimensional design projects for intuitive thinking and problem-solving. Two hours lecture and three hours laboratory per week.

FA 115 Drawing I (3)
This course develops basic concepts, graphic sensitivity, and compositional skills in drawing. Two hours lecture and three hours laboratory per week.

FA 120 Ceramics I (3)
Explorations in coil, slab, mold, and wheel methods. Introduction to firing and glazing techniques. Two hours lecture and three hours laboratory per week.

FA 121 Photography I (3)
This introductory course in photography as an art medium includes operating a camera, developing black-and-white film, and enlarging negatives to make prints. Includes analysis of aesthetics and the historical background of photography during student critiques. Two hours lecture and three hours laboratory per week.

FA 131 Sculpture I (3)
Introduction to media, materials, methods, and techniques in sculpture as an art medium. Emphasis on design. Two hours lecture and three hours laboratory per week.

FA 178 Introduction to Digital Photography 3.0
Prerequisite: Computer Literacy.
An introduction to the Digital Camera. Students will learn the technical aspects of the digital camera, including using menus and understanding exposure basics using F-stops, shutter speeds and ISO. Includes an introduction to photographic seeing and the aesthetics of Photography, using the elements and principals of art. Students will download images and build an online portfolio.

FA 181 Digital Photography and Image Editing I (3)
Prerequisite: Reading proficiency; Computer literacy or instructor’s permission.
An introductory course in the creation and manipulation of digital images. Students are introduced to the concepts and techniques of digital cameras and Adobe Photoshop to create, edit, and manipulate images. Focus on artistic aspects of the medium using the elements and principles of design. Two hours lecture and three hours laboratory per week.

FA 190 Painting I (3)
Prerequisite: FA 112.
This course offers an introduction to practical applications of painting, emphasizing the personal exploration of ideas; also covers concepts such as functional color theory and atmospheric perspective. Three hours lecture and three hours laboratory per week.

FA 215 Drawing II (3)
Prerequisite: FA 115.
A second semester course on drawing as an art medium. Themeic drawing will be emphasized. Two hours lecture and three hours laboratory per week.

FA 221 Photography II (3)
Prerequisite: FA 121 or instructor’s permission.
A second-semester course on photography as an art medium. Refines camera and darkroom techniques. Includes critique of photographs, the historical background of photography, photographic vision, and the aesthetics of photography to help students develop individual styles. Two hours lecture and three hours laboratory per week.

FA 227 Art for Teachers (3)
This course is an introduction to methods and theories of art education for early childhood and elementary school, including art appreciation and art history. Two hours lecture and three hours laboratory per week.

FA 235 Drawing III (3)
Prerequisite: FA 115, FA 215
A third semester course on drawing as an art medium. Continued emphasis on thematic drawing.

FA 245 Life Drawing (3)
Prerequisite: FA 115 and FA 215
An introduction to the development of skills in drawing the basic forms and gestures of the human figure. Human anatomy will be emphasized. Two hours lecture and three hours laboratory per week.
Course Descriptions

FA 281 Digital Photography and Image Editing II
Prerequisite: FA 181.
A second semester in the study of Digital Photography and Image Editing. Students will focus on using intermediate digital cameras with manual functions, and gain intermediate skills in digital darkroom and digital output, explore quality of light, image composition, multiple images, portfolio development, and critical analysis. Basically students will explore more advanced features of image-making in camera, and image-editing using Photoshop. Students will explore the history of photography and study famous photographers, their works, and their styles. Artistic aspects of the medium are a focus of the course using the elements and principles of design. Two hours lecture and three laboratories per week.

FA 290 Painting II (3)
Prerequisite: FA 190 or equivalent.
This second-semester course in painting as an art medium offers further application of painting concepts and physical processes. Students are encouraged to show independent initiative in developing expertise in painting. Two hours lecture and three hours laboratory per week.

FOUNDATION STUDIES (FST)

FST 100 College Success Skills (3)
Prerequisite: Placement tests or instructor’s permission.
This course offers students opportunities to improve their study habits and skills and to develop effective thinking and planning necessary for success in college and in life. The course includes practice in academic skills (such as note taking, test taking, time management, and use of the library) as well as skills and strategies benefiting students in their everyday lives (reading labels and contracts, writing basic business letters, being proactive with others, taking responsibility for one’s actions, and researching and utilizing available resources). Students also begin exploring career options.

FST 130 Foundations of Reading (3)
Prerequisite: placement test.
This course develops a variety of pre-college reading skills and strategies. The reading selections reflect level-appropriate texts and include topics related to Diné life and culture. (IP grade applicable).

FST 131 Advanced Reading (3)
Prerequisite: FST 130 or placement test.
Through the development of higher-order cognitive skills, this course stresses the importance of textual comprehension and critical reading. An emphasis placed on Native American reading materials. IP grade applicable.

FST 133 Applied Communication I (3)
Prerequisite: Placement test.
This course uses the writing process to develop the students’ sentence-level writing skills as well as basic grammar, vocabulary building, and mechanical knowledge and skills. (IP grade applicable).

GEOLOGY (GLG)

GLG 101 Indigenous Physical Geology (4)
Prerequisite: ENG 100B, FST 131, and MTH 096.
High-school chemistry or physics is recommended.
Provides basic principles of geology and applications of chemistry and physics to geological problems with an emphasis on the geology of the Navajo Nation and topics of significance to Navajo people. Topics include rocks, minerals, regional landforms and structures, and earth processes, earth systems, and geologic time. This course meets for three hours lecture and three hours lab. Students will participate in field studies and possible weekend field trips.

GLG 102 Historical Geology (4)
Prerequisite: GLG 101.
Applies geologic principles to the interpretation of earth history and the evolution of life. This course meets for three hours lecture and three hours lab. Students will participate in field studies and possible weekend field trips.

GLG 203 Environmental Geology (4)
Prerequisite: GLG 101, CHM 151, and MTH 110 or above.
This course provides a quantitative study of environmental problems involving solid-earth systems and human interactions. Case studies concerning the Navajo Nation and the arid Southwest are given special emphasis. This course meets for three hours lecture and one three-hour lab per week. Some weekend field trips may be required.

GLG 229 Field and Laboratory Geology for Teachers (3)
Prerequisite: One college-level science course.
This modular (project-oriented) course in the principles of geology and methods of geology education is for practicing K-12 teachers. Provides hands-on field and lab experience to foster creative and technical skills that teachers require to develop student-centered lessons. Examples and activities are drawn from the Navajo land and environment, the Diné Education Philosophy, and the National Science Education Standards. Graduate-level credit may be arranged through a cooperating university. Some weekend field trips may be required.
HEALTH EDUCATION (HEE)

HEE 110 Introduction to Wellness (3)
An introductory class in wellness that covers health, cultural diversity, relationships, sexuality, stress management, substance use and abuse, nutrition, mental health, lifestyles, aging and death, alcoholism, communicable and chronic diseases, environmental health, and health care systems.

HEE 111 Personal and Community Health (3)
Explores how to achieve, maintain, and promote wellness. Also covers prevention and control of diseases, nutrition, consumer health, and ecology.

HEE 112 First Aid/CPR (3)
Techniques in basic first aid and CPR. Students receive certification upon successful completion of the course.

HISTORY (HST)

HST 101 World Civilization I (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course is a historical survey of Middle Eastern, Asian, Western, Native American, and African history from the earliest human civilizations to the European invasion of the Americas. This course emphasizes the general education special requirements in ethnic/race/gender and historical and global awareness (ERG, HA, and GA).

HST 102 World Civilization II (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course is a historical survey of Middle Eastern, Asian, Western, Native American, and African history from the European invasion of the Americas to the present. This course emphasizes the general education special requirements in ethnic/race/gender and historical and global awareness (ERG, HA, and GA).

HST 135 American History: Prehistory to 1865 (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course is a historical survey of the American experience from the period of European exploration to the end of the Civil War. This course emphasizes the general education special requirements in ethnic/race/gender and historical awareness (ERG and HA).

HST 136 American History: 1865 to Present (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course is a historical survey of the American experience from the conclusion of the Civil War to the present. This course emphasizes the general education special requirements in ethnic/race/gender and historical awareness (ERG and HA).

HST 201 Colonial Latin America (3)
Prerequisite: ENG 101.
This course is a survey of the history and peoples of Latin America beginning with their origins, including European contacts, conquests, and the colonial era, and ending with the struggles for independence. The course emphasizes general education special requirements of intensive writing/critical thinking, and ethnic/race/gender and historical awareness (IW/CI, ER, and HA).

HST 202 Modern Latin America (3)
Prerequisite: ENG 101.
This course is a historical survey of the history and peoples of Latin America from their independence to the present. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

HST 234 History of Native Americans: Pre-Contact to the Modern Age (3)
Prerequisite: ENG 101.
This course is a historical survey of Native American history from pre-Columbian times to the present. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

HST 245 History of the American West (3)
Prerequisite: ENG 101.
This course is a historical survey of the American West from pre-Columbian times to the present. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

HST 256 Southwestern Borderlands (3)
Prerequisite: ENG 101.
This course focuses on the cultural, political, socioeconomic, and ethnic evolution of the Southwestern Borderlands from prehistory to the present. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

HST 289 Selected Topics in History (1-3)
Prerequisite: ENG 101 or instructor’s permission.
This course covers selected topics in history which are identified when the course is scheduled. This course may be repeated if there is a change in content.
HUMANITIES (HUM)

HUM 105 Introduction to Logic and Critical Thinking (3)
Prerequisite: ENG 100B or placement test and FST 131, or the reading proficiency requirement.
Introduction to basic principles of logical analysis. Students present and evaluate arguments in ordinary language using critical thinking and appropriate standards of evidence.

HUM 131 Music Appreciation (3)
No prior music experience necessary.
Designed to develop listening skills for increased listening pleasure. Utilizes community resources for live performances as well as audiovisual material. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

HUM 131 Music Appreciation (3)
Prerequisite: ENG 101 or concurrent enrollment.
The course examines the modern literary and artistic works of Indigenous, Hispanic, and Euro Americana, both men and women, of the Southwest.

HUM 152 Film Appreciation (3)
A course in film history and the special qualities of film communication. Discusses the effects and technical aspects of film. Several American film genres are examined. Emphasizes the development of critical viewing abilities. Includes readings about film, film viewing, lectures, discussions, and a two-hour lab per week for film viewing.

HUM 221 Introduction to Philosophy (3)
Prerequisite: ENG 101 or concurrent enrollment
An introduction to philosophy from a multi-cultural perspective. Readings and discussions of writings by major philosophers including American Indians on metaphysics, epistemology, freedom and determinism, religion and social justice. The course emphasizes the general education special requirement of intensive writing/critical thinking (IW/CI).

HUM 250 The Arts and Society (3)
Prerequisite: ENG 101 or concurrent enrollment.
A comparative study of humanity’s need for art and the attempts to create through the visual arts, literature, philosophy, music, and history. Designed to develop an appreciation for and understanding of European and modern American culture as artistic and creative expression. The student gains insight into the process of creating and understanding meaning through symbols or art.

MANAGEMENT (MGT)

MGT 140 Human Relations (3)
This course is an examination and application of basic interpersonal communication skills. Students will investigate and examine attitudes, behavior, and cultural influences that affect job and school performance. It offers structured situations in which interpersonal relationships and communication skills are explored. The course is open to students in education, the health fields, and all others who wish to explore the dynamics of getting along with people.

MGT 150 Small Business Management (3)
Prerequisite: ACC 100
This course presents an overview of the basic management principles, financing, accounting, and legal requirements encountered by modern small businesses. It stresses characteristics of successful business operations and incorporates the uniqueness of business enterprises on the Navajo Nation. Students will create a business plan.

MGT 320 Tribal Governments and Management (3)
Prerequisite: Acceptance into the BA Business Administration program
This course traces the history of tribal self-government, constitution, and the institutions in the students’ respective tribes and management issues faced in tribal government. The focus will be on the effectiveness, participation and issues faced by Tribal governments in achieving Tribal objectives.

MGT 330 Tourism and Hospitality Management (3)
Prerequisite: Acceptance into the BA Business Administration program
In this entryway course, students will be introduced to the major concepts, issues, and theories of tourism and hospitality as an economic sector and topic of academic study. The course will cover a broad range of topics related to the travel experience, from business development to the linkages between tourism as an industry and the impacts it has on communities and places. Students will also be introduced to key elements of the hospitality service industry and opportunities for employment within this industry.

MGT 340 Organizational Behavior (3)
Prerequisite: Acceptance into the BA Business Administration program
Provides an overview of topics and concepts in the field of Organizational Behavior. Emphasis is on developing a theoretical grasp of issues and problems and an understanding of practical implications of various theories of human behavior at work. Specific topics include leadership, motivation, teamwork, career issues, work roles, job enrichment, employee participation, and work and non-work integration.
Course Descriptions

MGT 350 Human Resources Management (3)  
Prerequisite: Acceptance into the BA Business Administration program  
This course examines the role of the human resource professional as a strategic partner in managing today’s organizations. Key functions such as recruitment, selection, development, appraisal, retention, compensation, and labor relations are examined. Implications of legal and global environments are appraised and current issues such as diversity training, sexual harassment policies, and rising benefit costs are analyzed. Best practices of employers if choice are considered.

MGT 360 Principles of Management (3)  
Prerequisite: Acceptance into the BA Business Administration program  
This course will cover important concepts on the knowledge needed to successfully manage an organization. The course will especially be useful for those newly promoted to supervisory and managerial positions within the private, public, or federal sector.

MGT 420 Tribal Enterprises and Entrepreneurship (3)  
Prerequisite: Acceptance into the BA Business Administration program  
This course will examine different types of business enterprises existing in various tribes as the tools for economic development, including Chapter 17 Federal Corporation charter. Students will examine large scale, medium, small and micro business enterprises, tribal and private, operating within the tribal economy. Students will explore strategies to best utilize efficient combination of private and tribal enterprises to promote economic development.

MGT 440 Project Management (3)  
Prerequisite: Acceptance into the BA Business Administration program  
This course develops a foundation of concepts and solutions that supports the planning, scheduling, controlling, resource allocation, and performance measurement activities required for successful completion of a project.

MGT 450 Strategic Management (3)  
Prerequisite: Acceptance into the BA Business Administration program  
This course deals with the development and implementation of organization strategy. It focuses on the perspectives, analytical techniques, and capabilities utilized by managers to improve an organization's probability of attaining sustainable competitive advantage and success in the long term.

MGT 460 Tribal Leadership Challenges (3)  
Prerequisite: Acceptance into the BA Business Administration program  
This course will expose students to the traditional tribal leadership practices. Students will also study the current leadership theories and practices. The emphasis will be to help students develop their own leadership styles, philosophies and skills to be the future leaders in their respective communities.

MARKETING (MKT)

MKT 140 Customer Relations and Service (3)  
Students will learn the techniques and guidelines for making customer service a priority. This course introduces students to the customer service environment, essential personal skills, and communication skills and challenges in the world of business.

MKT 240 Marketing (3)  
Prerequisite: FST 131; ENG 101; BUS 152; and either ECO 200 or ECO 201.  
This course introduces students to basic marketing concepts and practices. Topics include the impact of external forces on marketing decisions, especially marketing on the Internet; marketing strategies; marketing aspects of business ethics and social responsibilities; and global marketing.

MKT 420 Public Relations (3)  
Prerequisite: Acceptance into the BA Business Administration program  
This course covers strategic issues and effective practices of communication between organizations and their constituencies. The coursework includes the study of public opinion research, media relations, public communication campaigns, consumer identity, and representational ethics. Students gain practical experience in writing news releases, conducting surveys, and designing integrated campaigns.

MKT 430 TQM and Customer Service (3)  
Prerequisite: Acceptance into the BA Business Administration program  
This course will present the various Total Quality Management (TQM) frameworks, concepts, and quality improvement tools necessary for implementing the quality culture that characterizes world-class organizations of the 21st century. TQM is aimed at continually improving performance over the long term by focusing on customers while addressing the needs of all stakeholders. Key actions necessary for transforming business and not-for-profit organizations into world-class organizations that deliver ever-improving value to their customers, clients and constituents will be explored.
MATH 111 College Trigonometry (3)
Prerequisite: Minimum Grade of “C” in MTH 110 or instructor’s permission.
Trigonometric functions, graphs, identities, inverse trigonometric functions, equations, applications, law of sines, and cosines. Two lecture hours and two workshop hours required per week.

MTH 114 College Mathematics/Quantitative Reasoning (4)
Prerequisite: Placement test or minimum grade of “C” in MTH 100 or instructor’s permission.
Contemporary quantitative methods, especially descriptive statistics, elementary probability, statistical inference, linear and exponential models of growth and decay, and discrete models. Four lecture hours per week.

MTH 118 Finite Mathematics (3)
Prerequisite: Minimum grade of “C” in MTH 110 or instructor’s permission.
Matrices and the solution of linear systems, inequalities, linear programming, permutations and combinations, discrete probability, and a brief introduction to descriptive statistics.

MTH 190 Pre-Calculus (4)
Prerequisite: Minimum of grade of “C” in MTH 110 or instructor’s permission.
Offers in-depth preparation for students in science, math, and engineering. Serves as a prerequisite for calculus. Covers algebraic and geometric properties of functions (polynomial, rational, exponential, logarithmic, and trigonometric); sequences and series; methods of proof; the binomial theorem; topics in analytic geometry; matrices; polar coordinates; complex numbers; vectors; and an introduction to limits. Four lecture hours per week.

MTH 191 Calculus I (4)
Prerequisite: Minimum grade of “C” in MTH 190 or instructor’s permission.
Introduction to calculus with an emphasis on problem-solving. Limits and continuity, differential and integral calculus of one variable, the fundamental theorem of calculus, with applications in business, social and behavioral sciences, and the natural sciences. Four hours lecture per week.

MTH 192 Calculus II (4)
Prerequisite: Minimum grade of “C” in MTH 191 or instructor’s permission.
Techniques of integration, applications of integration, parametric equations, polar coordinates, sequences, and series. Four lecture hours per week.
MTH 210 Discrete Math (3)
Prerequisite: MTH 110 or instructor’s permission.
Set theory, combinatorics, probability, graphs theory, and finite geometry. Topics relevant to Computer Science majors.

MTH 213 Statistics (4)
Prerequisite: Minimum grade of “C” in MTH 110 or MTH 114 or instructor’s permission. Cross listed with PSY 213.
Representation of data, measures of central tendency; standard deviation; sampling; normal, chi-square, student’s t, and F distributions; and regression and correlation. Basic concepts of experimental design and statistical analysis involved in quantitative research.

MTH 220 Calculus III (4)
Prerequisite: Minimum grade of “C” in MTH 192 or instructor’s permission.
Vector analysis, differentiation and integral calculus of several variables with applications. Four hours lecture per week.

MTH 221 Ordinary Differential Equations (3)
Prerequisite: Minimum grade of “C” in MTH 192 or instructor’s permission.
First-order differential equations, applications, higher-order differential equations, numerical methods, with applications in physical, biological, and social and behavioral science.

MTH 225 Elementary Linear Algebra (3)
Prerequisite: MTH 110 or instructor’s permission.
An introductory course for all science, engineering, and mathematics education majors. Topics include matrices, system of linear equations, determinants, vector spaces, linear transformations, and eigenvalues.

NAVAJO LANGUAGE (NAV)

NAV 101 Navajo as a Second Language I (4)
First semester course. Aimed at mastery of pronunciation, identification of sounds, thought patterns, and vocabulary. Students learn simple Navajo conversation. An individual, one-hour conversational practice workshop is mandatory for each class session. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

NAV 102 Navajo as a Second Language II (4)
Prerequisite: NAV 101 or Placement by Exam.
Second semester course. Mastery of simple sentences. Combination of simple sentences with more complex sentences. Enlarging of vocabulary through oral exercises. An individual, one-hour conversational practice workshop is mandatory for each class session. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

NAV 120 Introduction to Navajo Leadership and Communication (3)
A study of techniques styles, genres of Navajo Leadership and Communication. Students will plan and practice by making people feel safe to speak up. Develop effective listening skills, and challenge people to think and lead by example.

NAV 140 Introduction to Navajo Public Speaking (3)
A study of techniques, styles, genres of Navajo public speaking. Students will make plan, practice self-control, and know their audience.

NAV 201 Intermediate Navajo as a Second Language III (4)
Prerequisite: NAV 102 or Placement by Exam.
Third-semester course. Students review the material taught in NAV 101 and NAV 102 and proceed to more advanced structures, situations, vocabulary, and functions. An individual, one-hour conversational practice workshop is mandatory for each class session.

NAV 202 Advanced Intermediate Navajo as a Second Language IV (4)
Prerequisite: NAV 201 or Placement by Exam.
Fourth-semester course. Students review material from NAV 101, 102, and 201 and then proceed to more advanced structures, situations, functions and grammar. An individual, one-hour conversational practice workshop is mandatory for each class session.

NAV 211 Navajo Literacy I (3)
Designed to develop skills in reading and writing Navajo, as well as an understanding of the language and its sounds and structure. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

NAV 212 Navajo Literacy and Grammar II (3)
Prerequisite: NAV 211.
For Navajo speakers. Develops additional skills in reading and writing Navajo. Emphasis on grammatical structure. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

NAV 231 Medical Terminology of the Navajo (3)
Prerequisite: NAV 101 or NAV 211.
Translation and use of medical terminology from English to Navajo and Navajo to English.
### Course Descriptions

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Prerequisites</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>NAV 289</td>
<td>Navajo Linguistics (3)</td>
<td>Prerequisite: NAV 212</td>
<td>Introductory linguistics course covering basic concepts in sociolinguistics, psycholinguistics, syntax, phonology, and morphology. Navajo is used for concrete exemplification.</td>
</tr>
<tr>
<td>NAV 240</td>
<td>Navajo Public Speaking (3)</td>
<td>Prerequisite: NAV 212</td>
<td>Students study videotaped presentations of twelve articulate Navajo speakers in genres of major oral performance. The presentations are analyzed in terms of style, theme, topic, structure, and effectiveness. Students are required to give oral presentations of various types, culminating in a 20-minute public speech. Students must work from extensive notes in Navajo.</td>
</tr>
<tr>
<td>NAV 301</td>
<td>Navajo Descriptive and Narrative Writing (3)</td>
<td>Prerequisite: NAV 212</td>
<td>Students read and write descriptive and narrative texts in Navajo, complete weekly papers, and use word-processors to produce high-quality written products. One such text must be read over the radio.</td>
</tr>
<tr>
<td>NAV 350</td>
<td>Teaching Navajo to the Native Speaker (4)</td>
<td>Prerequisite: NAV 301</td>
<td>Addresses major issues in teaching Navajo literacy and Navajo language arts to native speakers of Navajo.</td>
</tr>
<tr>
<td>NAV 351</td>
<td>Teaching Navajo as a Second Language (4)</td>
<td>Prerequisite: NAV 301</td>
<td>Addresses major issues in the teaching/learning of second languages with specific emphasis on Navajo language as taught in the public schools.</td>
</tr>
<tr>
<td>NAV 401</td>
<td>Navajo Grammar and Applied Linguistics (3)</td>
<td>Prerequisites: NAV 289 and NAV 301</td>
<td>Analysis of the Navajo language using the descriptive terminology of Young and Morgan (1987).</td>
</tr>
<tr>
<td>NIS 101</td>
<td>Navajo Pottery (3)</td>
<td></td>
<td>Introduction to Navajo pottery ware, development and techniques based on Navajo traditional values. Includes projects in making different traditional pottery ware.</td>
</tr>
<tr>
<td>NIS 103</td>
<td>Navajo Basketry (3)</td>
<td></td>
<td>The origin, purposes, philosophy, and functions of Navajo baskets. Projects include making traditional designs, baskets, and water jugs.</td>
</tr>
<tr>
<td>NIS 105</td>
<td>Navajo Rug Weaving I (3)</td>
<td></td>
<td>The origin, purposes, philosophy, and historical development of weaving from the Diné perspective. Rug weaving projects include traditional upright-loom weaving techniques and design.</td>
</tr>
<tr>
<td>NIS 107</td>
<td>Moccasin Making (3)</td>
<td></td>
<td>Series of lectures on the origin, purposes, philosophy and historical development of moccasins. Includes projects in making ankle length moccasins.</td>
</tr>
<tr>
<td>NIS 108</td>
<td>Navajo Silversmith I (3)</td>
<td></td>
<td>The origin and cultural development of silver jewelry. Basic skills in making tools, designing, forming, cutting, piercing, and soldering.</td>
</tr>
<tr>
<td>NIS 111</td>

NIS 123 Navajo Supervising and Management (3)
This course is a study of the role of a supervisor and managerial functions; leadership, communication, ethical reasoning and human relations skills.

NIS 124 Navajo Governance (3)
The course will provide an overview of Navajo Nation government in the United States. The course will also examine the relationship with the national government and the rise of the collective national Navajo identity.

NIS 127 Navajo Current Issues and Affair (3)
The course will examine current issues in the Navajo Nation pertaining to Education, Economics, Environment, Health, Politics, and Inter-governmental relations.

NIS 128 Navajo Basic Buckskin/Leather Braiding (3)
This course explores the origin and cultural development of buckskin and leather braiding in Navajo culture. The course includes basic skills in cutting, designing, forming and techniques of buckskin.

NIS 129 Navajo Cultural Arts Selling Practice (3)
The focus of this course is selling authentic Navajo arts and crafts. Find the best venue to sell products: art shows, galleries, Native events, even retail stores/flea-markets. Learn how to approach a gallery, how to create a portfolio, design an effective logo, signature trade stamp and company name. (Navajo Cultural Arts certificate requirement).

NIS 130 Federal, State, County, and Municipal Government (3)
This course examines the principles, procedures, politics, issues, funding and the inter-working of Federal, State, County, and Municipal Government and how it affects the Navajo Nation. The student will analyze political philosophy in diverse context and how it impacts Navajo Nation.

NIS 132 Navajo Arts Material and Resources (3)
Introduction to appropriate ways to collect, prepare raw material for Navajo traditional arts. Includes field trips to collect raw materials. Series of lectures includes cultural sensitivity and protocol. (Navajo Cultural Arts certificate requirement).

NIS 133 Toast Mastering and Parliamentary Procedures (3)
This is an introductory course in parliamentary procedure designed to assist leaders to guide meetings, role and responsibilities of the parliamentarian.

NIS 135 Navajo Fundamental Law II (3)
The course is an intermediate level of the basic values; which includes Navajo traditional law, customary law, natural law, and common law. This course is taught in Navajo and English.

NIS 134 Navajo Arts and Philosophy (3)
Introduces Navajo culture sensitivity and symbolic significance. Includes Navajo Philosophy on artwork in cultural history, discovering and exploring meaning, and looking at different styles of artwork. (Navajo Cultural Arts certificate requirement).

NIS 140 Introduction to Navajo Public Speaking (3)
A study of techniques, styles, genres of Navajo public speaking. Students will make plan, practice self-control, and know their audience. (Navajo Nation Leadership Certificate requirement and pre-selected for cohort) and (this course will not satisfy Navajo Language requirement).

NIS 150 Introduction to Navajo Herbology (3)
Examines concepts fundamental to the Navajo use of herbs in environmental and ceremonial contexts. Instruction in Navajo and English. This course is offered only in the Summer or Fall semester.

NIS 160 Navajo Agricultural History to Present (3)
The Navajo Agricultural History Course will provide student knowledge of historical events that have shaped Navajo agricultural laws, codes and mandates. Student will learn about how agricultural history shaped current policies and laws through a historical timeline from the 16th century (1500-present). The class will integrate both Navajo Nation and United States Agricultural history.

NIS 185 Navajo Cultural Business System (3)
This course explores the origin, philosophy and values of business in the Navajo economic system. An overview of historical Navajo business practice and contemporary development. (Navajo Cultural Arts certificate requirement).

NIS 197 Navajo Cultural Arts Practicum (1-3)
This course provides practical (hands-on) and learning for the certificate in Navajo Cultural Arts. Includes history and philosophical applications of Navajo Cultural Arts. (Navajo Cultural Arts certificate requirement).

NIS 201 Navajo Pottery/Ceremonial Pipes (3)
An advanced course in making pottery and ceremonial pipes according to the Navajo way of life. It includes history and usage and symbolic interpretation of ceremonial pottery.
Course Descriptions

NIS 205 Navajo Rug Weaving II (3)
Prerequisite: NIS 105.
Development of design, skills, and creativity in weaving geometrical, pictorial, and double-woven rugs, including the comparative study of ancient and contemporary weaving.

NIS 206 Navajo Sash Belt/Ceremonial Stocking (3)
Advanced course in making Navajo sash belt and ceremonial stocking. Includes philosophy, historical development, pattern, spinning and weaving skills.

NIS 207 Advanced Moccasin Making (3)
An advanced course to design and techniques in Ké Nitsaai and Naat’á Ké/Na’abaah Ké. Includes the philosophy and history of Ké Nitsaai and Naat’á Ké/Na’abaah Ké.

NIS 208 Navajo Silversmith II (3)
Prerequisite: NIS 108.
Creative design, intermediate skills, and lapidary techniques in silversmithing, including the comparative study of Navajo and American Indian jewelry craftsmanship.

NIS 209 Navajo Horse Hair Braiding (3)
This class prepares students in horsehair braiding. Students get hands-on practical experience working with a wide variety of horsehair braiding. Includes the philosophy and history of horsehair braiding.

NIS 220 Navajo Oral History (3)
Prerequisite: ENG 101 and NIS 111.
Examines Diné oral history and cosmology with an emphasis on ceremonial practices and world creation narratives. May include a field trip to Dinétah or other historical sites. This course is offered only in the Fall semester.

NIS 221 Navajo History to Present (3)
Prerequisite: ENG 101.
Examines Diné history beginning with anthropological theories about prehistoric migrations to and acculturation in the Southwest followed by the European contact period and ending with current events. Includes an overview of key aboriginal land settlements, federal Indian laws, court decisions, and other Indian policies within the context of Diné tribal, inter-tribal, city, county, state, and federal government relations. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI/ERG, and HA).

NIS 222 Contemporary Indian Affairs and Tribal Government (3)
Prerequisite: ENG 101, and NIS 221.
An overview of federal policies and programs since 1776 that have dealt with U.S. Indian Nations. Examines relationships between tribes and national, regional, and local governments, as well as the rise of a new, collective, national, and political Native American identity.

NIS 225 Indians of the United States and North America (3)
Prerequisite: ENG 101 or concurrent enrollment. Cross-listed with ANT 225.
A survey of indigenous groups of the U.S. and Canada, with an emphasis on changing economic and political forces that influence various tribal groups. Discussion of origins, customs, language, arts, and habitats.

NIS 226 Navajo Nation Government (3)
Prerequisite: ENG 101 and NIS 221. Cross-listed with POS 226.
The development of Navajo Nation government, concentrating on its evolution since the 1920s. Examines the legal and political basis of Navajo Nation government, its structure and functions as well as powers and services, fiscal changes, and administrative growth. Includes political relations, developments, and transitions related to state and federal governments. Highlights major contributions of Navajo Nation chairmen and presidents.

NIS 261 Navajo Oral Tradition and Styles (3)
Prerequisite: ENG 101 and NIS 111.
Examines the philosophy and thinking of traditional elders in Navajo society by listening to and analyzing oral styles, including storytelling, oratory, prayers, and lectures. Instruction is in English and Navajo.
NIS 292 Native American Holistic Expression (3)
Examines the basic principles of Native American spiritual life, common philosophies and values, cycles of life, and contemporary ritual practices throughout North America.

NIS 294 Diné Educational Philosophy I (3)
Prerequisite: NIS 111.
Introduces teachings of the Diné knowledge and living systems. Relates them to curricula, pedagogy, and academic life in higher education. Advances learning of the basic Diné educational philosophy in both traditional and Western curricula.

NIS 295 Diné Educational Philosophy II (3)
Prerequisite: NIS 294.
This course is designed to develop intermediate-level knowledge in using SNBH components to advance student learning.

NIS 311 Introduction to Navajo Holistic Healing (3)
Prerequisite: ENG 101 and NIS 111.
A general discussion of major Navajo ceremonies of the summer and winter seasons according to Navajo teachings. Examines the development and organization of ceremonies with emphasis on their purpose, significance, and procedures. Includes study of ceremonies from the Hózhóóji (Blessing Ways) and Naayéé jí (Protection Ways). May include field experiences to local traditional healing ceremonies.

NIS 371 Navajo Philosophy (3)
Prerequisite: ENG 101 and NIS 111.
An advanced analysis of the inter-relationship of male and female principles and the manifestation of dual forces. The course looks at Diné philosophical thought, including metaphysics, epistemology, aesthetics, ethics, religion, and traditional social structure.

PHYSICAL EDUCATION AND HEALTH (PEH)

PEH 113, 114, 119 Team Sports (1)
Restricted enrollment to student athletes.
Members of all athletic teams may enroll in the courses with coach/faculty’s permission. Students sign a course contract and are responsible for knowing the rules and regulations of their sport. Students who quit or are dropped from the team are dropped from this course unless other arrangements are made.

PEH 120 Strength Training (1)
Introductory activities in strength training with individualized programs and a focus on safety, fitness, benefits, and exercise selection. One hour lab required.

PEH 121 Advanced Strength Training (1)
Prerequisite: PER 120 or instructor’s permission.
Advanced activities in advanced strength training, individualized programs, and exercise selection. One hour lab required.

PEH 122 Fitness for Life (2)
An individualized approach to physical fitness, designing personal fitness programs for cardiovascular development strength, flexibility, weight control, and nutrition. Fitness testing administered at the beginning and end of class.

PEH 123 Archery (1)
Introductory activities in archery techniques. Includes the history of archery, equipment, safety, and individualized practice. One hour lab required.

PEH 125 Basketball (1)
Introductory activities in basketball skills, rules, and offensive and defensive strategies. Includes demonstrations, drills, and scrimmages. One hour lab required.

PEH 130 Physical Education Activity (1)
Introductory activity class that overviews a variety of physical activities and sports. One hour lab required.

PEH 132 Jogging (1)
Introductory activities in running techniques, program design, pacing, form, interval training, and distance running. One hour lab required.

PEH 135 Recreational Games (1)
Introductory activities in a variety of games, sports, and leisure activities. Activities include archery, bowling, basketball, badminton, billiards, jogging, softball, tennis, volleyball, strength training, table tennis, traditional Navajo games, and Zumba. One hour lab required.

PEH 138 Volleyball (1)
Introductory activities in basic skills, rules, and offensive and defensive strategies in volleyball.

PEH 141 Aerobics (1)
Introductory activities in low- and high-impact exercises, training zones, body image, and exercise selection. One hour lab required.

PEH 143 Country and Western Dancing (1)
Introductory activities in Country and Western dancing, proper body movement, posture, rhythm and beats, and music selection. One hour lab required.
Course Descriptions

PEH 148 Outdoor Recreation (1)
Introductory activities, knowledge, and skills in hiking, camping, backpacking, mountaineering, canoeing, fishing, cross-country skiing, and traditional Navajo outdoor activities. One hour lab required.

PHYSICAL SCIENCE (PHS)

PHS 110 Principles of Physical Science (4)
Prerequisite: MTH 096 and ENG 100B.
PHY 110 is a conceptual physical science course emphasizing the relationship between physics and chemistry. Students will study the relationship between the Laws of Motion and chemical reactions, as well as topics related to nuclear, thermal and electrical energy.

PHYSICS (PHY)

PHY 101 Survey of Physics (4)
Prerequisite: ENG 100B, FST 131, or instructor’s permission.
A conceptual introduction to physics utilizing minimal mathematics. Designed for non-science majors and students with no prior physics background. Three hours lecture and three hours lab per week. Fulfills the general education requirement for a laboratory science course.

PHY 110 Algebra-based Physics I (4)
Prerequisite: MTH 110 or concurrent enrollment or instructor’s permission.
An algebra-based introduction to physics sequence designed for science majors who do not require calculus-based physics. Also suitable for liberal arts majors and general education students with no prior physics background; covers classical mechanics. Trigonometric requirement will be taught in the class. Three hours lecture and three hours lab per week.

PHY 111 Algebra-based Physics II (4)
Prerequisite: PHY 110 or equivalent course.
Second course in the algebra-based introduction to physics sequence designed for science majors who do not require calculus-based physics. Also suitable for liberal arts majors and general education students with no prior physics background; covers optics, electricity, and magnetism. Three hours lecture and three hours lab per week.

PHY 121 Calculus-based Physics I (4)
Prerequisite: MTH 191 or instructor’s permission.
First of three calculus-based courses designed for the science and engineering major with no prior physics background; covers classical mechanics. Three hours lecture and three hours lab per week.

PHY 131 Calculus-based Physics II (4)
Prerequisite: PHY 121 and MTH 192 or concurrent enrollment or equivalent courses.
Second of three calculus-based courses designed for the science and engineering major; covers electricity, magnetism, and optics. Three hours lecture and three hours lab per week.

POLITICAL SCIENCE (POS)

POS 111 Introduction to Political Science (3)
Prerequisite: ENG 101.
This course examines the principles, methods, topics, and concepts of political science in light of contemporary political events. Students will analyze power, authority, and political philosophy in diverse contexts, including tribal politics. This course meets teacher certification requirements and emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and global awareness (IW/CI, ERG, and GA).

POS 170 American Government and Politics (3)
Prerequisite: ENG 101 or concurrent enrollment.
American Government and Politics examines the origin of the U.S. Constitution as well as governmental structures, procedures, and politics at the federal, state, local, and tribal levels.

POS 181 Arizona Constitution and Government (1)
Prerequisite: ENG 101 or concurrent enrollment.
This course examines the Arizona Constitution in terms of its historical roots, content, modifications, and interpretations. It also examines Arizona’s governmental structures, procedures, and politics at all levels, including the Navajo tribal level. POS 181 meets Arizona teacher certification requirements.

POS 226 Navajo Nation Government (3)
Prerequisite: ENG 101 and NIS 221. Cross-listed with NIS 226.
The development of Navajo Nation government, concentrating on its evolution since the 1920s. Examines the legal and political basis of Navajo Nation government, its structure and functions as well as powers and services, fiscal changes, and administrative growth. Includes political relations, developments, and transitions related to state and federal governments. Highlights major contributions of Navajo Nation chairmen and presidents. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).
POS 230 Introduction to Policy Research Methods (3)
Prerequisite: ENG 101 and either NIS 226 or NIS 221. Cross-listed with NIS 230.
This course provides students with an introduction to Diné Policy Institute’s unique approach to research. Students will learn the foundations of mainstream academic and traditional Diné research methods, gain an understanding of how to utilize both approaches, and apply these skills to existing Diné Policy Institute research. (See NIS/POS 230).

POS 271 U.S. Constitution and Politics (2)
Prerequisite: ENG 101 or concurrent enrollment or instructor’s permission.
This course examines the philosophical antecedents, historical development, and interpretations of the U.S. Constitution. It also examines federal governmental structures, procedures, and politics. POS 271 meets Arizona teacher certification requirements.

PSYCHOLOGY (PSY)

PSY 111 Introduction to Psychology (3)
Prerequisite: ENG 101.
This course is an introduction to the scientific study of individual behavior. It provides a broad overview of major approaches, concepts, methods, findings, contributors, and applications of psychological knowledge to everyday life. It covers biological influences on behavior, sensation, perception, learning, cognition, motivation, emotion, personality, human development, psychopathology, and psychotherapy. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI).

PSY 213 Statistics (4)
Prerequisite: Minimum grade of “C” in MTH 110 or MTH 114 or instructor’s permission. Cross-listed with MTH 213.
Representation of data, measures of central tendency; standard deviation; sampling; normal, chi-square, student’s t, and F distributions; and regression and correlation. Basic concepts of experimental design and statistical analysis involved in quantitative research.

PSY 215 Personal and Social Adjustment (3)
Prerequisite: ENG 101 or concurrent enrollment
An overview of basic psychological principles as they apply to coping with stress, interpersonal relationships, marriage, parenting, and working. Emphasis on learning to become a more competent and effective person. Course may carry one, two, or three credits.

PSY 220 Expressive Arts Therapy (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course provides an overview of experiential styles for individuals in the counseling and behavioral health fields. Visual arts, music/sound, dance/movement, play therapy, psychodrama, and bioenergetics are examined as tools of therapy.

PSY 221 Cinema Therapy (3)
Prerequisite: ENG 101 or concurrent enrollment and at least one Psychology course.
Movies affect us because of their synergistic impact. This course will show the student and future counselor how film may help build a bridge between their client’s “reel” life and their experiences in real life.

PSY 240 Human Growth and Development (3)
Prerequisite: ENG 101.
This course provides an overview of the field of human growth and development from prenatal development and birth through adulthood and aging. Topics include physiology, perception, language, cognition, personality, social and moral development, family, and cultural and social influences on development. This course emphasizes the general education special requirements of intensive writing/critical thinking (IW/CI).

PSY 241 Abnormal Psychology (3)
Prerequisite: ENG 101.
This course will examine etiology, symptomatology, and classification of organic and functional behavior disorder, mental deficiencies, and other deviations. Treatment modalities overview will be examined.

PSY 250 Social Psychology (3)
Prerequisite: ENG 101.
This course is an overview of science-oriented approaches to the study of the impact of environment, particularly the social environment, on individual behavior and considers individual behavior but emphasizes the relationship between individual and group behavior. The course emphasizes the general education special requirements of intensive writing/critical thinking (IW/CI).

PSY 260 Drug Use and Abuse (3)
Prerequisite: ENG 101. Cross-listed with SOC 260.
This course examines current and historical patterns of alcohol and drug use, abuse, and control, including pharmacology and physiology of drugs. The use of PDR and DSM IV is presented with an emphasis on patterns of substance usage and programs for rehabilitation.
PSY 290 Methods of Research (4)
Prerequisite: ENG 101 and 3 credits of PSY, SOC, ANT or SWO.

An introduction to qualitative and quantitative research methods used in Psychology and the Social Sciences. This course emphasizes the process of conducting psychological research, including the development of testable hypotheses, measurement, design, data collection, analysis, and the writing and presentation of a research paper. Students will gain experience through projects in conducting research.

PSY 291 Introduction to Counseling (3)
Prerequisite: PSY 111 and ENG 101 or concurrent enrollment.
This course is an overview of various approaches to the techniques used in counseling. Mock counseling sessions and hands-on exercises are employed to demonstrate various counseling tools and styles.

PSY 292 Human Sexuality (3)
Prerequisite: ENG 101 or concurrent enrollment.
This survey course of the psychological aspects of human sexual behavior emphasizes cognitive, emotional, behavioral, and cultural factors that shape sexuality.

PUBLIC HEALTH (PUH)

PUH 111 Introduction to Public Health (3)
This course introduces students to all aspects of the field of public health, focusing on health promotion and disease prevention goals designed to establish and maintain healthy communities. The 3 core functions and 10 essential services of public health, as well as reading and lecture materials are organized and presented within the contexts of the Diné educational philosophy. This course is intended to help students become both knowledgeable and culturally competent public health professionals in the Navajo Nation.

PUH 141 Nutrition for Health (3)
Prerequisite: MTH 096 and concurrent ENG 100B.
General concepts of nutrition applied to food choices that support health, cultural, psychological, and economic implications of food choices. Current concepts and controversies in human nutrition. Carbohydrate, protein, lipids, vitamins, and minerals in nutrition, and the relation of nutrition to health throughout the life cycle.

PUH 191 Seminar in Public Health (3)
In this seminar, students are introduced to community health issues (especially in the Navajo Nation) and to problems faced in health care systems and health care delivery. Topics covered may include emergency services, the delivery and referral systems (both tribal and federal), and challenges, including alcohol use and abuse, illicit drug use, and mental health.

PUH 200 Principles of Health Education (3)
Prerequisite: Completion of FST 131 or reading proficiency requirement; PUH 111 and HEE 110 or concurrent enrollment.
This course introduces students to the field of health education. It explores social and behavioral theories, and determinants of health behavior of individuals and groups. In their final project students must apply course concepts to design a prospective health education intervention. Course emphases are on health education methods and issues relevant to the Navajo Nation. Guest speakers involved in health education on the Navajo Nation may provide presentations. Content of the course will facilitate application of the principles of SNBH.

PUH 201 Principles of Environmental Public Health (3)
Prerequisite: Completion of FST 131, PUH 111 or ENV 101 or another science class.
This course explores environmental health professionals’ roles in ensuring safe and healthy environments, including sanitation, food safety, and occupational safety, and air and water quality. Policies and activities of federal, state, local, and tribal entities are examined, with a focus on Navajo examples. Navajo cultural beliefs related to nature and the environment provide the foundation on which the course is structured.

PUH 202 Uranium and Environmental Health (3)
Prerequisite: Completion of FST 131 or reading proficiency requirement.
This course examines the impacts of uranium and the uranium mining industry on the people and land of the Navajo Nation. The primary emphasis is on environmental public health effects and efforts to remediate them. The course covers comprehensive information on all aspects of uranium, the uranium industry, and the health effects of exposure to uranium.

PUH 241 Human Nutrition (3)
Prerequisite: CHM 130 or higher required
The principle of human nutrition as it relates to health issues is the primary focus of this course. Emphasis is placed on nutrients and how they affect the human body. The structure and function, digestion and absorption, and metabolism of carbohydrates, lipids, proteins, minerals, and vitamins are discussed. This course also examines energy, weight-management, nutritional requirements of different age groups, U.S. dietary trends, and guidelines for good nutrition and health.

PUH 270 Community Health Assessment and Planning (3)
Prerequisite: Completion of ENG 100B and PUH 111.
This is the first of two courses in which students examine assessment, planning, implementation, and evaluation in public
PuH 275 Health Services and Policy (3)
Prerequisite: Completion of PuH 111, Eng 101 or concurrent enrollment.
In this course, students are introduced to health services administration and the role of policy development in public health. The course covers national, state, local, and Navajo Nation health services, focusing on how they are organized and administered. U.S. public health services are compared with those on the Navajo Nation and other tribal communities. The course is taught in accordance with the Diné educational philosophy (primarily in the realm of líná).

PuH 280 Implementation and Evaluation of Public Health Interventions (3)
Prerequisite: Completion of PuH 111 and PuH 270. Completion or concurrent enrollment in Eng 101.
This is the second of two courses in which students examine assessment, planning, implementation, and evaluation in public health. The course focuses on implementation and evaluation as carried out in epidemiology, environmental health, health education and promotion, and health services administration. It is taught in accordance with the Diné educational philosophy (primarily in the realm of líná and Siihasin).

PuH 289 Public Health Emergency Preparedness (4)
This focused course covers practical knowledge, steps, and considerations relating to preparation for any potential public health emergency in the Navajo Nation. The course is based on online materials originally developed by the Arizona Center for Public Health Preparedness at the University of Arizona, adapted by Diné College to the Navajo Nation environment. There are no prerequisites, but prior completion of PuH 111 is recommended.

PuH 290 Public Health Research Methods (4)
Prerequisites: Knowledge of basic mathematical concepts (MTH 100), Biology (BIO 100 or above), and some computer literacy skills. Eng 101 and a Social and Behavioral Sciences course are recommended.
This research methods course covers basic concepts in public health, health promotion, and disease prevention, including its cultural aspects. The design and implementation of qualitative and quantitative research are covered, including hypothesis development, research design, development of research protocols, data analysis using computer software packages, and presentation of results.

PuH 295 Public Health Sciences (3)
Prerequisite: MTH 110 or MTH 118 and PuH 111
A basic introduction to epidemiology and biostatistics is provided in this mathematics-based course. Students are guided in identifying relevant and appropriate public health data and information sources. A special focus is on relationships of risk factors and disease outcomes, with attention to the health priorities of the Navajo Nation. The course also introduces students to epidemiological research designs and statistics, and ways in which they influence public health decision-making.

PuH 297, Public Health Research Methods Practicum (3)
Students will apply their knowledge of experimental design, data collection and data analysis methods and techniques within the context of public health, health promotion and disease prevention programs or research settings, incorporating cultural aspects of disease prevention where appropriate. Presentation of findings to program stakeholders is also required.

Sociology (SOC)

SOC 111 Introduction to Sociology (3)
Prerequisite: Eng 101.
SOC 111 is a general introduction to sociological perspectives. Discussions of social institutions, class, power, conflict, change, culture, and socialization are integral to the course. The course emphasizes general education special requirements in ethnic/race/gender awareness (ERG).

SOC 205 Qualitative Research Methods (3)
Prerequisite: Eng 101.
This course introduces students to methods of conducting research into human societies and provides guidance and supervision as students conduct research in local communities.

SOC 210 Deviant Behavior (3)
Prerequisite: Eng 101.
This course examines behavior not accepted or approved by the society in which it occurs. It considers methods by which deviant behavior is studied, as well as theories of deviancy offered by sociologists, anthropologists, and psychologists. The course may focus on Navajo drinking behavior in its normative and deviant forms. It emphasizes the general education special requirements of ethnic/race/gender awareness (ERG).

SOC 215 Native Americans in American Society (3)
Prerequisite: Eng 101.
This course is a general review of current living conditions, roles, statuses, and images of American Indians. Faculty and students analyze social and cultural change and conflict. It examines the growth of urban indigenous groups and their adjust-
Course Descriptions

SOCIAL SCIENCE (SSC)

SSC 110 General Social Science (3)
Prerequisite: ENG 101
This course is an introduction to the core disciplines of the social sciences: anthropology, geography, political science, economics, history, sociology and psychology. At the end of this course, students will be familiar with the questions, basic concepts, and methods of study of said disciplines. Furthermore, as an introductory class, SSC 110 also emphasizes fundamental academic and critical thinking skills. As students continue to explore the social sciences as well as the concepts and terms common to the study of human societies, students will also utilize said disciplines to further understand global and local Indigenous social realities.

SOCIAL WORK (SWO)

SWO 111 Social Work as a Vocation (1)
Prerequisite: ENG 101 or concurrent enrollment.
This course examines ego psychology as it is applied in social work.

SWO 211 Introduction to Social Work (3)
Prerequisite: ENG 101.
SWO is a continuation of SWO 111. This course offers an introduction to values, ethic, skills, and knowledge pertaining to social work. Social systems theory is emphasized.

SWO 242 Community Social Service Skills (3)
Prerequisite: ENG 101.
Examines casework, group skills, organization of communities, and family therapy. The course emphasizes case management, crisis intervention, and treatment planning, especially in substance abuse situations. Credit may be given for work in a community service setting (at the discretion of the faculty).

SWO 243 Community Social Services and Culture (3)
Prerequisite: ENG 101.
This course examines the interplay of cultural factors and social services. Pertinent anthropological and social work concepts are introduced. The course is the capstone of the professional social work track. Contemporary American Indian (and, more specifically, Navajo) social problems, such as suicide, homicide, alcoholism, and family violence, are explored. Traditional Diné philosophical tenets are applied as intervention strategies.

SWO 250 Client Processing (3)
Prerequisite: ENG 101.
This course examines the mandates, methods of operation, routines, goals, objectives, and technologies of human service organizations. Skills for direct interactions are studied.
SWO 295 Field Experience I (3)
Prerequisite: ENG 101.
Students are placed in community social service agencies for practical social work experience for a minimum of ten hours per week, offering opportunities to apply skills and to operationalize social knowledge and values in social work.

SWO 296 Field Experience II (3)
Prerequisite: ENG 101.
A continuation of SWO 295 with more advanced experiential applications.

THEATER (THR)

THR 101 Introduction to Theater (3)
A survey of theater, including basic elements and principles of production, styles, and historical perspectives of theater, dramatic literature, and criticism.

THR 102 Introduction to Acting and Storytelling (3)
The course will incorporate fundamental techniques of acting and storytelling through physical and vocal expression, improvisation, and monologue scene work, with an emphasis on characterizations and performance. A class performance of a dramatic production will be the course culmination.
Faculty

FACULTY BY ACADEMIC DIVISION

Business, Applied Science, Economics & Technology (BASET)

Charles Coffey, Faculty
M.B.A., National University, Information Systems
B.S., University of Oregon, Computer Science
A.A., Diné College, Diné Studies

Gloria Price, Faculty
M.V.E., Northern Arizona University, Vocational Education
B.S., Northern Arizona University, Vocational Education
B.A., Northern Arizona University, Business Administration

James Denny, Faculty
M.B.A. University of Guam, Business Administration
B.B.A. University of Guam, Finance and Economics

Juanita Fraley, Faculty
M.B.A., Gonzaga University, Business Administration
B.A., University of Northern Colorado, Business Teacher Education
B.S. University of Northern Colorado, Office Administration

King Mike, Faculty
M.B.A., University of Southern California, Business Administration
B.A., Fort Lewis College, Business Administration

Medhat Farooque, Faculty
M.B.A., University of Dhaka, Marketing
M.B.A., Northern Arizona University, Business Administration
M.A., University of Dhaka, Economics
B.A., University of Dhaka, Economics

Sylwia Martynowicz, Faculty
M.A., University of Economics, Cracow, Poland, Marketing and Management
B.A., College of Marketing and Entrepreneurship Chrzanow, Poland, Marketing and Management

Center for Diné Studies (CDS)

Avery Denny, Faculty
Diné Medicine Man’s Association, Inc., Hataahlii

Donald Denetdeal, Faculty
B.S., Northern Arizona University, Political Science & Administration
A.A., Eastern Arizona College, Justice Administration

Gene A. "OJ" Vecenti, Faculty
M.Ed., Northern Arizona University, Bilingual/Multicultural Education
B.A., Fort Lewis College, Student Structured
A.A., Diné College, Liberal Arts
A.A., Diné College, Navajo Language
A.A., Diné College, Diné Studies

Herbert Benally, Faculty
Ph.D., California Institute of Integral Studies, Integral Studies
M.Ed., Arizona State University, Adult Education
B.A., Arizona State University, Adult Education

Lorene B. Legah, Faculty
B.S., Northern Arizona University, Sociology

Martha Austin-Garrison, Faculty
M.Ed., Arizona State University, Curriculum & Instruction (Bilingual Education)
B.A., University of Arizona, Education

Martha Jackson, Faculty
M.A., University of Arizona, Education
B.A., University of Arizona, Education
A.A., Diné College, Navajo Language Certificate, Diné College, Bilingual Bicultural

Roger Benally, Faculty
M.Ed., Doane College, Educational Leadership
M.Ed., Doane College, Curriculum & Instruction
B.A., Prescott College, Education

Thomas Littleben Jr, Faculty
B.S., Northern Arizona University, Education
A.A., Diné College, Diné Studies
A.A., Diné College, Navajo Language

Tony Goldtooth, Faculty
B.S., University of New Mexico, Education
A.A., Diné College, Diné Studies Certificate, Diné College, Navajo Language/History/Culture

Wilson Aronilth Jr, Faculty
Honorarium Doctorate, Diné College, Diné Philosophy of Learning
Honorarium A.A.S., Diné College, Navajo Culture
