Message from the President

Yá’átééh,

Thank you for choosing Diné College in your quest to achieve your higher education goals. You will find our College is truly an institution that is steeped in history, rooted in a tradition of service and inspired by the promise of possibility. Ever since our first student who graduated in 1969—a class of one student—Diné College has paved the way to progress for our Navajo Nation and beyond as an institution that offers degree programs that nurture our creative instincts and preserve our cultural heritage.

As you explore attending Diné College, I am confident you’ll discover faculty and staff enthused about their work, proud of excellence, excited about potential. Most importantly we are dedicated to preparing students for rewarding careers.

We believe the opportunity for higher education should be available to all who seek it, and we will continue to adapt to the ever-changing landscapes that occur in higher education. Our students are provided with the academic tools, skills sets, and opportunities necessary to progress as leaders in their professions and their communities.

At Diné College we encourage active participation in an education that challenges critical thinking, provide career preparation, instill values, and inspire lifelong learning. We value each student and, as a community, we strive to maximize their potential.

It is a pleasure to be part of the Diné College community: to enjoy its quality academic, student life and other facilities, most importantly, to work closely with the remarkable faculty, staff and students, parents and alumni.

If you are new to Diné College, welcome. If you are a current student, we are obliged you are here. If you are looking for a College where you can achieve your educational dreams, you are in the right place! I am delighted to welcome you to the Diné College and I look forward to working together to bring our College and our Communities to new levels of success.

Sincerely,

Maggie George, Ph.D.
President
**College Mission**

Diné bina’nitin áyisíí ásiláago binahjí’, ólta’i na’nitin náasjí’ yee ináahvitooldó! áligii yéego bidziilgo ádilníil, ako Diné nílnígí t’áá also yá’át’éehgo bee bił naaız’ áqą dooleel nídzín. Rooted in Diné language and culture, our mission is to advance quality post-secondary student learning and development to ensure the well-being of the Diné People.

**College Vision**

Nichí’ólta’gi, Diné Bihidziilgo Ólta’gi na’nitin al’áqá ádaat’éii ólta’i bee nanítinozitís doó t’áá ha’át’ii shįį’ee biłká áná’álwó’i’. Díí binahjí’ Diné bi’ólta’gi óhoo’aah ts’ílá bohó néédziiání bił haž’į ilį̲ dooleel. Our vision is to improve continuously our programs and services to make Diné College the exemplary higher education institution for the Diné People.

**College Principles**

Nichína’ nitín, Są’ah Naaghái Bik’ehzhoón bil hadéí’eego, dóó índa Diné yee íiná il’il’íii át’éego nahásdzáán bika’á’gi díó yádííhil biyaaggi bohó néédziiání át’éego yee hiná. Díí binahjí’ t’áá alsíddę’ę bik’ihwintít’il’go biłháá at’hooot’éego yee íiná il’il’. Our educational principles are based on Sa’ah Naaghái Bik’e’eh Hózhóon, the Diné traditional living system, which places human life in harmony with the natural world and the universe. The system provides for protection from the imperfections in life and for the development of wellbeing.

The principles are fourfold:

- **Nitsáhákees.** Critical thinking. *Baa nitsidžiikees.* Apply the techniques of reasoning.

- **Nahat’á.** Planning. *Nańtisíkees bee yáti’ doo íishjáí’i oozín.* Develop and demonstrate communication skills, *Nańtisíkees naañaaldeeel.* Demonstrate systematic organization skills.

**College Values**

Our employees and students will adhere to the following values to achieve the mission and purposes of the College:

- **T’áá ho’ ájítégo.** Excellence and self-initiative in problem solving, compassion, setting clear goals, and establishing positive working relationships.

- **Ahil na’alnish.** Cooperating and helping one another, keeping all employees well informed, using proper language for communication, respecting one another on equal terms, and honoring Ké.

- **Ilidi.** Respecting the cultural, racial and gender diversity of the Diné People, maintaining safe, courteous, respectful, and positive learning environments, and valuing inclusiveness.

- **Ilééhózin.** Understanding, thoughtfulness, competence, confidence, conscientiousness, and reflectivity for serving the needs of the Diné People.

**Educational Philosophy**

The educational philosophy of Diné College is Sa’ah Naaghái Bik’eh Hózhóon, the Diné traditional living system, which places human life in harmony with the natural world and the universe. The philosophy provides principles both for protection from the imperfections in life and for the development of wellbeing.

**Diné College History**

Diné College is the first tribally controlled and fully accredited community college in the United States. Established in 1968 as Navajo Community College, it was later renamed Diné College. The Navajo Nation sought to create an institution of higher education that encouraged Navajo youth to become contributing members of the Navajo Nation and the world. Under the direction of an eight-member Board of Regents, appointed by the Navajo Nation President and confirmed by the Government Services Committee of the Navajo Nation Council, the College continues its goals for student success.

Today, Diné College serves a predominantly Navajo student population across the 26,000 square miles of the Navajo Nation that spans the states of Arizona, New Mexico, and Utah. The College offers General Education courses that provide students with a high-quality experience while earning degrees and certificates in areas important to the economic, political, environmental, and social development of the Navajo Nation.

**Accreditation**

Diné College is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools, 30 North LaSalle Street, Suite 2400, Chicago, IL 60602-2504, (800) 621-7440, [http://www.hlcommission.org](http://www.hlcommission.org).
About Diné College

One College, Multiple Sites
Tsééhílí, the “place where the stream flows into the canyon,” is also known as Tsaile, Arizona, the location of the main campus. In addition to the main campus are seven regional sites located in Arizona and New Mexico. The Arizona locations are Window Rock, Chinle, and Tuba City. The New Mexico locations are in Shiprock and Crownpoint.

All locations offer General Education courses and programs to support post-secondary learning and to prepare students for further study or future employment.

Diné College Contacts
List of locations with contact information:

Tsaile Main Campus
1 Circle Dr. Route 12
Tsaile, AZ 86556
Ph: (928) 724-6600

Shiprock Branch
1228 Yucca St.
PO Box 580
Shiprock, NM 87420
Ph: (505) 368-3500

The Shiprock Branch has two locations north and south campuses.

Chinle Center
Hwy. 191 - Tseyi Shopping Center
PO Box 1997
Chinle, AZ 86503
Ph: (928) 674-3319
Fx: (928) 674-8488

The Chinle Center is located in the Tseyi Shopping Center.

Crownpoint Center
Hwy. 371 - Route 9
PO Box 57
Crownpoint, NM 87313
Ph: (505) 786-7391
Fx: (505) 786-5240
The Crownpoint Center is located 0.4 miles south of Bashas.

Tuba City Center
600 Edgewater Dr.
PO Box 1716
Tuba City, AZ 85045
Ph: (928) 283-5113
Fx: (928) 283-295
The Tuba City Center is located next to Tuba City Dialysis Center.

Window Rock Center
Tribal Hill Dr.
PO Box 1924
Window Rock, AZ 86515
Ph: (928) 871-2230
Fx: (928) 871-2395
The Window Rock Center is located north of the Education Building.
Non-Discrimination Policy

Notification of Rights under FERPA
The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their educational records. (An “eligible student” under FERPA is a student who is 18 years of age or older or any student who attends a postsecondary institution.) These rights include:

1. The right to inspect and review the student’s education records within 45 days after the day the Diné College (“College”) receives a request for access. A student should submit to the registrar, dean, head of the academic department, or other appropriate official a written request that identifies the record(s) the student wishes to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

A student who wishes to ask the school to amend a record should write the school official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student along with the notification of the right to a hearing.

1. The right to provide written consent before the College discloses Personally Identifiable Information (PII) from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

The College discloses education records without a student’s prior written consent under the FERPA exception for disclosure to College officials with legitimate educational interests. A College official is a person employed by the Diné College in an administrative, supervisory, academic, research, or support staff position (including law enforcement personnel and health services staff); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee. A College official also may include a volunteer or contractor outside of the Diné College who performs an institutional service or function for which the College would otherwise use its own employees and who is under the direct control of the College with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent, or a student volunteering to assist another College official in performing his or her tasks. A College official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the Diné College.

2. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Diné College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202-5920

For additional information regarding FERPA: (202) 260-3887 (voice), (800) 877-8339 (TDD)
Drug-Free and Zero Tolerance Policy
The College is committed to the Drug Free Schools and Communities Act Amendments of 1989 specified by P.L. 101-226. This is demonstrated in the College Drug-Free and Zero Tolerance policy and in accordance with the Navajo Nation policies prohibiting the manufacture, possession, distribution, or use of alcohol or controlled substances by students, employees and campus guests in the workplace and facilities owned or leased by the College. Smoking and the use of smokeless tobacco are also prohibited in College buildings and vehicles.

Campus Crime Information
In compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, codified at 20 USC 1092 (f) as part of the Higher Education Act of 1965, Diné College provides information regarding campus safety and crime policies outlined in the Student Code of Conduct. This Code of Conduct contains information about reporting crimes, sexual harassment policy, drug/alcohol policy, etc.

Student Complaints and Recommendations
Students have the right to file a grievance using the Incident Report Form that can be found within the Student Code of Conduct.

The nature of the complaint must be described thoroughly, including any evidence that supports the complaint.

To obtain a copy of the Student Code of Conduct and/or the Incident Report Form please contact the Student Success personal.

(928) 283-7501
Admission Requirements
Undergraduate admission to Diné College, new and transfer students must submit and complete ALL of the following (before Admission Deadline):

- Admission application with a non-refundable $20 application fee
- Official Certificate of Indian Blood (CIB) or enrollment card (applies to American Indian students only)
- Official high school transcript with graduation date or General Education Development (GED) test scores
- Official college transcript(s) from other accredited colleges/universities

Letter of Admission
A student who has met the admission requirements will receive an official Letter of Admission from the Tsaile Records and Admissions Office.

Denial or Cancellation of Admission
The College reserves the right to deny or cancel student admission or registration. Any student found to have willfully concealed or falsified information on his/her admissions application may be subject to penalties pursuant to tribal, state, or federal codes and may be subject to immediate expulsion.

International Students
International students must submit the following documents to the Records and Admissions Office before being issued an I-20 form. All documents must be translated into English.

- Official high school transcript
- Official college transcript(s) (if applicable)
- TOEFL Scores
- Verification of Financial support

For more information, contact the Records and Admissions Office at (928) 724-6630.

Degree-Seeking Students
A student seeking a certificate or undergraduate degree is classified as a degree-seeking student.

First-Time Freshman
A freshman student is an individual who has never attended any other college prior to enrolling at Diné College.

Transfer Student
A student who attended another accredited college or university prior to being admitted to Diné College is considered a transfer. Official transcript(s) is required. Based on transcript evaluation a maximum of 40 credit hours below the 300 course level with grades of “C” or better will be accepted. Transfer courses will not be included in the student’s Cumulative Grade Point Average (CGPA) and will be shown without designated equivalents. Transfer credits remain on a student’s permanent transcript.

Returning Students
Any student who has not attended for two consecutive semesters (excluding summer sessions) must apply for re-admission.

Stopped Out Students
Student must maintain continuous enrollment to use the catalog the year they were admitted.

Full-Time Student Status
A student is considered fulltime when registered for 12 or more credit hours per semester.

Part-time Student Status
A student is considered part-time when registered less than 12 credit hours per semester.

Non-Degree-Seeking Students
A student is considered non-degree seeking when he/she is not pursuing a degree. A non-degree student is not eligible for federal financial aid.

High School Concurrent Enrollment (Non-Degree)
A high school or home-schooled student who has completed their sophomore year may enroll for a maximum of two courses per semester and one course per summer session. The student must have a minimum of 2.50 CGPA. Student must obtain and submit a High School Concurrent Enrollment Form including an admission application and their high school transcript. The student is required to take the college placement test. Student must maintain a “C” grade average. The student must meet the prerequisite and course requirements. The student transcript will be established based on credit earned from the college. A student is not permitted to audit courses.

Dual Enrollment (Degree-Seeking)
An institution interested in dual enrollment of its students should contact the Vice President of Academics to collaborate on inter-institutional agreements.
Registration

Academic Advising
Academic advising provides students with the opportunity to meet with the academic advisement team to gain support and assistance with degree planning and setting career goals. Academic advisors help students gain the skills needed for academic success, providing campus resources, and college transition to and from the college.

Academic Advising provides the following services to assist student with their academic goals at Diné College:

- Auditing graduation degree checklists
- Exploring academic degree programs
- Providing and identifying academic resources
- Transferring to four-year institutions

Shiprock Student Success, call (505) 368-3621.
Tsaile Student Success, call (928) 724-6658.

Student Orientation
Student Orientation is designed to help new students transition to college life. Freshman students are encouraged to attend Fall or Spring orientation. For more information, call the Student Success Centers in Tsaile at (928) 724-6658/6736 or in Shiprock at (505) 368-3621.

Placement Test
All incoming undergraduate students are required to take the placement test in the three subject areas of reading, writing, and mathematics prior to registration. The test results will determine the level of course placement.

If a student does not agree with the placement test results a challenge test is available. A challenge may be taken to advance a student to the next level of course sequence. It must be taken prior to registration:

1) The challenge test for reading and mathematics will be conducted at the Learning Centers.
2) The writing test will be given by the English Faculty.

A 'Transfer' student is required to take the placement test unless unofficial transcript is presented at the time of testing for reading, writing, and mathematics. A student pursuing a degree may have their writing or mathematics test waived upon evaluation of transcripts.

Advanced Reading Proficiency is required for graduation either by passing or testing out of FST 131.

A student who has earned an associate or higher degree may be exempt from the placement test.

Diné College recommends students retake the placement test after not attending school for four (4) years.

Contact the Learning Center in Tsaile at (928) 724-6725/26, Shiprock at (505) 368-3564, or the Offices at the regional sites.

Navajo Language Proficiency Test - Navajo Nation Department of Diné Education authorizes the Center for Diné Studies to administer the proficiency test for oral and written Navajo language. The test fee is $65.00. For more information or to schedule the test, contact the Tsaile Campus Center for Diné Studies at (928) 724-6663 or (928) 724-6658.

Navajo Language Proficiency Test - Navajo Nation Department of Diné Education authorizes the Center for Diné Studies to administer the proficiency test for oral and written Navajo language. The test fee is $65.00. For more information or to schedule the test, contact the Tsaile Campus Center for Diné Studies at (928) 724-6663 or (928) 724-6658.
Tuition

All Associate degree and certificate programs are $30 per credit hour or up to $360 for full-time students (12 credits).

The cost of tuition for the Elementary Education BA Program is $120 per credit hour for all courses, upper and lower division, or up to $1,440 for full-time students (12 credits).

Payment Options

- Payments can be made at all sites with cash, money order, debit, or credit card (only VISA and MasterCard). No personal checks are accepted.
- Deferred Payments are available for eligible students.
  - Students who may not qualify for Financial Aid may set up a deferment plan with the Business Office.

Non-Payment

A student who fails to pay their outstanding financial obligations to the College may be denied enrollment, official transcripts. A student who withdraws from the College after being granted a payment plan is liable for payment of their bill. All financial obligations to the College must be met before official transcripts will be released. Students may not be allowed to enroll in subsequent semesters until all previous financial obligations to the College have been met.

Activity Fees

Students at the Tuba City, Tsaile and Shiprock campuses are charged a $25 Activity Fee for Fall and Spring Semesters.

Technology Fee

All students are required to pay a $20 Technology Fee each semester. The fee pays for computer labs/usage, software, distance education, ITV, and WarriorWeb.

Refund Policy

Cancelled Course Policy

A student will receive full tuition refund if a course is cancelled by the College. This does not include the non-refundable fees (i.e., registration, technology, and activity fees, where applicable).

Diné College administers federal, state, tribal, and institutional grants and scholarship programs to assist students based on financial need or academic merit. Available funds are used to provide assistance to qualified students. Students are responsible for initiating the application process for financial assistance and scholarships. Students are encouraged to apply early.

The Financial Aid Office supports the College’s mission by providing access and equal opportunity for financial assistance to eligible students through federal, tribal, state, institutional, and private sources regardless of sex, color, age, or other circumstance.

The Financial Aid Office main goal is to educate students to seek funds to meet the rising costs of education through grants, part-time work or scholarships.

Students are eligible for federal financial aid if they are enrolled in a certificate or degree program. The degree program should be at least one academic year in length. The student must make satisfactory academic progress (SAP), has a high school diploma or equivalent, and must be a U.S. citizen or eligible non-citizen. Male students must comply with Selective Service registration requirements.

Students applying for financial aid must complete the following:

- Free Application for Federal Student Aid (FAFSA), available at Diné College’s Financial Aid and Scholarship Office at Tsaile, Shiprock and regional sites, any high school counselor’s office, or online at www.fafsa.gov.
- Cost of Attendance (COA): Diné College has a cost of attendance for Dependent and Independent students as well as for student living in Residential halls. Pell Grant is based on COA and Excepted Family Contribution (EFC). The EFC is calculated by using the FAFSA for each student, therefore, no two student’s award are exact.

Satisfactory Academic Progress (SAP) Policy

Federal regulations require Diné College to establish satisfactory academic progress standards for students that are receiving Title IV financial assistance. Diné College’s Financial Aid and Scholarship Office reviews grades at the end of each semester and measures satisfactory academic progress in the following areas: grade point average (GPA), completion rate or pace, and maximum timeframe.

If students with disabilities can demonstrate equal or higher academic performances as their typical college peers and/or demonstrate the ability to maintain satisfactory academic progress, they may be considered eligible for accommodations such as course substitutions. Course substitutions could be a workshop, independent study, special topic classes, or practicum experiences.

The substitute course must be at the freshman and sophomore levels, and closely related in content, objectives, and outcomes to the original required course. Such accommodations will be considered on a case-by-case basis to ensure students with disabilities meet the necessary and required coursework for the specific degree or certificate program.

Students receiving financial aid must make satisfactory academic progress toward the completion of a certificate or degree program. Diné College has both a qualitative and quantitative measure of academic progress:

- **Qualitative Standard:**
  - Minimum grade point average (GPA)
- **Quantitative Standards (Pace):**
  - The maximum timeframe a student has to complete a degree,
  - A minimum percentage of courses attempted must be passed, and
  - A maximum number of courses from which a student is allowed to withdraw or drop.

<table>
<thead>

</tr>
</tbody>
</table>

Maximum Timeframe / Pace
The US Department of Education places a credit hour limit on financial aid funding for students. Funding is available until a student has reached 150% of the credit hours required to complete their program. This includes all double majors, additional degrees, repeat credits, and transfer credits (example: AA in Bus Admin. = 69 credits × 150% = 103 credit hour maximum timeframe)

Financial Aid Warning
Recipients of financial aid will receive a financial aid warning notice after any semester in which their semester/term grade point average falls below the “Completion Rate/Pace” and/or they fail to satisfactorily complete 67% of the credit hours in which they are enrolled.

The financial aid warning letter serves as a WARNING to the student that he/she did not maintain satisfactory academic progress during the most recent semester of attendance at Diné College. Failure to meet one of the academic progress standards for one semester results in financial aid warning. Students on financial aid warning are eligible for Title IV Funds. Students will be removed from warning status after completing the following semester in good academic standing.

Financial Aid Suspension
Recipients of financial aid will be suspended if they fail to meet the semester grade point average and/or to complete 67% of their enrollment for two (2) semesters of academic coursework. Failure to meet one of the academic progress standards for two consecutive semesters may result in financial aid suspension. Students on financial aid suspension are not eligible for Title IV Funds.

Reinstatement of Financial Aid Eligibility
A student may lose federal and institutional aid eligibility because he/she is not meeting the Satisfactory Academic Progress (SAP) GPA or Pace standards.

A student may regain eligibility in one of the following ways:

1. Submit a Satisfactory Academic Progress (SAP) Appeal Form with supporting documentation. A student must be advancing toward a degree and show progress within the SAP Academic plan for graduation.

Financial Aid Probation: If a student’s Financial Aid Suspension appeal is approved, the student will be awarded on a Financial Aid Probation Status. The student must complete all credits with a 2.0 GPA, otherwise, the student will go back on Financial Aid Suspension.

The student must complete one semester using his/her own resources or use the Diné College Deferred Payment Plan with at least half-time enrollment (6 or more credit hours). Courses taken must be chosen in consultation with an Academic Advisor. A student must advance toward attaining a degree and adhere to their Degree Checklist.

Once eligibility is restored, a student will be awarded aid for the following terms, subject to availability of funds.

SAP Impact of Course Repetition, Withdrawals, Incompletes, Transfer Credits, Changes in Major

Course Repetition
Repeat credits are applied when a student repeats a course in order to improve a grade. Students are allowed to repeat any previously passed course and have it count toward enrollment for financial aid eligibility only once. Each attempt at the course, however, will count toward a student’s pace and maximum timeframe.

Official Withdrawal
A school’s SAP policy cannot exclude “W” grades in SAP reviews. Withdrawal hours are assigned when a student withdraws from a class after the drop period. Withdrawal hours count as credit hours attempted toward both pace and maximum timeframe.

Unofficial Withdrawal
A student who does not successfully complete any course (receives all “F” grades), stopped attending classes, and did not complete any coursework is considered an unofficial withdrawal. An unofficial withdrawal may be required to repay up to 50% of their financial aid received for the term. Student who never attended any of their classes and did not complete any coursework are required to repay 100% of the financial aid received for the semester or summer term. Non-attendance does not relieve students of the financial responsibility for tuition charges once they are registered for a class.

Incompletes
Incomplete (I) is a temporary grade that is assigned only in exceptional circumstances. It will be given only to students who
cannot complete the work of a course on schedule because of illness or other circumstances beyond their control. Once an official grade is received, student should notify the Financial Aid Office.

**Transfer Credits**
Coursework taken at another institution that is accepted as transfer credit by Diné College will count as both attempted and completed credit hours toward pace and maximum timeframe. Students who exceed the maximum timeframe can submit an SAP appeal to determine if their aid can be reinstated.

**Change in Major**
Students who have changed majors or are pursuing a second degree may reach their maximum timeframe before their program of study is complete. All credits attempted are treated in the quantitative, qualitative, and maximum timeframe standards for SAP.

**Additional Degree(s)**
A student who already has an equivalent of an AA or AS degree (or higher) does not qualify for additional Pell Grant funds (see below) unless he or she is seeking a Bachelor of Arts degree in Elementary Education.

**Changes That May Impact Eligibility**
(Consolidated Appropriations Act of 2012: Effective July 1, 2012)

- **Federal Pell Grant Duration of Eligibility** – Beginning award year 2012–2013, the duration of a student’s eligibility to receive a Federal Pell Grant is reduced from 18 semesters or its equivalent to 12 semesters or its equivalent. The calculation of the duration of a student’s eligibility will include all years of the student’s receipt of Federal Pell Grant funding.

- **Pell Grant Lifetime Limit** – Beginning Fall 2012, students are now limited to receiving 12 semesters of Pell Grant eligibility during their lifetime. This change affects all students regardless of when or where they received their first Pell Grant. Students may view their percentage of Pell Grant used by logging into www.NSLS.ed.gov. Your ‘Lifetime Eligibility Used’ percentage will be displayed in the ‘Grants’ section.

**Repeat**
Students may repeat courses previously taken at the college to better their understanding or to improve their grade. A transcript shows that the course was repeated, but only the higher grade is used to compute the student’s Cumulative Grade Average.

**Retake**
Courses may be retaken, but only one retake of a course counts towards a student’s eligibility for financial aid purposes.

**Return of Title IV Funds (Refund and Repayment Policy)**
If students receiving federal financial aid withdraw from the College, the amount of the financial aid to be repaid or refunded is calculated using a formula supplied by the U.S. Department of Education. The last day of attendance is used to calculate the total amount to be repaid. A refund is the difference between the amounts paid toward institutional cost (including financial aid and/or cash paid) and the amount the school may retain under the appropriate refund policy. See the Financial Aid Student Handbook for detailed information on the Title IV Refund/Repayment policy.

The order of refund of Title IV funds to the programs from which the student received aid during the payment period or period of enrollment is in the following, up to the net amount disbursed from each source:

1. Unsubsidized Federal Stafford loans*
2. Subsidized Federal Stafford loans*
3. Unsubsidized Direct Stafford loans (other than PLUS loans)
4. Subsidized Direct Stafford loans
5. Federal Perkins loans
6. Federal PLUS loans
7. Direct PLUS loans
8. Federal Pell Grants for which a return of funds is required
9. Academic Competitiveness Grant for which a return of funds is required
10. National Smart Grants for which a return of funds is required
11. Federal Supplemental Educational Opportunity Grant (FSEOG) for which a return of funds is required
12. Federal TEACH Grants for which a return is required.

NOTE: *Diné College does not participate in the Federal Student Loan Program and will not certify enrollment or share information with potential lenders.
Financial Aid

Federal Work Study Program (FWS)
FWS is a federally funded program and a part of the Title IV student aid funds. It provides jobs for students with financial need, allowing them to earn money to help pay for their education expenses.

Student Consumer Information
Diné College provides current information through annual publications on students’ rights and responsibilities concerning financial aid. Students may request copies of the Financial Aid Student Handbook and the Student Guide at the Financial Aid and Scholarship Office in person, by mail, by telephone, or online at www.Dinécollege.edu.

Deferred Payment Plan
Diné College offers an affordable monthly payment plan if a student is not eligible for financial aid. For more information please contact the Business Office.

Financial Aid Appeal Process
Students who fail to maintain satisfactory academic progress and are notified of financial aid suspension may appeal their eligibility to the Financial Aid Appeals Committee. The Financial Aid Director or the FA Committee will review the appeals. An appeal should be based on extenuating circumstances as documented by the student. The results of the appeal will be sent to the student following the Financial Aid Appeals Committee’s consideration and decision. Information and forms are available at the Financial Aid Office or online at www.dinecollege.edu.

NOTE: Students are encouraged to seek other available resources including the Deferred Payment Plan / Payment Options with Diné College pending final approval by the FA Appeal Committee.

Financial Aid Office Location/Contact
The Financial Aid Office is located inside the Student Union Building (SUB)-Tsaile Campus and Shiprock North Campus.

**Navajo Nation Chapter Scholarships**
Navajo Nation Chapter Scholarships are available at each chapter throughout the Navajo Nation. Applicants must be a registered member with their respective chapter.

**Utah Navajo Trust Fund**
The Utah Navajo Trust Fund makes financial aid available to Navajo residents of Utah. The office is located in Blanding, Utah. Applications are available at the Financial Aid and Scholarship Office.

**Other Scholarships**
Many students are awarded scholarships by local organizations such as churches, businesses, and civic groups. Others receive assistance from employers, credit unions, corporations, foundations, or professional associations. The Financial Aid and Scholarship Office has information about the following:
- American Indian College Fund
- American Indian Education Foundation / National Relief Charities
- American Indian Services
- Gates Millennium Scholarships
- Indian Health Service Scholarships
- Project Love Scholarships
- Navajo Tribal Utility Authority
- Navajo Nation Oil and Gas Company
- Arizona Public Service’s Scholarship
- Catching the Dream Scholarship
- Other Tribal Scholarships
The purpose of Student Services and Resources is to create experiences for students that promote involvement, learning, and success. The Student Services staff assists and collaborates with various programs on campus, providing activities and services to develop traditions, teach leadership skills, celebrate diversity, and enhance the overall quality of student life.

Not all services are provided at the Shiprock Branch, and limited services are provided at the regional sites. Services include Financial Aid and Scholarships, Student Activities, and Student Development, which includes academic advising, transfer and career counseling. Other services include Student Orientations, Referral Services, GED Testing, Transfer Assistance, and Veterans’ Services.

**Adult Basic Education Program**
Diné College offers educational opportunities for everyone. The Adult Basic Education (ABE) Program is available for individuals who need to work on their reading, writing, and mathematics skills. The program also helps to prepare students for the official GED Test. For information about ABE, contact the Learning Center in Tsaile at (928) 724-6725/6726 or in Shiprock at (505) 368-3569.

**Associated Students of Diné College (ASDC)**
The Associated Students of Diné College (ASDC) serves as a communication link between students and the administration. All currently enrolled students are members of ASDC. The motto of ASDC is “Students Helping Students”. Members can take advantage of many student government opportunities in terms of leadership development, college and community life, student development, and group interactions in both intellectual and social settings. For more information call (928) 724-6745.

**Athletics**
Since 1968, Diné College has supported athletic teams. In the past forty years the College has developed an overall intercollegiate athletic program that ranks among the very best in community college circles nationwide.

Diné College Warriors have won many conference, regional, and national championships in a variety of sports. Winning teams have become a tradition at Diné College in both men’s and women’s sports. Community support for intercollegiate athletics at Diné College has been outstanding. The caliber of coaching, the quality of uniforms and equipment, the training and medical facilities, and the opportunity to play against worthy competitors are superior. Diné College Athletic Programs aspire to the highest level of intercollegiate competition, sportsmanship, and academic excellence.

Athletics Web Site: [http://www.dinecollege.edu/gowarriors](http://www.dinecollege.edu/gowarriors)

Athletic scholarships, grants-in-aid, and special inducements or privileges for athletes do exist at Diné College in accordance with rules governing community college athletics. For more information on financial aid for athletes see financial aid.

**Intercollegiate Athletics for Men and Women**
Archery, Rodeo, and Cross-country teams participate, and excel in the National Archery Association, United States Collegiate Athletic Association, and National Intercollegiate Rodeo Association.

**Eligibility for Intercollegiate Sports**
For a student to be eligible for any intercollegiate competition, the student must conform to the following regulations:

- A student must be a graduate of an accredited high school with a diploma or have earned a General Education Development (GED).
- A student must be enrolled in a recognized academic program and be making progress toward a two- or four-year degree at the attending college.
- A second-semester student must receive passing grades in 12 credit hours his/her first term and must have a GPA of 2.00.
- A student must receive passing grades in 24 credit hours during the two preceding terms of attendance.
- After accumulating 24-48 credit hours, a student must have achieved a 2.00 cumulative GPA.
- Summer and inter-term credit hours can be used to satisfy the 12/24 credit hour rule and GPA requirement.
- Summer credit hours should be attached to the preceding Spring Semester for eligibility purposes.

An eligibility form must be filed with the Office of Records and Admissions prior to participation in intercollegiate sports. Student athletes are not permitted to participate in athletic competition without proper documentation.

**Athlete’s Class Attendance**
Student athletes must be duly admitted and maintain regular attendance in each course. Athletes are responsible for maintaining the attendance requirements as described in the course syllabi.

**Athletes on Satisfactory Academic Progress (SAP)**
Student athletes must demonstrate satisfactory progress with a 2.00 GPA or higher to continue athletic participation and must maintain enrollment of 12 credit hours. Student athletes who drop below 12 hours and/or whose GPA falls below 2.00 are immediately ineligible for athletic participation.
Satisfactory Completion
To be eligible for the next semester, a student athlete must have passed 12 or more credit hours with a 2.00 GPA or higher.

Falsification of Records
Student athletes who falsify their academic records shall become immediately ineligible from further participation and competition.

Bookstore
The bookstores at Tsaile and Shiprock provide textbooks, art supplies, office supplies, personal items, snacks, books on Native American topics, and official Diné College merchandise. At regional sites, textbooks are available for a limited time at the beginning of each semester. For more information, call (928) 724-6751/6750.

Cafeteria
Located in the middle of the Tsaile Campus is a full-service cafeteria managed by Aramark. The cafeteria provides breakfast, lunch, and dinner with a self-serve salad and beverage bar. Menus are available and posted around campus. Everyone is welcome.

Campus Security
Tsaile and Shiprock Campus Security Department operates 24/7, year-round. Security Officers are here to serve and protect people and property on the campus. All sites are covered by the Navajo Nation Department of Law Enforcement.

Security Contact information:
- Tsaile Campus: (928) 724-6802
- Shiprock Campus: (505) 368-3521
- Tuba City: (928) 283-7501

Parking Permits
All students (residential and commuters), faculty, and staff are required to have parking permits for their vehicles. Parking permits may be purchased at the respective security offices. Parking Permits cost:
- Faculty and Staff: $10 annually
- Students: $5 per semester

Career Services
The Office of Career Services was established to guide students into a career path through higher education. This program provides resources: jobs on campus, internships, career building skills, workshops and career self-assessment. We strive to provide unique career preparedness opportunities to our students. Our goal is to prepare students to become active participants in their career goals and build employable skills while attending Diné College.

Contact Information:
- Student Success Center - Tsaile: (928) 724-6851

Childcare Services
Childcare services are available through the Navajo Nation Childcare Services and Headstart. Students must apply with their respective agencies as early as possible prior to the beginning of a Semester because space is limited. Interested parties should contact: Tsaile Head Start Program (928) 724-2209, or Tsaile Childcare at (928) 724-6909.

Computer Services
The Information Technology (IT) Department provides an array of computer-related services. Computer labs are located across the main campus and at the various regional sites for student use. Wireless access is available at all regional sites. Students who have their own computers must have current anti-virus protection installed in order to gain access to the Internet with the College. Students who do not have current anti-virus software must contact ITD for more information. Laptops have to be registered with the IT department for access to the internet and WarriorWeb. The College reserves the right to monitor all Internet activity.

WarriorWeb
WarriorWeb is the official portal to the Diné College community. WarriorWeb provides students, staff, and faculty with exclusive 24-hour access to internal college information and resources. Those with a WarriorID and password will be able to access online courses and important announcements, news, and events.

WarriorID is used for:
- Diné College computers
- Student information on the Diné College’s portal, WarriorWeb (grades, schedule, Financial Aid, and Student Billing)
- Diné College e-mail account
- Networked Student Folder (S drive)
- Online classes through WarriorWeb eRacer (formerly LMS) or Blackboard
- Diné College wireless access points

Development Office
The Development Office oversees the Diné College Foundation, the Alumni Association, the Grants and Sponsored Projects Office, the Marketing and Public Relations Office, Legislative Affairs, External Technical Assistance, and the Institutional Research Review Board. The Institutional Research and Planning Office provides strategic support for the College’s focus on improving its academic programs.
Disability Resources

Diné College is committed to providing college-wide educational support and assistance for students with documented disabilities through the Office of Student Services. The staff assists eligible students to reach the objectives of academic success, personal responsibility, and leadership development. The College is committed to providing reasonable and appropriate accommodations to instruction and services that are also made available to the general student population. Disability Support Services is committed to each student’s development of self-advocacy skills so that qualified students with disabilities function independently within the academic, social, and recreational environment of the college. For information or if you have any questions, please contact Disabilities Support Services at: (928) 724-6856 in Tsaile, Arizona or (505) 368-3627 in Shiprock, New Mexico.

Diné Policy Institute

The Diné Policy Institute was established in 2005 by the Navajo Nation Council as a research institute at Diné College that would “mesh” Western research practices with Diné Bi Beehaz’íínnii (the Fundamental Laws of the Diné) and Diné philosophy. The institute is instructed to advise Navajo Nation law- and policy-makers by developing innovative policies and solutions for the Navajo Nation and the Diné people. Through its unique approach to research, Diné Policy Institute identifies, articulates, analyzes, and applies Diné paradigms to issues facing the Navajo people. Complementary tools, mainstream qualitative and quantitative methodologies are also employed. The institute consults with an Advisory Circle, composed of traditional knowledge holders and Navajo scholars, to provide valuable insights and wisdom related to the institute’s research areas. The Advisory Circle is an integral part of the research process at several levels, including baseline research, analysis, and evaluation.

Both undergraduate and graduate research internships are available at the Diné Policy Institute on projects pertinent to the Diné and the Navajo Nation. Interns will conduct independent research under the mentorship of DPI researchers. Interns will study and engage in Navajo philosophical concepts, using this knowledge as a basis to analyze and research contemporary Navajo issues, such as Public Health, Sustainable Community and Economic Development, Education, Social Service, Cultural Rights, and Government.

The Diné Policy Institute is housed at the Tsaile Campus of Diné College, Ned Hatathli Center (NHC) 632.
http://www.dinecollege.edu/institutes.php
For more information, call (928) 724-6945.

Diné Environmental Institute

The Navajo Nation Council approved the creation of the Diné Environmental Institute (DEI) in 2001. The purpose of the Institute is to combine classroom instruction and curriculum development with outreach and research in local communities. The research approach at the Institute combines Navajo philosophy and traditional wisdom with Western science. The Institute promotes the Diné traditional living system, which places life in harmony with the natural world. Research is organized around the four sacred elements:

- Earth – Research in Agriculture and Remediation using native plants.
- Water – Improving water quality and quantity on Navajo reservation lands
- Air – Improving air quality and reducing environmental impacts from energy development
- Fire/Light – Promoting renewable energies and recycling

The Institute has many collaborative partnerships with nearby colleges and universities and encourages experienced interns to participate in bridge programs at a four-year college of their choice the summer prior to or immediately following graduation with their AS Degree in math, science, or technology. Research interns are expected to attend conferences and participate in poster sessions, research presentations, and community meetings regarding their research.

For more information about current research programs go to http://www.dinecollege.edu/institutes/dei.php or call (505) 368-3556.

Research is conducted at the Institute year-round, and a variety of internships and opportunities are available to students at all levels of education:

Environmental Research and Education (EvER) Internship

Students can work in Canyon de Chelly with the National Park Service; participate in water-quality testing, phytoremediation, or uranium remediation; study indoor coal stove use, design of native landscaping, planting and maintenance, ant biodiversity, air quality; and conduct community surveys. Sustainability is emphasized in greenhouse native plant growing/gardening and recycling. This internship is designed for Science, Technology, Engineering and Mathematics (STEM) majors but non-STEM majors will be considered. The program is available at Tsaile, Shiprock, and the Tuba City Center.
Geographic Information System (GIS) Lab
DEI’s Summer Internship program offers interns an opportunity to gain experience using Global Positioning Systems (GPS) and GIS software/technology. GIS using GPS integrates hardware and software to capture, manage, analyze, and display geographically referenced information. The GIS lab is based at the Shiprock campus and also uses mobile GIS technology at the Tsaile campus. GIS and other geospatial technology are available.

National Library of Medicine – Tox Town
Tox Town is an interactive media website (http://www.toxtown.nlm.nih.gov/index.php) which brings to the viewer an understanding of the toxic chemicals and environmental health risks that might be encountered in everyday life, in everyday places. The website, developed in conjunction with Diné College in Shiprock and the National Library of Medicine, highlights locations associated with environmental health concerns impacting the Navajo and others living in the Southwest region of the United States. Tox Town features abandoned mines, coal-fired power plants, dust storms, hydraulic fracturing, agricultural canals and ditches, oil and gas fields, sheep/cattle ranching, uranium disposal cells, unregulated water wells, windmills, etc.

Established collaborative partnerships benefitting STEM students:

Ecological Society of America (ESA)–Strategies for Ecology Education, Diversity and Sustainability (SEEDS)
SEEDS is part of ESA’s Education and Diversity Programs. Its mission is to diversify and advance the ecology profession through opportunities that stimulate and nurture the interest of underrepresented students not only to participate in ecology, but to lead. Focused mainly at the undergraduate level, with extension services for communities, high schools, graduate students, and international collaborations, the SEEDS program promotes an ecology profession with wide representation to ensure environmental understanding and a sustainable future for all. DEI’s partnership with ESA-SEEDS helps facilitate/promote environmental educational opportunities for STEM students through a student led club, the Diné Ecology (DECO)/SEEDS Chapter.

All Nations Louis Stokes Alliance for Minority Participation (ANLSAMP)
Diné College is working toward growing and improving the pipeline for Native Americans and underrepresented minorities in STEM through the All Nations Louis Stokes Alliance for Minority Participation (ANLSAMP). The goal of the program is to increase the number of Native Americans (NA) and underrepresented minorities (URM) majoring in STEM. In order to achieve this goal and related supporting objectives, the ANLSAMP program has built activities through lessons learned and constructive input from its established cohort of partner institutions. Thirty-eight institutions of higher learning have again come together to continue the effort toward broadening the participation of NA and URM in STEM, and to transition students from the associate level to the baccalaureate level. STEM majors at Diné College are eligible to apply for the program each semester. The All Nations program provides a stipend and assists with travel opportunities for eligible scholars. For further inquiries, Diné College STEM students should contact the AMP Program Liaison at (505) 368-3575.

Collaboration between Diné College-DEI, Governmental Entities, and Major Universities
Diné College- DEI, Governmental Entities and United States Environmental Protection Agency, Department of Energy, United States Department of Agriculture, New Mexico Tech, University of Nevada-Reno, University of Arizona, New Mexico State University, Northern Arizona University, National Science Foundation (NSF), Harvard University, and others are collaborating on projects to develop educational research opportunities advancing students and communities of the Navajo Nation. Objectives of these collaborations include offering Diné College students research and field experiences in STEM areas to enable hypothesis-driven research to be used in undergraduate biology, environmental science, and geology courses and summer research projects. These projects have a lasting impact on Diné College’s ability to provide field and research experience to its students. Furthermore, they promote community service/outreach activities and social responsibility.
General Education Development (GED)
The General Education Development program prepares individuals for the official GED test. Individuals who are 16 years of age or older and have not received their high school diploma are eligible for the program. Upon enrollment and a pre-assessment screening, classes are provided to prepare for the test. For information about the program and the GED test, contact Student Services in Tsaile at (928) 724-6727 or in Shiprock at (505) 368-3565.

Indian Health Services
Health services are available to all Diné College American Indian students through the U.S. Indian Health Service. Non-Indian students are eligible for Public Health Services however they are responsible for any health care costs incurred.

Indian Health Service (IHS) facilities are within walking distance from the Tsaile and Shiprock campuses.
Tsaile Health Center: Phone: (928) 724-3600
Shiprock Northern Medical Center: Phone: (505) 368-6001

Land Grant Office (LGO)
Through an act of Congress all tribally controlled colleges were granted Land Grant institution status in 1994, which means that they are eligible to receive federal funds with certain restrictions. To uphold the Land Grant mission the Diné College Board of Regents established the Institute for Integrated Rural Development in 1996 and subsequently changed the name to the Land Grant Office. The Land Grant mission is to serve the consumers through higher education programs, community outreach, and research. In doing so, the Land Grant Office has developed informal education which is disseminated as community outreach activities and projects, research, and extension in the areas of Natural Resource Management and Agriculture. Projects include large animal herd health workshops and presentations, developing farms at Tsaile and Shiprock campus, drip irrigation and hoop house construction workshops, Environmental Youth Camps, Sheep is Life Celebration, and 4-H clubs and recruitment. For more information, call (928) 724-6940.

Land Grant Office Internship
Available to students in any major. Students must maintain a GPA of 2.5. Student projects include the demonstration farms at Tsaile or Shiprock, and assisting with community events involving agriculture, nutrition, or 4-H programs. This internship is designed for students considering a career as an extension agent or working with the USDA.

Learning Centers
Learning Centers are located at the Tsaile and Shiprock campuses. The Tsaile Learning is located on the first floor of the Ned Hatahli Center. The Shiprock Learning Center is located inside the Student Success Center.

The Centers provide academic support to students, including:
- Placement Testing for incoming students, Proctor Testing for institutions, online courses, or GED Testing
- Free One-on-One tutoring by peers
- Computer Labs: Microsoft and Macintosh based Operating Systems
- Internet access, telephone, proctoring, printing, copying, faxing, and scanning
- Academic Advising

Library Services
The Diné College Library system is located on the Tsaile, Shiprock (south campus), and Crownpoint sites. Library access and services are provided to students, staff, and community. Diné College library services extend beyond the local library system and include an interlibrary loan program. If a book is not in the library system, it can borrow be secured through an interlibrary loan request. At the Tsaile Campus, the Kinyaa’aanii Library houses the R.C. Gorman Collection, a large movie and documentary selection, an extensive juvenile literature section, and a large selection of Navajo and Native American books/research journals in the Moses-Donner Indian Collection. At the Crownpoint site, the library houses the Mary Shepardson Collection, a must-see for Navajo researchers.

For more information, call:

Library Card
Student ID Cards can be activated as library cards. A student at the Tsail or Shiprock campuses or the Crownpoint Center can take his/her Student ID to the library for activation. Students at the other Centers can speak to someone on the Center staff to have a library card sent from Tsaile. Library Cards are needed to access the system, check out materials, and use the computers.
**Student Services and Resources**

**Ned Hatathli Museum**
The museum is located on the fourth floor of the Ned Hatathli Center at the Tsaile Campus. It features a variety of audiovisual exhibitions, traveling exhibits, workshops, and lectures. The museum holds a variety of archeological and ethnographic items. For information, call (928) 724-6654.

**Ruth and Bob Roessel Archive Center**
The Ruth and Bob Roessel Archive Center is located on the Tsaile Campus, and will offer a genuine research atmosphere and house the permanent collections for the college. The collection holds historical documentation of the college. For information, call (928) 724-6654.

**Residence Life Program**
Residence halls are available for students at Tsaile Campus only. Priority is provided to students with a GPA of 2.00 from the prior semester and to new incoming students. Housing assignments are first come, first serve with priority given to incoming Freshman. Every two rooms share a restroom. Students must provide their own linens and are responsible for the cleanliness of their rooms and common areas. Coin-operated washing machines/dryers are available in each residential hall. No pets are allowed in the dorms. There is no smoking allowed in the dorms.

Housing policies and regulations can be obtained from the Residence Life Office or on the Diné College website under Residence Life.

Application Requirements:
- Housing Application
- Signed Terms and Conditions form
- A current class schedule
- Unofficial transcript – if applying for the Honors dorm – minimum 3.33CGPA

**Family Housing (Married/Single Parents)**
Parents must purchase meal plans for their dependents 2 years to 12 years of age residing in residence halls. For health and safety reasons no more than 2 children, 0–12 years of age, are permitted to live with their parent(s).

Married students must provide a copy of their marriage license, or if Common Law, students must provide a copy of the child’s birth certificate listing both parents. Both parents must be full-time students.

**Guest Housing**
Overnight guest(s) may rent a room for $25 for a single-occupancy room or $35 for a double-occupancy room per night.

Current registered students may rent a room for $10 per night depending on availability. Reservations must be made 24 hours in advance with the Residence Life Office. Housing policies and regulations apply to overnight guests.

**Parking Permit**
Diné College requires all residence hall students to display a current parking permit. Parking permits can be purchased at the Campus Security Office.

For more information regarding student housing, call (928) 724-6782.

**Retention Office**
This office strives to ensure that students are academically successful throughout their enrollment at Diné College. The Retention Office is located within the Student Success Center. The office focuses on providing academic advising, monitoring student progress, and implementing academic intervention plans. For more information, call (928) 724-6728.

**Student Activities**
A fun part of student life is the activities offered throughout the academic year. Activities include talent shows, guest speakers, live performances, music and dance events, Navajo traditional games, arts and crafts, health fairs, conferences, workshops, movies, food festivals, and more! For information, call (928) 724-6743.

**Student Identification (ID) Card**
The Diné College Student Activities office issues student ID cards that are used for events, meal plans, libraries, and other resources. ID cards are issued for all Diné College sites. Check with your site offices regarding scheduled times for ID card processing. The replacement fee for lost ID cards is $5. For more information, call (928) 724-6743.

**Student Clubs and Organizations**
While at Diné College, students are encouraged to join and participate in the many clubs and organizations that are sanctioned by the Associated Students of Diné College (ASDC). For more information, visit the Student Activities Office or call (928) 724-6743.
**Student Services and Resources**

**Title III**
The program provides students with the following services and resources: academic advisement, tutoring, learning workshops, transfer and career planning, counseling, and disability services. Title III’s focus is to create, develop, and implement intervention strategies that are specific to academic placement and support, student engagement, goal setting, and professional development in curriculum and instruction. For more information, please call (928) 724-6852.

**Transfer Services**
Students who are interested in pursuing a bachelor’s degree after Diné College should contact the transfer services office. A Transfer Specialist is available to assist you with researching 4-year institutions, exploring bachelor degree programs and requirements, and connecting you with particular services for Native American students. Some featured resources and support offered through transfer services are:

- One-on-one advisement focused on transfer options
- Informational brochures on 4-year institution
- Assistance with the admissions process
- College visits and campus tours

Contact Information:

- Student Success Center – Tsaile
  (928) 724-6855

- Student Success Center – Shiprock
  (505) 368-3621

**Veteran Services**
The Veteran Services Office at Diné College is primarily to help returning military civilians/soldiers who are seeking financial aid in the form of Veterans Administration Education Benefits. Diné College curricula and courses are approved by Arizona’s and New Mexico’s State Approving Agency for training of veterans and eligible dependents. Students who are eligible to receive VA Education Benefits must comply with all VA regulations governing the specific GI Bill under which the student is granted Education Benefits.

Please contact the nearest campus for information and assistance from school Certifying Officials:

Fax: (505) 786-5240
In order for students to be successful, it is the responsibility of the students to familiarize themselves with the academic policies.

**Academic Course Load**
A full course load normally will consist of twelve (12) to sixteen (16) credit hours each semester. Depending upon the student’s major and degree of academic preparation, a student may take more than 16 credit hours. The student must have 3.00 cumulative GPA or higher, and obtain approval from an assigned advisor and the Dean of Academics, to take 17 to 21 credit hours. Under no circumstances may a student enroll for more than 21 credit hours in one semester. Credits earned through Credit by Examination are not counted in this policy.

**Academic Integrity**
Academic integrity is the fundamental value and principle that underwrites the very mission of Diné College. Enrolled students are solely responsible for the integrity of their academic work and upholding professional standards of research, writing, assessment, and ethics in their areas of study. Academic dishonesty, which includes cheating, misrepresentation or plagiarism and other forms of unethical behavior, is prohibited. If a student has violated the academic integrity policy, formal proceedings for disciplinary action will be conducted under the “Student Code of Conduct.”

**Academic Probation**
Students who do not maintain a semester GPA of 2.00 are subject to academic probation for the next semester of regular attendance. Academic probation is not recorded on the transcript. The criteria for full- or part-time students are:
- Full-time students, upon completion of 12 or more semester credit hours, are placed on academic probation if they have a GPA less than 2.00. If the number of semester credit hours drops below 12 as a result of an “In Progress” (IP) grade (see below), students are still considered to be making satisfactory progress.
- Part-time students, upon completion of 16 or more cumulative semester credit hours, are placed on academic probation when a total of 11 or fewer credit hours of work have been attempted in a semester and cumulative GPA is less than a 2.00.
- Students on academic probation may take no more than 14 credit hours per semester unless approved by an advisor.

**Academic Recognition**
Academic recognition can be achieved as follows:
- President’s Honor List: Students must achieve a semester GPA of 4.00, complete a minimum of 12 credit hours, and receive no grades of “I” or “IP.” “Honor” will be noted on transcript.
- Dean’s Honor List: Students must achieve a semester GPA of 3.50 – 3.99, complete a minimum of 12 credit hours, and receive no grades of “I” or “IP.” “Honor” will be noted on transcript.
- Honorable Mention List: Students must achieve a semester GPA of 3.20 – 3.49, complete a minimum of 12 credit hours, and receive no grades of “I” or “IP.”

**Academic Standing**
Students must maintain a 2.00 cumulative grade point average (CGPA) throughout their program of study. When students receive final grades of A, B, C, D, or F, they are considered credit hours attempted and earned. W, I, or IP grades earn no credit and are not considered hours completed. Transfer credit hours accepted by Diné College are not calculated in cumulative grade point averages for determining satisfactory progress.

**Academic Status Change**
When change of an “Incomplete” (I) or “In Progress” (IP) grade alters a student’s academic status (see Table of Non-Grade Designation, below), the student is notified of the change in writing by the Records and Admissions Office.

If the change places the student on academic probation or suspension, this restriction is effective immediately.

**Academic Suspension**
Students who do not satisfactorily meet the minimum standards required during the probationary semester will be placed on academic suspension. Academic suspension means the student will not be permitted to enroll in any classes at Diné College for the semester of suspension. Upon returning, the student will be placed on academic probation until minimum standards for satisfactory progress are met. Academic suspension is not recorded on a student’s transcript. Students who are placed on academic probation or academic suspension are subject to additional regulations regarding Satisfactory Academic Progress (SAP).

**Administrative Withdrawal**
The college reserves the right to withdraw a student from classes for excessive absences or for any other reason when college officials consider this action to be in the best interest of the college or of the students.

**Auditing Courses**
With the exception of laboratory courses, if space is available and permission is secured from the faculty, a student may audit a course. Full tuition is assessed for audits and confers no credit, grades, or quality points and does not apply toward graduation.
A student must declare audit status at the time of registration. Changes from credit to audit or audit to credit are not permitted after the last day to add a class (See Academic Calendar). Audited courses will be noted on the student’s permanent record as “AU” grade.

**Change of Grade**

With the exception of an “I” or “IP” grade, a grade may be changed within one academic year from the time it was given. The Instructor and Division Chair must approve a grade change. Students wanting to appeal a grade must complete an Academic Grade Appeal form and follow the appeal process.

**Change of Major**

Students may change their major at any time by completing the Change of Major Form and submitting it to the Records and Admissions Office. Students who have changed their major must consult with their advisor to determine additional curriculum needs. Change of major may impact a student’s Financial Aid eligibility.

**Class Attendance**

Students are expected to attend all classes and required labs. An absence does not excuse a student from the responsibility for classwork or assignments that are missed. Repeated absences and tardiness that affect student performance will be reflected in the final grade.

**Course Change or Cancellation**

Diné College reserves the right to cancel any scheduled course or to change the day, time, location, and/or faculty of any course without notice. Students will not be penalized for cancelled courses. Tuition is fully refundable. Registration, technology, and other applicable activity fees are non-refundable.

**Course Substitution**

The Course Substitution Request Form is available at all sites and must be submitted to the Records and Admissions Office. Students must consult with their assigned advisor prior to graduation. Request for course substitution must be approved by the appropriate Division Chair and the Dean of Academics.

All academic credits earned are expressed in terms of semester hours. A completed semester hour represents a minimum of eight hundred (800) minutes per credit per semester. The College operates on a 16-week on a semester system. Courses in the summer are offered as sessions varying from five (5) to ten (10) weeks in length.

**Dropping and Adding Course(s)**

Students who are dropping course(s) must complete a Drop/Add Form with proper signature(s) required and submit it to the Records and Admissions Office by the Drop/Add Date Deadline (See “Academic Calendar”). Students who fail to fill out the appropriate form and/or stop attending classes will receive an “F” grade. A student who properly drops a course will receive a “W” grade on his/her record. “W” grades do not affect the student’s GPA.

**Enrollment Status**

The number of credit hours carried per semester indicates a student’s enrollment status.

Academic Policies

General Grade Appeal
Grades are determined solely by the individual faculty who taught the course for the session(s) or the semester(s). A student who wishes to contest a grade must attempt to resolve the matter with the course faculty.

If the matter cannot be resolved with the faculty, the student may appeal to the appropriate department chairperson. The student must provide the evidence as to why the grade posted by the faculty is in error.

Grade Point Average (GPA) System
Grade Point Average refers to the average grade at the end of each semester. It is determined by the total number of quality points assigned to a grade and divided by course credits.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Example of calculation:</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>

</tr>
</tbody>
</table>

**Letter Code**

- **I**: Incomplete Grade. This grade indicates incomplete coursework. The incomplete grade must be converted to a credit grade at the end of the following regular semester, including the summer session, or it automatically changes to an “F”.
- **IP**: In-Progress Grade. This grade indicates that the student has met attendance requirements and has worked continuously toward meeting the objectives of the course. Re-enrollment in the course in the next semester is required. Therefore, IP may be given only once for the same course and only in the following pre-college courses: ENG 100A, 100B; FST 129, 130, 131, and 133; and MTH 096 and 100.
- **W**: Withdrawal Grade. A student may withdraw from a course and receive a “W”, or the faculty may also drop or withdraw a student for any legitimate reason. A student has the right to appeal an Instructor Drop/Withdrawal by submitting a petition in writing to the appropriate faculty. Refer to the Academic Calendar for Withdrawal Deadline.
- **AU**: Audit Grade. An “AU” is awarded for class participation and does not indicate proficiency in the subject matter. Course credit is not included in the Grade Point Average (GPA) or Cumulative Grade Point Average (CGPA).
- **CR**: Credit Grade. A CR grade is awarded through a challenge examination. It is included in the total earned credit hours but is not computed in the GPA or CGPA.
- **R**: Repeating a Course. Students may repeat courses previously taken. The transcript will show that the course was repeated, and the higher grade is used to compute a student’s Cumulative Grade Point Average (CGPA). Repeating a course impacts Financial Aid; see the Financial Aid Student Handbook for more information.

**Graduation Requirements**

To be eligible for graduation and participation in a commencement exercise, students must meet the requirements for a degree or certificate, plus the following:

**Graduation Requirements for an Academic Degree or Certificate**

1. Fulfill all coursework and degree requirements listed in the Graduation Degree Checklist.
2. Cumulative Grade Point Average (CGPA) of “C” or better.
3. Completion of Reading Proficiency requirement (Not applicable to Certificate Programs).
4. File a completed Graduation Petition and Degree Checklist with the Office of Records and Admissions prior to the deadline.
5. Pay the $25.00 non-refundable filing fee to the Cashier’s Office.
6. Pay all outstanding and prior accounts in full to the College.
7. Return all checked-out materials to the library.
8. Complete the College’s student graduate survey.

Notification will be sent to the student by mail and/or email.

**Reading Proficiency Requirement for Graduation**

Satisfactory skill levels in reading, English, and mathematics are required for graduation. Graduation with a certificate does not require reading proficiency unless specified by courses required for the certificate. English and mathematics development are embedded into the General Education course requirements. Although reading courses do not fill any general education requirements, students must demonstrate satisfactory ability to read with comprehension in one of the following ways:

1. Students earn a passing score on the College’s reading placement test during enrollment or when it is offered as part of a reading course in which they are placed.
2. Students who have not passed the reading placement test by the time they have completed one semester of FST 131 Advanced Reading must either take the course again and pass it with at least a “C” or pass the reading test when it is given during the semester.
3. Students who have taken FST 131 a second time and have not passed either the course or the reading test must either:
   a. Retake and pass FST 131 or
   b. Retake and pass the reading test.

Students may not retake the reading test more than two times per semester and must wait a minimum of eight weeks between each attempt.
**Academic Policies**

*Graduation Degree Checklist*
A Degree Checklist needs to be completed with the assistance of an Academic Advisor and/or a Faculty Advisor. The Degree Checklist requires their signature for submission.

A Degree Checklist should be reviewed each semester prior to registering in order to assist a student in selecting courses for registration.

A Degree Checklist for each major or academic degree program includes:

1. General Education requirements
2. Program Requirements

Degree Checklists are available on the WarriorWeb.

*Graduation Regalia*
Appropriate college cap and gown are required for the commencement exercise. Traditional attire may be worn under the gown. The cap and gown signifies the completion of a college degree program.

*Graduation Exercise*
Formal commencement exercise is held once each year at the end of the spring semester. Participation in commencement exercises does not in any way infer the awarding or issuance of a degree. Degree conferral hinges solely on the student’s satisfactory completion of all requirements.

*Graduating Catalog Year*
Students maintaining continuous enrollment at Diné College graduate according to the requirements of the catalog in effect at the time of initial enrollment. If continued enrollment is not maintained, the student must meet the requirements for graduation of the catalog in effect at the time they re-enroll. Students enrolling or re-enrolling during a summer term may follow the current catalog or the subsequent catalog.

*Graduation Petition*
Students must complete and submit a Graduation Petition to the Records and Admissions Office prior to the graduation deadline. Deadlines are posted on the Academic Calendar.

*Graduation with Honors*
The appropriate honors are recorded on a student’s transcript. The honors are based on scholastic achievement and are as follows:

<table>
<thead>
<tr>
<th>GPA</th>
<th>Honor</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50 to 3.69</td>
<td>Cum Laude</td>
</tr>
<tr>
<td>3.70 to 3.89</td>
<td>Magna Cum Laude</td>
</tr>
<tr>
<td>3.90 to 4.00</td>
<td>Summa Cum Laude</td>
</tr>
</tbody>
</table>

*Hold on Student Records*
Students who fail to meet their obligations to the College, financial or otherwise, will have their academic records placed on hold until the obligation is resolved. No grade report, transcript, or diploma will be issued to the student until obligations are satisfied in full.
Instructor Drop
Students who have been absent from a class or lab session, without notifying the faculty before the absence, may be dropped from the course by the faculty. Instructor drop form must be submitted to the Records and Admissions for processing. Any student dropped by the faculty will be notified of the action by the Records and Admissions Office. A student who wishes to be reinstated in a course from which they have been dropped must receive permission from the faculty and the dean. If the drop is revoked, the student will be responsible for payment of tuition and submit the Drop/Add form to the Records and Admissions Office.

Midterm and Final Grade Report
The midterm examinations occur during the 8th week of classes. Midterm grades are not entered on the permanent record. Final examinations are scheduled at the end of the semester and must be taken during scheduled times. Students who do not take final examinations may receive a failing grade and jeopardize their academic standing.

Military Service Credit
Basic training from any military branch of service may be accepted as one (1) physical education credit. The student must show proof of honorable discharge and pass the evaluation of the physical education instructor.

Participation in College-Sponsored Events
Participation in official college events or activities, such as intramural sports or conference attendance, requires satisfactory academic standing with a 2.00 GPA and completion of a Class Release Form prior to departure.

Repeating Courses
Students may repeat courses previously taken at the College to better their understanding or to improve their grades. A transcript shows that the course was repeated, but only the higher grade is used to compute the student’s Cumulative Grade Point Average (CGPA). Repeating or retaking a class can affect a student’s financial aid, please see repeat or retake in Financial Aid Policies.

Student Rights and Responsibilities
All Diné College students have rights and responsibilities identified in the Student Code of Conduct Handbook. A copy may be obtained from any Diné College site or online.

Transcripts
Students may request an official transcript from the Records and Admissions Office from the main campus in Tsaile. The Transcript Request Form is available at all sites and on the College website. A fee is required for each Official Transcript. Currently enrolled students may review their unofficial transcript at any time by logging into WarriorWeb. Records and Admissions Office is not permitted to provide transcript services to any current or former student who owes money to the college. Same-day service is available only for in-person requests at Tsaile Campus, for a nominal fee. The fee for a transcript is $5.00 and the same day service is $15.00 per transcript. Diné College cannot send an Official Transcript by email or fax.

Withdrawal from College
Students must officially withdraw from the College using a Withdrawal Form available from the Records and Admissions Office or respective campus site. Failure to withdraw properly results in the forfeiture of any refunds, and a grade of “F” is given for each course in progress at the time of the unofficial withdrawal. Withdrawal forms must be returned to the Registrar’s Office with all the required signatures.
General Education Curriculum
Diné College works with other colleges and universities to achieve full recognition of Diné College general education courses and degree programs. To earn an associate degree or certificate, you must take classes that satisfy the designated general education requirements.

Mission Statement
Diné College is committed to providing students with the opportunity to acquire skills and knowledge that include the ability to write clearly, read critically, speak effectively, use mathematics competently, think critically and creatively, understand abstract concepts, and use technology.

At Diné College we believe that Diné history, language, culture and philosophy, art, music, literature, and contemporary issues are necessary to understand and tell “the story of the Diné people.” The purpose of Diné College’s General Education curriculum is to enable students to pursue their academic and professional aspirations with experiences that consider diverse world views, philosophies, culture and contemporary experiences.

Course Information
Courses in the General Catalog are offered in any given semester. The College reserves the right to add or delete courses in the list of offerings during the year and to withdraw courses with low enrollment at the beginning of each semester. Students should consult the course schedules published every semester and plan accordingly. Course schedules show course number, title, credit hours, meeting times, days, and location. Additional laboratory hours that may be required are designated in the course description.

IMPORTANT NOTE REGARDING GENERAL EDUCATION
The A.A. degree in Early Childhood Education provides a Navajo Language option in the Communication Core. The A.S. degree in Mathematics requires MTH 110 or MTH 114 to fulfill the Mathematics Core. The A.S. degree in Health Occupation requires PSY 111 to fulfill the Social and Behavioral Science Core. The A.S. degree in Physics requires CHM 151 and CHM 152 to fulfill the Science Core.

All A.S. degrees require ANY BIO class to fulfill the Science Core, with the exception of the A.S. degree in Physics.

These General Education Requirements to not apply to the A.A.S. Degrees. The A.A.S. Degrees have their own specific General Education Requirements.

Each of these options and exceptions are also noted under the degree descriptions.

Communications Requirements
ENG 101, 102 for the English Option
NAV 212, 291, 301 for the Navajo Option (These courses do not meet AGEC option A, B, and S, the New Mexico Core Competencies, nor do they satisfy the ENG 101 prerequisite of college-level courses).
ENG 121 is required for New Mexico Core Competencies
Students in the Associate of Applied Science (AAS) degree program must complete six credit hours in any of the following combinations; ENG 100B and ENG 101 or ENG 101 and ENG 102.

Humanities and Fine Arts Requirements
For Diné College students earning an AA degree and/or students transferring to Arizona universities, 6 credits are required in the Humanities/Fine Arts. No more than three credit hours may be in one field of study so students are introduced to different areas.
New Mexico transferability requires 6–9 credits in Humanities/Fine Arts and 6–9 credits in social sciences. A total of 15 credits are required in humanities and social science for the New Mexico Common Core. NIS 221 may be used as the extra 3 credits in Humanities above the 6 credits required for Diné College’s general education requirements.
All students completing an AA degree must take one history class (HST) which may be used to meet either the Humanities or the Social and Behavioral Sciences requirements.

- Art History (ARH)
- Fine Arts (FA)
- History (HST) 101,102,135 or 136
- Humanities (HUM)
- ENG 212, 213, 231, 233, 241, 297
- NIS 101-108, 205, 208, 220, 222, 225, 293

Note on special requirements: Several courses that meet the Humanities and Fine Arts requirements also fulfill the AGEC special requirements of intensive writing/critical inquiry, ethnic/race/gender awareness, and/or historical awareness, as specified in the respective course descriptions.

Mathematics Requirements
MTH 106, MTH 114, or MTH 110 or any mathematics class with either of these courses as a pre-requisite is required for the AA and AS degrees. MTH 100 fulfills the requirement for an AAS degree. Students in the Associate of Applied Science program need to take MTH 100, except for Office Administration students, who can take BUS 142-Business Math, to satisfy their mathematics requirement.

Navajo and Indian Studies Requirements
Students must complete 9 or 10 credit hours depending on their Navajo Language proficiency. Navajo and Indian Studies courses are required of all students enrolled in all degree programs. Navajo culture, history, and language, are areas in which courses are taught in Navajo and English. Courses are offered in two tracks of Navajo language ability: speaker and non-speaker.
For speakers of the Navajo language, each of the following courses must be completed.
- Navajo Culture: NIS 111 Foundation of Navajo Culture
- Navajo History: NIS 221 Navajo History to Present
- Navajo Language: NAV 211 Navajo Literacy I
For non-speakers of the Navajo language, each of the following courses must be completed.
- Navajo Culture: NIS 111 Foundation of Navajo Culture
- Navajo History: NIS 221 Navajo History to Present
- Navajo Language: NAV 101 Navajo as a Second Language I

Note on special requirements: Several courses that meet Navajo and Indian Studies requirements also fulfill the AGEC special requirements of intensive writing/critical inquiry, ethnic/race/gender awareness, and/or historical awareness, as specified in the respective course descriptions.

Physical/Health Education Requirements
To fulfill the physical education requirements, students must take two separate PEH courses to earn a minimum of two credit hours or an HEE course. The courses are PEH 113 through PEH 148 and HEE 110-112. Requests for exemption from this requirement for health or any other reason must be submitted in writing to the Dean of Academics. A doctor’s statement is required.

Note: PEH 122 counts as one of the two classes and a second PEH course must be taken.

Science Requirements
The AA and AS degrees require any two science courses with a lab.
Social and Behavioral Science Requirements
For Diné College students earning an AA degree and/or students transferring to Arizona universities, 6 credits are required in the Social and Behavioral Sciences. Three credit hours must be from HST 101, 102, 135, or 136. Students in the Associate of Arts degree program must complete three credit hours from any one of the fields of study listed below.

- Anthropology (ANT)
- Economics (ECO)
- History (HST) 101, 102, 135 or 136
- Political Science (POS)
- Psychology (PSY)
- Sociology (SOC)
- Social Work (SWO)

New Mexico transferability requires 6–9 credits in Humanities/Fine Arts and 6–9 credits in Social Sciences.

Note on special requirements: Many courses that meet the social and behavioral sciences requirements also fulfill the AGEC special requirements of intensive writing/critical inquiry, ethnic/race/gender awareness, and/or historical awareness and are identified under the course descriptions.

Transferring General Education Credits
The following is a more detailed explanation of the requirements for Arizona and New Mexico college or universities.

Arizona General Education Curriculum (AGEC) Requirements
A 35-semester credit “block” can be completed at any Arizona community college. Because there are differences in the mathematics and science requirements for different degrees, there are three AGEC options. The blocks will transfer without loss of credits between any Arizona public community college or university in the programs designated by AGEC.

- AGEC-A for liberal arts (social science, fine arts, humanities) is a 35 semester-credit, lower division general education curriculum block that fulfills the lower-division general education requirements for the programs listed above.
- AGEC-B for business administration is a 35 semester-credit, lower-division general education curriculum block that fulfills the lower-division general education requirements of business majors.
- AGEC-S for science/mathematics is a 35 semester-credit, lower-division general education curriculum block that fulfills the lower-division general education requirements of majors with more stringent mathematics and mathematics-based science courses.

Completion of all AGEC courses with a grade of “C” or better and a cumulative GPA of 2.00 guarantees admission to any college or university in the State of Arizona if you are a resident. It also guarantees your ability to transfer your lower-division general studies requirement to any Arizona public university for the majors that articulate with that AGEC. Non-residents must have a grade point average of 2.5 on a 4.0 scale.

The mathematics and science requirements differ among the three forms of AGEC. AGEC-A requires a minimum of college mathematics or college algebra. AGEC-B requires a minimum of brief calculus. AGEC-S requires a minimum of calculus and a minimum of university chemistry, physics, or biology.

</table>

* Mathematics requirement: MTH 191 or higher.
**History courses may be counted as social and behavioral sciences.
***Science requirement: 8 credits of university chemistry or 8 credits of university biology. Choose the science appropriate for your major.
**** For Navajo Studies, two courses from the following three options: NAV 101 or 211, NIS 111, NIS 221.

An approved AGEC-S block must contain intensive writing/critical inquiry (IW/CI), ethnic/race/gender awareness (ERG), and historical awareness (HA) components. These components may be fulfilled by taking Diné College general education courses that are designated in the catalog.

Transfer to New Mexico Universities

Designated general education core courses successfully completed at any regionally accredited New Mexico institution of higher education are guaranteed to transfer to other New Mexico college or universities. Additional information on New Mexico transfers can be found at www.hed.state.nm.us.

Certificate programs offer practical training for immediate employment. They do not require general education courses. The courses are not designed to transfer to an upper level program of study.

- Irrigation Technician
- Office Technology
- Public Health
- Small Business Management and Entrepreneurship

Irrigation Technician Certificate

This program is designed in collaboration with Navajo Agricultural Products Industries (NAPI), New Mexico State University (NMSU), and Diné College Science Division to provide students the fundamental training skills needed to transition into an entry-level irrigation technician field or related fields. The courses are designed to teach students through a practical curriculum intended for agriculturally based projects and programs.

Public Health Certificate
The Certificate in Public Health provides a basic set of courses that prepare the student for meaningful participation in public health programs and research projects, including employment in some of the public health services programs in the Navajo Nation. The courses are taught according to the Diné Education Philosophy following the program development cycle of assessment, planning, implementation, and evaluation.

<table>

<tr>
<th>Program Requirements</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PUH 111, PUH 270</td>
<td>6</td>
</tr>
</tbody>
</table>

Choice of option A or B:

Option A:* 6
PUH 280 and choose one from EDU 200; BIO 170, 201; HEE 110, 111; PSY 111, 240, 250; SOC 111, 225, 230; PUH 241, or 289

Option B:* 7
PUH 290, 297

Program Credits 12-13

*Option A: Calls for PUH 280 and one elective course chosen from the list provided, both of which can be taken during the regular academic year.

**Option B: Specifically applies these principles to the conduct of public health research through participation in the Summer Research enhancement program consisting of PUH 290 and PUH 297.

NOTE: Student will not be eligible for Title IV Financial Aid in this certificate program. Option B specifically applies these principles to the conduct of public health research. This certificate is jointly awarded by Diné College and by the Mel and Enid Zuckerman College of Public Health at the University of Arizona.
### Associate of Applied Science Degree Programs

The Associate of Applied Science (AAS) degree prepares students for employment following graduation. A minimum of 64 academic credits must be earned in specified coursework. Associate of Applied Science degrees are awarded in two programs of study: Business Management & Office Administration.

#### Business Management (AAS)

This program provides students with business skills for entry-level positions and for starting and managing their own small businesses. It enables students to pursue further business studies and to apply business and organizational skills in their personal lives. The program features the practical, "real world" application of business concepts to challenges facing Navajos.

**Degree Programs**

**Associate of Arts Degree Programs**

The Associate of Arts (AA) degree is for students who wish to transfer to a four-year program of study at a college or university. A minimum of sixty-four credit hours may be earned in an academic program of study designed to meet general education and program requirements in these majors:

- Business Administration
- Computer Information System
- Diné Studies
- Early Childhood Education
- Education
- Fine Arts
- Liberal Arts
- Navajo Language
- Social and Behavioral Sciences
- Social Work

**Business Administration (AA)**

This program provides a solid foundation for the transfer student pursuing a bachelor degree in business administration or business education. General Education program requirements can be found on page 35.

**Fine Arts (AA)**

The Fine Arts program offers a visual arts curriculum for students who want to transfer to a four-year program. The curriculum promotes personal development in the arts. It includes studio art courses in Ceramics, Drawing, Commercial Art, Graphics, Painting, Photography, and Sculpture, as well as Art History and Art Education. Interested students should consult the catalog of four-year institutions that offer Bachelor of Fine Arts programs and speak with Fine Arts advisors. Ceramics, Painting, Photography, and Sculpture are available only at Tsaile. General Education program requirements can be found on page 35.

Liberal Arts (AA)

This program offers students an intensive investigation of ideas and practices in the arts, humanities, and social sciences that is required in the general education program with an emphasis on critical inquiry and creative expression. It is designed to prepare students to transfer to four-year programs of study in Liberal Arts or related degree programs in the arts, humanities, and social sciences. The range of courses required in the Liberal Arts program is appropriate for all students seeking a Bachelor of Arts degree in these areas. General Education program requirements can be found on page 35.

These courses fulfill partial requirements for New Mexico teaching endorsements in English as a Second Language, Bilingual/Bicultural Education, and Modern, Classical, and Native American Languages. Individuals seeking the Navajo Language Endorsement in New Mexico or Arizona are required to take the Navajo Language Proficiency Test. Diné College is authorized by the Navajo Nation to administer this test.

*This requirement waived for students who have earned the graduation requirement of 64 hours
**Degree Programs**

**Associate of Arts Degrees**

**Social and Behavioral Sciences (AA)**
The Social and Behavioral Sciences (SBS) degree is an interdisciplinary, liberal arts program designed to introduce students to the foundations of human behavior and cultures. SBS disciplines include Anthropology, History, Political Science, Psychology, Social Work, and Sociology. This program prepares students for transfer to a four-year degree program and provides basic training for work in social sciences. General Education program requirements can be found on page 35.

Agroecology /Environmental Science (AS)
Agroecology is a track under the Environmental Science. It is the science of applying ecological concepts and principles to the design and management of sustainable agro ecosystems. This discipline brings together the elements of agricultural sciences, ecology, and environmental thought and is influenced by the experiences of people who manage land and water to produce food and other products. This unique program will incorporate traditional knowledge into all aspects of the curriculum. Students should consider this option to prepare for a wide range of careers with varying specializations, including animal studies, pre-veterinary medicine, horticulture, soils and environment, resource economics, and sustainable agriculture. General Education program requirements can be found on page 35. IMPORTANT: To fulfill the General Education Science Core, students are required to take BIO 181 and ENV 225. All A.S. degrees require ANY BIO class to fulfill the Science Core.

Biology (AS)
Students selecting Biology will complete a broad program in biological and related physical sciences. They will be prepared to pursue employment or further studies in fields such as zoology, botany, microbiology, ecology, wildlife biology, molecular biology, biotechnology, as well as many other fields of biology according to their interests. General Education program requirements can be found on page 35. All A.S. degrees require ANY BIO class to fulfill the Science Core.

Degree Programs
Associate of Science Degrees

Environmental Science (AS)
Students selecting Environmental Science will be prepared to transfer to Bachelor of Science degree programs in Environmental Biology, Environmental Science, Wildlife Management, or Resource Management. Majors can receive internship support for research during both the academic year and the summer if they maintain good academic standing. General Education program requirements can be found on page 35. All A.S. degrees require ANY BIO class to fulfill the Science Core.

General Science (AS)
General Science provides maximum flexibility and is appropriate for students in pre-medicine, pharmacy, dental, medical technology, and other professional fields. It is also the program of choice for geology and chemistry students. General Education program requirements can be found on page 35. All A.S. degrees require ANY BIO class to fulfill the Science Core.

Health Occupation (AS)
Health Occupation is appropriate for students who plan to enter nursing or other allied health professions. Upon completion of this degree students will be prepared to transfer to programs at four-year universities or technical schools. Math 114 is a recognized option to meet the General Education requirements for the State of Arizona and also meets the requirement for a math course in the nursing programs at NAU and ASU. IMPORTANT: To fulfill General Education Social and Behavioral Science Core Students must take PSY 111. General Education program requirements can be found on page 35. All A.S. degrees require ANY BIO class to fulfill the Science Core.

Mathematics (AS)
Students earning a Mathematics degree receive a foundation in pure mathematics and selected topics in physical sciences or economics. Students are prepared to pursue employment or further studies in mathematics, physics, chemistry, biology, or engineering. General Education program requirements can be found on page 35. IMPORTANT: To fulfill the General Education Mathematics Core, students are required to take MTH 110, which is a prerequisite for the MTH 190 Program Requirement. All A.S. degrees require ANY BIO class to fulfill the Science Core.

Bachelor of Arts in Elementary Education

The Bachelor of Arts in Elementary Education program prepares prospective teachers to develop the necessary values, knowledge, skills, and confidence to promote children’s academic skills and confident cultural identities in English and Navajo.

To assess student learning, each teacher candidate develops a working portfolio in semester’s I-III that reflects the candidate’s unique experiences, aims, and desires as measured against the goals and competencies of the semester’s courses and apprenticeship activities. From the working portfolio, candidates develop a presentation portfolio in semester IV that is presented to the college community.

The program is offered on a full-time basis at Tsaile campus. Individuals may apply any time of year but are formally considered in spring. The application deadline is June 1st. This allows for an admission decision prior to the Navajo Nation Scholarship deadline.

Admission criteria are as follows:
Completion of an AA in Elementary Education (based on the College’s 2009-2010 or more recent catalog) or Education (based on the 2012-13 catalog) with a cumulative grade point average of 3.0 or better:
Passing score on the NES Elementary subject knowledge subtests I and II (this requirement is being phased in; recent applicants were required to at least take the test);
Current Navajo Nation tribal background check;
Application with essay (completed at the Center for Diné Teacher Education) and unofficial transcripts:
Person interview with an admissions committee.

Applications from individuals who hold an AA in Elementary Education from another institution or from Diné College prior to fall 2009, or an A.A. in different academic specialization, are reviewed on a case-by-case basis. These individuals may need to take additional lower-division coursework.

More information is available at: http://www.dinecollege.edu/cdte.

ANTHROPOLOGY (ANT)

ANT 111 Introduction to Cultural Anthropology (3)
Prerequisite: ENG 101 or concurrent enrollment
This course is an introduction to the study of human cultural diversity. It includes subfields of anthropology, sub disciplines and topics, historical origins, influences, key figures, theory and methods, and an introduction to the comparative study of cultures. The course emphasizes the general education special requirements of ethnic/race gender awareness (ERG).

ANT 112 Physical Anthropology (3)
Prerequisite: ENG 101 or concurrent enrollment
This course is an in-depth survey of topics and methods in physical anthropology, including paleoanthropology, geology, genetics, primatology, and hominid evolution.

ANT 201 Ethnographic Methods (3)
Prerequisite: ENG 101 or concurrent enrollment
Ethnographic Methods introduces students to methods of conducting research into human cultures and provides guidance and supervision as students conduct research in the community on an aspect of Navajo life.

ANT 210 Ancient Societies in Prehistoric Times (3)
Prerequisite: ENG 101 or concurrent enrollment
ANT 210 is an exploration of prehistoric human societies and cultures throughout the world based on archaeological studies of the remains of ancient dwellings, ceremonial sites, and artifacts.

ANT 225/NIS 225 Indians of the United States and North America (3)
Prerequisite: ENG 101 or concurrent enrollment. Cross-listed with NIS 225.
This course surveys the indigenous groups of the U.S. and Canada with an emphasis on changing economic and political forces that influence various tribal groups. Students will be called upon to focus on origins, language, arts, and habitats.

ANT 250 Principles of Archaeology (3)
Prerequisite: ENG 101 or concurrent enrollment
An introduction to the history of archaeological research and a survey of concepts and methods in the study of prehistoric cultures with an emphasis on modern theories and techniques.
ANT 265 Archaeology of the Southwest (3)  
Prerequisite: ENG 101 or concurrent enrollment  
A survey of the prehistory of the American Southwest from the Pleistocene to the Spanish historical period, this course focuses on prehistoric cultures of Arizona and New Mexico. The general education special requirements of ethnic/race/gender and historical awareness are emphasized. (ERG and HA).

ART HISTORY (ARH)

ARH 110 Art Appreciation (3)  
Develops an understanding and appreciation of the visual arts by exploring major art works in history, discovering meaning and looking at different styles and media of art.

ARH 211 Survey of Native American Art (3)  
Prerequisite: Reading proficiency; ENG 101 or instructor’s permission.  
This course provides an overview and develops an appreciation of Native American Art through both historical and contemporary perspectives. This course emphasizes the general education special requirements of ethnic/race/gender awareness (ERG).

ARH 213 Survey of World Art, Prehistoric to 1500 (3)  
Prerequisite: Reading proficiency plus ENG 101 or instructor’s permission.  
This course provides knowledge of and appreciation for Western and Eastern Art from the Prehistoric Age until the 1500s. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

ARH 214 Survey of World Art, 1500 to Present (3)  
Prerequisite: Reading proficiency plus ENG 101 or instructor’s permission.  
This course provides knowledge and appreciation of Western and Eastern Art from 1500 to contemporary art movements. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race gender awareness (IW/CI and ERG).

ASTRONOMY (AST)

AST 100 Fundamentals of Astronomy (4)  
Prerequisite: ENG 100B, FST 131, or instructor’s permission  
Students will be introduced to the planets, solar system, and galaxy: sun, moon, and other satellites; stars and constellations; black holes; and other celestial bodies. Navajo stories of creation are related to the scientific view. A nighttime laboratory is required. This course meets for three hours lecture and three hours laboratory per week.

BIOLOGY (BIO)

BIO 100 Biology Concepts (4)  
Prerequisite: ENG 100B  
This one-semester non-major introductory course covers basic principles and concepts of biology, including how organisms get and use energy, reproduction, heredity, evolution, and response to the environment. Environmental issues affecting life, such as global warming, are introduced.

BIO 156 Introduction Biology for Allied Health (4)  
Prerequisite: FST 131 plus ENG 101 or instructor’s permission.  
For allied health majors, this is an introductory course with an emphasis on the human body. Includes instruction in fundamental concepts of cell biology, histology, genetics, microbiology, and principles of the scientific method.

BIO 160 Introduction to Human Anatomy and Physiology (4)  
The principles of the scientific method are emphasized in this course. Students examine the structure and function of the major systems of the human body. Basic principles and concepts of organization, homeostasis, and control mechanisms are studied. This course does not meet nursing program prerequisites.

BIO 165 Cancer Prevention and Control (3)  
Cancer Prevention and Control focuses on the core concepts of biology and public health as they relate to cancer. The course addresses both the biological processes within cells that may result in cancer and public health approaches to cancer, including cancer epidemiology, education, screening, early detection, and treatment options. Special emphasis is placed on the impact of language and cultural issues in developing and implementing cancer prevention programs. Numerous basic concepts of biology and public health are covered, so students should have taken at least one course in introductory biology and one course in introductory public health before enrolling in this course.

BIO 170 Medical Terminology (3)  
Prerequisite: Reading proficiency requirement or concurrent enrollment in FST 131.  
Basic tools are provided, such as root words, prefixes, and suffixes, for building an effective verbal and written biomedical vocabulary.
Course Descriptions

BIO 181 General Biology I (4)
Prerequisite: FST 131, MTH 100, plus ENG 101 or instructor’s permission.
One year of high school chemistry or one semester of college chemistry recommended.
This course entails basic principles of structure and function of living things at the molecular, cellular, and system levels of organization. This course meets for three hours lecture and three hours laboratory per week.

BIO 182 General Biology II (4)
Prerequisite: BIO 181 or instructor’s permission.
Students deepen their understanding by learning additional principles of structure and function of living things at molecular, cellular, and higher levels of organization. This course meets for three hours lecture and three hours laboratory per week.

BIO 184 Plant Biology (4)
The study of principles and processes in plant biology with emphasis on vascular plants. Students survey the plant kingdom. This course meets for three hours lecture and three hours laboratory per week.

BIO 201 Human Anatomy and Physiology I (4)
Prerequisite: BIO 181.
Anatomy and physiology is the study of the structure and function of the human body. Selected topics include cells, tissues, and the integumentary, skeletal, muscular, and nervous systems. This course meets for three hours lecture and three hours laboratory per week.

BIO 202 Human Anatomy and Physiology II (4)
Prerequisite: BIO 181; BIO 201.
This course is a continuation of the study of the structure and function of the human body. Selected topics include the endocrine, circulatory, respiratory, digestive, urinary, and reproductive systems. This course meets for three hours lecture and three hours laboratory per week.

BIO 205 Microbiology (4)
Prerequisite: BIO 181 and another BIO class (college level) or CHM class.
One semester of college-level chemistry is recommended. Students study micro-organisms and their relationship to health, ecology, and related fields. The field of microbiology is extensive, and in this class emphasis will be on basic principles and their application in medical microbiology. The class will meet for three hours lecture and four hours laboratory per week.

BIO 223 Vertebrate Zoology (4)
Prerequisite: Minimum grade of “C” in BIO 181.
This course is a study of the evolution, diversity, distribution, and ecology of the vertebrates. It meets for three hours lecture and three hours lab per week. This class is only offered at Shiprock.

BIO 226 Ecology (4)
Prerequisite: ENV 101 or BIO 181 or BIO 182.
Students are introduced to the concepts and principles of ecology, including organization, function, and development of ecosystems; biogeochemical cycles; population dynamics; and other related topics. This course meets for three hours lecture and three hours laboratory per week, which includes field studies and possible weekend field trips.

BIO 218 Human Pathophysiology (3)
Prerequisite: BIO 201, BIO 202 or instructor’s permission. BIO 205 recommended.
Faculty provide a survey of disease processes affecting the major organ systems of the body, beginning with cell injury and death, inflammation, repair and defense mechanisms, and disorders of cellular differentiation. Concepts learned will form a basis for understanding the altered physiological states that will be encountered in the health care professions.

BIO 242 General Genetics (4)
Prerequisite: BIO 181 and another BIO class (college level) One semester of college-level chemistry is recommended. Students will survey mechanisms of inheritance (Mendelian and non-Mendelian) and modern molecular genetics, including regulation of transcription and translation, introduction to genomes, understanding the basics of gene transmission, mutation, expression, and regulation, and extranuclear genomes of mitochondria. This course meets for three hours lecture and three hours laboratory per week. Laboratory sessions include utilization of techniques of both classical genetics (with plants, fungi, and invertebrates) and contemporary molecular genetics.
BIO 296 Scientific Research Seminar (1)
The course is for science and engineering majors, but anyone who is interested in learning more about science-related research is also welcome. It offers a broad-based background in current scientific research. Weekly discussions on various methods used in scientific research are covered in the seminar along with some hands-on research experiences.

BUSINESS AND OFFICE ADMINISTRATION (BUS)

BUS 111 Keyboarding (3)
This course enables students to learn skills on the computer keyboard. The students will learn to key alphabetical and number keys by touch; basic skills in formatting letters, memos, and reports; and composing other business documents

BUS 121 Records Management (3)
Prerequisite: FST 131.
This course provides an introduction to the application of basic methods with emphasis on management, planning, and control of records.

BUS 124 Office Procedures (3)
Prerequisite: BUS 111; FST 130.
This course introduces the students to general office duties, including telephone techniques, receptionist duties, record-keeping, time management, and employment preparation.

BUS 141 Introduction to Business (3)
Prerequisite: FST 131.
This survey course is designed to orient students to the role of business in the American economic system. An overview of business ownership, management, marketing, data processing, human resources, accounting, finance, consumerism, and the economic environment of capitalism is provided.

BUS 142 Business Math (3)
Prerequisite: MTH 096; FST 131.
This course emphasizes mathematics used in business: percentages, interest, discounts, cost markup and markdown, taxes, checking accounts, insurance, and payroll with emphasis on proficient use of the calculator.

BUS 143 Business English (3)
This course introduces students to basic grammar and sentence structure used in the business world.

BUS 144 Human Relations (3)
This course is an examination and application of basic interpersonal communication skills. Students will investigate and examine attitudes, behavior, and cultural influences that affect job and school performance. It offers structured situations in which interpersonal relationships and communication skills are explored. The course is open to students in education, the health fields, and all others who wish to explore the dynamics of getting along with people.

BUS 145 Customer Relations and Service (3)
Students will learn the techniques and guidelines for making customer service a priority. This course introduces students to the customer service environment, essential personal skills, and communication skills and challenges in the world of business.

BUS 152 Fundamentals of Accounting (3)
Prerequisite: MTH 096.
This course is an introduction to accounting fundamentals. It includes journalizing, posting, worksheets, financial reports, and data processing for accounting.

BUS 180 Computers in Business (3)
Prerequisite: Basic keyboarding skills.
This course is an introduction to microcomputers in the business world. It emphasizes the use of software for processing business data, including word processing, spreadsheets, databases, and presentation software.

BUS 204 Business Law (3)
Prerequisite: FST 131.
This course introduces law and the legal process as they relate to business transactions such as contracts, sales, commercial paper and secured transactions. It also includes discussions of business ethics.

BUS 211 Business Internship (3)
Prerequisite: Must have successfully completed 45+ credit hours.
The course is for advanced business students who have completed the majority of their program requirements. The students will be employed in a position related to their degree program. All students will be required to work 100 hours at their job site. The interns will be responsible for weekly reports, work evaluations, completing a career portfolio, and other class-related activities assigned by the coordinating teacher.
Course Descriptions

BUS 214 Word Processing I (3)
Prerequisite: BUS 111, FST 130.
This course is a basic introduction to word processing. It includes application of the basic functions of the word processor.

BUS 216 Word Processing II (3)
Prerequisite: BUS 214.
A continuation of Word Processing I. Applies basic and advanced functions of word processing.

BUS 240 Personal Finance (3)
Prerequisite: FST 131; MTH 096; BUS 152.
This course creates an awareness of personal money management with particular emphasis on budgeting, borrowing, purchasing, investing, insurance, and other financial planning.

BUS 242 Small Business Management (3)
Prerequisite: BUS 152.
This course presents an overview of the basic management principles, financing, accounting, and legal requirements encountered by modern small businesses. It stresses characteristics of successful business operations and incorporates the uniqueness of business enterprises on the Navajo Nation. Students will create a business plan.

BUS 243 Business Communications (3)
Prerequisite: BUS 111, BUS 143, and ENG 101.
This course emphasizes the importance of skills in oral and written communication in the world of business, giving special attention to proofreading and mechanics of grammar.

BUS 246 Principles of Management (3)
Prerequisite: FST 131; ENG 101.
This course introduces vital aspects of supervisory management. It gives an overview of skills, functions, communications, employee problems, productivity management, and legal concerns related to supervisory tasks.

BUS 251 Financial Accounting (3)
Prerequisite: BUS 152.
This course covers the theory and practice of accounting in sole proprietorships, partnerships, and corporations. It emphasizes the accounting cycle, periodic reporting, receivables, payables, inventories, and accounting systems.

BUS 252 Managerial Accounting (3)
Prerequisite: BUS 251.
This course is a continuation of BUS 251 with emphasis on corporations, taxes, investments, and managerial approaches for decision-making.

BUS 254 Microcomputer Accounting (3)
Prerequisite: BUS 152
In this course, students use commercial accounting software for microcomputers. The course includes general ledger, accounts receivable, accounts payable, and payroll.

BUS 272 Marketing (3)
Prerequisite: FST 131; ENG 101; BUS 152; and either ECO 200 or ECO 201.
This course introduces students to basic marketing concepts and practices. Topics include the impact of external forces on marketing decisions, especially marketing on the Internet; marketing strategies; marketing aspects of business ethics and social responsibilities; and global marketing.

CHEMISTRY (CHM)

CHM 130 Fundamental Chemistry (4)
Prerequisite: ENG 100B, FST 131, and MTH 096.
Students receive a survey of modern chemistry and the relationship of chemical principles to familiar aspects of living, including topics relevant to Navajo culture. The faculty will discuss theories of atoms, molecules, chemical bonds, chemical reactivity, solutions, and the chemical basis of life. This course is suitable for allied health and education majors. This course meets for three hours lecture and three hours laboratory per week.

CHM 151 General Chemistry I (5)
Prerequisite: High school chemistry plus MTH 110 or equivalent or instructor’s permission.
The first semester of this two-semester sequence presents fundamental concepts of chemistry with an emphasis on theoretical and physical principles; atomic and molecular structure and theory; principles of chemical bonding, and their impact on the properties of gases, liquids, and solids. Laboratory experiments illustrate chemical principles, some of which are quantitative in nature, involving titrimetric and gravimetric methods. Instrumentation in this class includes use of the spectrophotometer. This course meets for four hours lecture and three hours laboratory per week.

Note: This course is designed for pre-professional, engineering and chemistry majors.
Course Descriptions

CHM 152 General Chemistry II (5)
Prerequisite: CHM 151 or equivalent.
This course is a continuation of CHM 151. Topics include physical states of matter, equations of state, phase transformations, solutions and colloids, chemical thermodynamics and kinetics, electrochemistry, ionic equilibrium, and instrumental analysis. This course meets for four hours lecture and three hours laboratory per week.

CHM 230 Fundamental Organic Chemistry (4)
Prerequisite: CHM 130 or equivalent or instructor’s permission.
In this course, students survey modern organic chemistry. Topics include structure, properties, and reactions of the various classes of organic chemicals, such as saturated and unsaturated hydrocarbons, alcohols, halides, carbonyls, and amines. Reaction mechanisms are introduced with examples such as simple synthesis and biochemical reactions. This course is designed for allied health and nursing majors. This class meets for three hours lecture and three hours of laboratory per week.

CHM 235 General Organic Chemistry I (4)
Prerequisite: CHM 152 or instructor’s permission.
This is the first course in a two semester sequence that will study the structure, physical properties, synthesis, and typical reactions of the various series of aliphatic, alicyclic, and aromatic compounds, with attention to reaction mechanisms and applications to living systems. This course meets for three hours lecture and three hours laboratory per week.
Note: This course is for pre-professional, engineering, and chemistry majors.

CHM 236 General Organic Chemistry II (4)
Prerequisite: CHM 235
This course is a continuation of CHM 235. Topics include spectroscopic applications in organic chemistry; condensation reactions of carbonyl compounds, rearrangement reactions, and mechanisms; and chemistry of fats, amines, proteins, and carbohydrates. This course meets for three hours lecture and three hours laboratory per week.

COMPUTER INFORMATION SYSTEM (CIS)

CIS 100 Windows (1)
Mini-course introduction to the Windows Operating Systems for personal computers, including optimization of file organization, personalization of the desktop, basic mouse operations, and program installation.

Beginning to intermediate use of Microsoft Excel. Students will create worksheets for budgets, financial planning and forecasting, and personal finance, including multiple worksheets, as well as create charts and work with the database function of Excel.

CIS 102 Data-base Management (1)

CIS 103 Computer Graphics (1)
Mini-course introduction to computer graphics, including business graphics with spreadsheet programs, free-hand drawing with mouse, editing graphics screens, transferring graphics between programs, and printing graphics. Students use microcomputers for program exercises throughout course.

CIS 106 Introduction to the Internet (1)
Mini-course introduction to the Internet. Emphasis on searching for academically and culturally relevant materials with a web browser and a search engine. Students also learn how to set up and use e-mail. Each student develops a home page and uses a microcomputer for class exercises throughout the course.

CIS 111 Introduction to Computers (3)
Prerequisite: ENG 100B, FST 131 and MTH 096
This course introduces business information systems and the uses of business application software with an emphasis on database and spreadsheet packages.

CIS 210 Systems Analysis and Design (3)
Prerequisite: CSC 150
Principles of information systems analysis and design using high-level development tools. Covers flow diagrams, PERT charts, and Gantt charts. Requires a case study (small-group) project. Three hours lecture and two hours laboratory per week.

COMPUTER SCIENCE (CSC)

CSC 140 Hardware Fundamentals (3)
Introduction to electronics as it applies to computers. Theory of computer hardware and how programs are implemented in that hardware. Practical skills of maintaining, upgrading, and building computers. Three hours lecture and two hours laboratory per week.
CSC 150 Programming Fundamentals (3)
Co-requisite: MTH 100.
This is the first programming course for CS majors—a re-introduction to computers from a programmer’s perspective. Topics include history of computers; social and ethical aspects of computers; working with files and folders; fundamentals of procedural programming (data types, variables, control structures, functions and arrays, input/output, built-ins); the use of pseudo code; high-level languages (interpreted and compiled); and the basics of software development. Three hours lecture and two hours laboratory per week.

CSC 170 Web Fundamentals (3)
Co-requisite: ENG 100B.
Web fundamentals for CS majors. How to create structured documents and share them on a network. HTTP, HTML, XML, and CSS. Media on the web: images, sound, animation, and text encodings. Security and usability, integrating programs and databases with web documents. Three hours lecture and two hours laboratory per week.

CSC 190 OS Fundamentals (3)
Co-requisite: CSC 150 or CSC 170.
Fundamentals of operating systems—theory and system administration using Linux or other POSIX compliant OS. Three hours lecture and two hours laboratory per week.

CSC 200 Object-Oriented Programming (3)
Prerequisite: CSC 150.
This course assumes that students are familiar with the basics of procedural programming. Students should already be able to write, from scratch, simple programs that use variables, conditionals, loops, and arrays. The course will begin with a review of this material. Then students will be introduced to the basics of object-oriented programming. Key notions are classes, objects, properties, and methods. Emphasis is on building programs using the object-oriented paradigm. Three hours lecture and two hours laboratory per week.

CSC 240 Network Fundamentals (3)
Prerequisite: CSC 150 or CSC 170.

CSC 295 Internship or Practicum (3)
Prerequisite: Departmental approval and at least 3 semesters of Computer Science.
The student will work with CS Faculty to customize an internship or practicum that will tie together, and go beyond, what the student has learned in the rest of the courses. This course would normally be taken in the student’s last semester. The student should have completed most of the required courses.

EARLY CHILDHOOD EDUCATION (ECE)

ECE 108 Field Experience I (2)
Prerequisite: ECE 111 and another ECE program core course.
This course is designed to assist students in applying content from coursework to the daily experiences of teaching in an early childhood setting. Students are expected to apply theory, materials, and research discussed in the semester’s coursework, assess applicability, and critique for best practices in teaching and learning for young children (birth through eight years old).

ECE 110 Field Experience II (2)
Prerequisite: Must be taken as an exit course during the last semester of completing the required ECE program core courses.
This course is designed to assist students in applying content from coursework to the daily experience of teaching in an early childhood setting. Students are expected to apply theory, materials, and research discussed in the semester’s coursework, assess applicability, and critique for best practices in teaching and learning for young children (through eight years of age).

ECE 111 Introduction to Early Childhood Education (3)
Prerequisite: ENG 101 or NAV 212.
This survey course covers major concepts across basic areas of study in early childhood education. Focuses on curriculum development in all areas, including literacy, numeracy, the arts, health, science, social skills, and adaptive learning for children through eight years of age. Integrates curriculum across content areas, using home language, experiences, and cultural values. Taught in Navajo.

ECE 116 Language and Cognitive Development (3)
Prerequisite: ECE 111.
This course covers the development of language and mental growth in children from birth to age eight. Focuses on the use of a variety of language strategies during adult-child interactions and facilitates dialogue between and among children to develop expressive language and thought. Develops knowledge of language assessment procedures and instruments to determine each child’s language strength. Taught in Navajo.

ECE 220 Creative Arts for Young Children (3)
Prerequisite: ECE 111.
This course focuses on the central role that the creative arts play as an overall design element for early childhood care programs. Students learn to use drawing, painting, sculpture, manipulative, drama, music, dance, and other artistic modalities in planning the
activities of children. Through the arts, guidance strategies are explored that foster responsibility, autonomy, self-reliance, and positive social interactions within the cultural framework of the child. Taught in Navajo.

**ECE 225 Child Growth and Development (3)**  
*Prerequisite: ECE 111.*  
This course covers main theories of and research on the physical and psychological development of young children. It also covers strategies for parents and teachers to encourage healthy development. Taught in English.

**ECE 235 K’é, Ádaa’ Ákowiindzin, Social Development, and Community (3)**  
*Prerequisite: ECE 111 or instructor’s permission.*  
This course examines the structure of healthy Navajo communities by focusing on clan and extended family systems. Structures are then expanded and related to other institutional support systems that provide for the welfare of children and their families. Taught in Navajo.

**ECE 245 Wellness and Special Needs for Young Children (4)**  
*Prerequisite: ECE 111.*  
This course focuses on the health, nutrition, and safety of young children. Students learn about basic safety and illness prevention. The course also covers inclusion of children with special needs. It requires throughout the semester application of the material in field experiences at a childcare center. Taught in English and Navajo.

**ECONOMICS (ECO)**

**ECO 111 Introduction to Economics (3)**  
*Prerequisite: ENG 101.*  
This course is an introduction to the study of capitalism, including macro and micro perspectives. The course draws comparisons with other forms of economic organization, including those of the Navajo.

**ECO 200 Principles of Macroeconomics (3)**  
*Prerequisite: MTH100; ENG 101, or concurrent enrollment.*  
This course is an introduction to macro-analysis of the capitalist system. Topics include national income accounting, aggregate demand and supply, inflation, unemployment, and monetary and fiscal policies. Topics relate to the productive capacity of the Navajo economy, international economics, and current economic issues. This course emphasizes the general education special requirements of intensive writing/critical thinking (IW/CI).

**ECO 201 Principles of Microeconomics (3)**  
*Prerequisite: MTH 100 and ENG 101 or concurrent enrollment.*  
This course is an introduction to micro-analysis of the capitalist system. Topics include utility theory and consumer choice, the theory of the firm, costs and producer choice, supply, demand and price determination, perfect and imperfect markets, business regulations, markets for resources, and the determination of wage rates. This course emphasizes the general education special requirements of intensive writing/critical thinking (IW/CI).

**ECO 262 Navajo Resources and Economic Development (3)**  
*Prerequisite: ENG 101 or concurrent enrollment.*  
This is a basic economic development course. It treats the economic development of less developed countries. Topics include theories of economic development: Marxist theory, Classical theory, Rostow’s takeoff theory, savings, investment and capital accumulation, population growth and food supply, and the importance of Navajo resources in the economic development on the Navajo Nation.

**EDUCATION (EDU)**

**EDU 200 Foundations of Education (3)**  
*Prerequisite: ENG 101; NAV 101 or 211.*  
The course examines the philosophical, sociocultural, historical, and legal foundations of education. Students explore methods and materials, bilinguals and bicultural programming, and teaching careers, with particular emphasis on Nation education.

**EDU 238 Children and Youth Literature (4)**  
*Prerequisite: ENG 101; NAV 101 or 211.*  
This course provides an overview of prose and poetry for K-12 learning environments with special attention to Navajo Nation and Indigenous cultures. Emphasis is placed on understanding the purpose and content of literary works to encourage literacy, life-long love of reading, critical thinking, and creativity. Ways to promote the development and assessment of reading skills are examined.

**EDU 240 Introduction to Special Education (3)**  
*Prerequisite: ENG 101; NAV 101 or 211.*  
This course includes an overview of the history, current trends, and future directions of special education. The course covers federal legislation and policies, learning about disabling conditions, classroom integration/inclusion, and social issues.
EDU 261 Technology in Education (3)  
**Prerequisite:** ENG 101; NAV 101 or 211.  
This course offers opportunities to increase computer application skills and understand how technology can be used to enhance learning in K-12 classrooms. Students will use technology to organize instruction, facilitate group and individual instruction, and assess student learning. Projects require the use of office and educational software as well as digital and video cameras.

EDU 290 Methods and Materials in Navajo Education (3)  
**Prerequisite:** FST 131 and ENG 100B.  
This course examines K-8 methods and materials that relate to teaching Indigenous students, with special attention to Navajo Nation schools. It provides opportunities for students to improve their understanding of the roles and responsibilities of an elementary education teacher. Students assess the quality and usefulness of methods and materials.

EDU 292 Bilingual-Bicultural Education and Curriculum Critique (3)  
**Prerequisite:** FST 131 and ENG 100B.  
This course presents bilingual-bicultural K-8 teaching and learning theories and policies for Indigenous students, with special attention to Navajo Nation schools. It provides opportunities for students to improve their understanding of bilingual-bicultural issues through analysis of programs as well as through experiences in schools and communities.

EDU 297 Practicum in Education (1)  
**Prerequisite:** ENG 101; NAV 101 or 211; any two EDU courses; Navajo Nation Tribal Background Check; and State of Arizona Fingerprint Clearance Card.  
Through Nitsáhákees, Nahat’á, Iiná, Siihasin, this course is designed to provide an opportunity for practical application of education courses in a K-12 setting. The course includes 24 hours of field experience as well as classroom experience conducted as a seminar. The seminar focuses on instructional approaches, learning styles, and broader issues associated with teaching and learning.

EDU 345 Understanding Human Development in Schools (3)  
**Prerequisite:** Acceptance in the BA Elementary Education Program.  
This foundations course introduces pre-service teachers to educational theories to help them understand how children attempt to “make sense” of information and events that shape learning and development in their lives at school as well as outside the school environment. Navajo and Non-Navajo perspectives of how children learn and develop are studied with a focus on students from non-English-language backgrounds.

EDU 352 Methods for Teaching Diné Educational Philosophy in K-8 Schools (3)  
**Prerequisite:** Acceptance into the BA Elementary Education Program.  
This course examines Diné Educational Philosophy and how it can be applied inside and outside of schools. Teacher candidates explore Navajo perspectives on learning, teaching, classroom management, parental and community involvement, and K’é. Instruction is in Navajo and English.

EDU 353 Diversity in Navajo and American Indian Education (3)  
**Prerequisite:** Acceptance in the BA Elementary Education program.  
This course surveys theories on Native student learning and empowerment with implications for Navajo and American Indian educational program development. It examines factors that affect relations among student learning, schools, other social institutions, communities, language, culture, and power; teaching and assessment strategies for addressing differences among students; and strategies for maintaining effective home-school and community-school relations.

EDU 354 Emergent Literacy, Language Learning, and Assessment in Bilingual/ESL Settings (3)  
**Prerequisite:** Acceptance in the BA Elementary Education Program.  
In this course, pre-service teachers are introduced to ways of understanding home and school language and literacy as a part of self-expression. Literacy across the disciplines and in Language Arts K-8 classrooms will be studied. The focus is on how the emergent literacy and language acquisition of non-English-language-background students can be observed and supported by elementary teachers in Navajo Nation schools. Topics covered include language and literacy learning, developing and organizing instruction, self-understanding and self-expression, feedback, and assessment of learning.

EDU 358 Field Experience I (2)  
**Prerequisite:** Acceptance into the BA Elementary Education program.  
This 6-week field experience provides the pre-service teacher with opportunities to apply course content in a K-8 classroom and actively reflect on the teaching profession. A mentor teacher and CDTE supervisor provide guidance during this learning experience. The pre-service teacher will engage in daily classroom activities and teach and assess lessons with individuals and small groups.
EDU 360 Special Education in Indigenous Classrooms (3)
Prerequisite: Acceptance in the BA Elementary Education Program and successful completion of EDU courses 345-358
This course expands the knowledge and practical applications of skills and strategies needed to meet the diverse needs of learners from non-English-language backgrounds in general education classrooms, particularly on the Navajo Nation. Emphasis is on federal legislation and policies; identifying, assessing, and implementing classroom learning for children with diverse needs; principles of classroom organization and management; and effective teaching strategies and methods. Course content includes lectures, readings, discussions, and projects focusing on pre-service teachers’ knowledge and skills to meet the diverse needs of learners in a general education classroom and to develop strategies in differentiated instruction.

EDU 361 Methods for Language Diverse Students I (3)
Prerequisite: Acceptance in the BA Elementary Education Program and successful completion of EDU courses 345-358.
This course introduces pre-service teachers to instructional strategies which enhance language learning for K-8 non-native speakers. K-8 Navajo-as-a-second-language (NSL) learners will be studied in depth along with the experiences of other groups learning a second language. In addition, pre-service teachers will explore factors that have excluded the Navajo language from K-8 schools and ones that now make access possible. The pre-service teacher will develop an understanding of the general characteristics of K-8 second-language learners, and learn how to evaluate oral and written language proficiencies. They will demonstrate proficiency in preparing and teaching lessons that utilize methods and materials for learning oral and written second language.

EDU 362 Integrated Elementary Teaching Methods for Bilingual/ESL Classrooms I (3)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU 345-358.
This course introduces integrated methods, strategies, and materials for teaching science, math, and social studies in K-8 classrooms. Candidate teachers will apply appropriate state, tribal, and common core standards to design inquiry-based lessons with cooperative learning strategies. They will apply science, math, and social studies concepts to explore issues in local communities.

EDU 374 Bilingual/ESL Reading Methods, Management and Assessment (3)
Prerequisite: Acceptance in the BA Elementary Education Program and successful completion of EDU courses 345-358.
The pre-service teacher will study the teaching of reading instruction for limited-English-proficient students in K-8 schools, particularly on the Navajo Nation. They will examine the reading process, comprehending a variety of texts and instructional strategies, and assessing student learning. They will gain a greater understanding of children’s literature and how it can be utilized in the classroom. Pre-service teachers will plan, select, and collect materials, develop appropriate goal-setting, and assess students’ reading skills.

EDU 378 Field Experience II (2)
Prerequisite: Acceptance in the BA Elementary Education Program and successful completion of EDU courses 345–358.
This 6-week field experience provides the pre-service teacher an opportunity to apply course content in a K-8 classroom and actively reflect on the teaching profession. A mentor teacher and CDTE supervisor provide guidance during this learning experience. The pre-service teacher will engage in daily classroom activities and teach and assess lessons with whole groups.

EDU 474 Bilingual/ESL Writing Methods, Management and Assessment (3)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses EDU 345–378.
In this course, pre-service teachers will develop their own personal philosophy about teaching writing, participate in activities that develop their own writing and practice, record and acquire a variety of techniques and methods for teaching and assessing limited-English-proficient K-8 students in Navajo Nation schools. They will gain facility with the writing process, six-trait writing instruction and assessment, writing portfolios, a variety of assessment methods, and a variety of options for publishing student writing. Pre-service teachers will experience the importance of integrating writing across the content areas as a tool for learning and as a subject of study.

EDU 475 Methods for Language Diverse Students II (3)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345-378.
This course prepares pre-service teachers to understand language acquisition and language learning in a K-8 setting. Pre-service teachers will gain knowledge of debates and processes of inquiry central to the elementary disciplines (i.e., advantages and limitations of teaching Navajo via situational, immersion, and/or second-language teaching approaches). Ways of teaching K-8 subjects in the target language will be explored. Pre-service teachers will develop lesson plans that have clearly defined instructional objectives and employ a variety of instructional approaches, strategies, techniques, and assessment options.
EDU 476 SEI/ESL for Linguistically Diverse Learners in Bilingual Settings (3)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345–378. This course introduces theories related to teaching children who are learning a second language. The purpose is to prepare teachers to work with children who experience the languages of Navajo and English and must gain competency in both to be a part of their community and to have options in schooling and when selecting a career. This course examines immersion topics of instructional SEI/ESL methods and strategies, assessment, feedback, and the contexts in which languages are learned and used. This course follows the curricular framework for Sheltered English Immersion instruction in accordance with the Arizona State Department of Education.

EDU 477 Integrated Elementary Teaching Methods for Bilingual/ESL Classrooms (3)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345–378. This course introduces integrated methods, strategies, and materials for teaching science, math, and social studies in K-8 classrooms. Candidate teachers will apply appropriate state, tribal, and common core standards to design inquiry-based lessons with cooperative learning strategies. They will apply science, math, and social studies concepts to explore issues in local communities.

EDU 478 Field Experience III (2)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345 – 378. This 6-week field experience provides the pre-service teacher opportunities to apply course content in a K-8 classroom and actively reflect on the teaching profession. A mentor teacher and CDTE supervisor provide guidance during this learning experience. The pre-service teacher will engage in daily classroom activities and teach and assess a thematic unit with whole groups.

EDU 487 Indigenous Culture-Based Education: International Seminar (3)
This seminar will provide an opportunity for students from multiple sites to engage in the comparative study of issues associated with the education of Indigenous peoples and communities on an international scale with an emphasis on the role of language and culture through a review of educational practices and theories that have emerged from a variety of sources. Is offered every other year in tandem with EDU 488 Indigenous Culture-based Education: International Seminar.

EDU 488 Indigenous Well-Being through Education: International Seminar (3)
Cultural perspectives on human development and well-being of indigenous peoples. Designed to promote, nurture, explore and understand the influence of culture on the indigenous person. Of a special interest to educators in schools serving indigenous students regarding cultural understandings and change in a historical and contemporary context. Is offered every other year in tandem with EDU 487 Indigenous Culture-based Education: International Seminar. Will next be schedule for fall 2014.

EDU 496 School Law (2)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of EDU courses 345–378. This course explores legal actions and theories applied in Navajo Nation schools. The Navajo language, culture, and philosophy are integrated and addressed through the course. Pre-service teachers will gain a greater understanding of how to protect the legal rights of students, teachers, and the schools on the Navajo Nation by examining the legal system. There will be discussions of practical guidelines to prevent litigation.

EDU 498 Student Teaching (8)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of all BAEE courses except EDU 496 and EDU 499. This course covers the final semester of the senior year. Pre-service teachers are placed in a K-8 school. They will be expected to show understanding and application of pupil management, planning and delivery of instruction, and assessment.

EDU 499 Diné Education Seminar (2)
Prerequisite: Acceptance into the BA Elementary Education Program and successful completion of all BAEE courses except EDU 496 and EDU 498. This is a capstone course in which pre-service teachers reflect upon their experiences in student teaching and review their commitment to a career in Elementary Education. During this semester, the pre-service teachers, as cohort members, will share their experiences in schools—lessons learned, current dilemmas, and joys experienced. Pre-service teachers will create, complete, and present a professional portfolio. They will also conclude preparation for the AEPA Professional and Subject Matter standards exams and show completion of or a scheduled date for taking the exam.

ENGINEERING (EGR)

EGR 105 Electricity I (2)
Prerequisite: ENG 100B or taken concurrently. This course introduces students to the concepts associated with electricity, such as electricity standards, dimensions, and circuits.
EGR 110 Electricity II (2)
Prerequisite: EGR 105.
This course is a continuation of Electricity I. Students in this course will learn about direct current (DC), alternating current (AC) theory, and circuits (series, parallel, and combination).

EGR 111 Introduction to Engineering (2)
Prerequisite: MTH 100 or equivalent.
A broad survey of the various fields of engineering and an in-depth look at the disciplines of study needed to pursue a career in engineering. Particular attention given to measurement and calculation with an introduction to computing and the BASIC programming language.

ENGLISH (ENG)

ENG 100A Communication Workshop I (3)
Prerequisite: FST 133 or placement test.
This course develops the students’ writing abilities (specifically, the writing of paragraphs), with additional effort focused on grammar, vocabulary building, and mechanical skills. Narrative and descriptive writing are emphasized. (IP grade applicable).

ENG 100B Communication Workshop II (3)
Prerequisite: ENG 100A or placement test.
This course advances students’ abilities to write well-crafted and grammatical essays, with appropriate and effective word choice. Elements of expository prose are emphasized. Advanced grammar and other discrete skills are taught as necessary. (IP grade applicable).

ENG 101 Freshman English I (3)
Prerequisite: ENG 100B or placement test.
Emphasizes critical reading and writing to develop necessary college level communication skills. One guided research paper is required.

ENG 102 Freshman English II (3)
Prerequisite: ENG 101 with a grade of C or greater.
Emphasizes development of critical, analytical, and argumentative skills through reading, writing, and discussion. Continues research writing and requires one research paper.

ENG 121 Speech Communication (3)
Prerequisite: ENG 101 and FST 131.
A study of principles, cultural dimensions, and techniques of public speaking. Students prepare and present speeches.

ENG 131 Reading and Writing for Special Purposes (3)
Prerequisite: FST 131 and ENG 100B.
This course introduces students to techniques of reading and analyzing materials. Addresses topics of current public interest.

ENG 180 Technical Writing (3)
Prerequisite: ENG 101.
Instruction in writing and analysis of proposals, technical descriptions and articles, manuals and reports, and business letters.

ENG 212 Creative Writing: Poetry (3)
Prerequisite: ENG 101 or concurrent enrollment.
An introduction to techniques of writing poetry. Introduces forms, elements of poetry, and the creative writing process.

ENG 213 Creative Writing: Short Fiction (3)
Prerequisite: ENG 101 or concurrent enrollment.
This course is an introduction to the writing of short fiction. Emphasizes the elements of short fiction.

ENG 231 Introduction to Literature (3)
Prerequisite: ENG 102.
Study of poetry, short stories, drama, essays, and novels from a variety of perspectives. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

ENG 233 Introduction to Native American Literature (3)
Prerequisite: ENG 102.
A survey of American Indian literature with emphasis on contemporary writers and oral tradition. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

ENG 234 Literature of the Southwest (3)
Prerequisite: ENG 102.
A survey of selected works by Southwest authors in a variety of genres to promote appreciation and understanding of this multicultural region. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

ENG 241 Journalism and Mass Media (3)
Prerequisite: ENG 101.
This course is designed to help students survey the fields of communications and mass media and to acquire the skills needed to recognize, develop, and write news stories. Print media, visual media, digital media, advertising, production and media ethics are included in this course.

ENG 297 Journalism Practicum (3)
Prerequisite: ENG 101, either concurrent enrollment in ENG 241 or completion ENG 241 with grade of C or better.
Hands-on experience producing a college magazine. Emphasis on planning, editorial writing and editing, news judgment, page design, computer pagination, photo usage, headline writing,
advertising/business management, staff/newsroom management, and legal and ethical considerations. Emphasis may vary according to individual student goals.

ENVIRONMENTAL SCIENCE AND TECHNOLOGY (ENV)

ENV 101 Introduction to Environmental Science (4)
Prerequisite: FST 131, ENG 100B, MTH096.
This course presents basic information for understanding environmental problems and making good personal choices. It surveys sources, types, and effects of pollutants on the environment and human health as well as ways to control pollutants and to mitigate pollutant damage. Special emphasis on the local environment and public health issues incorporates Navajo views of the environment, science, and health. Students research contemporary issues of health, diet, consumer products, and resource management. This course meets for three hours lecture and three hours laboratory per week.

ENV 103 Introduction Cartography/GPS/GIS (1)
Prerequisite: ENG 100B.
This course is a basic introduction to cartography, the Global Positioning System (GPS) using hand-held GPS receivers and the Geographical Positioning System (GIS) using ArcView.

ENV 105 Climate Change for Tribal Peoples (4)
Students are introduced to scientific evidence of global climate change especially relating to Native American tribes, including ecological changes on tribal lands. They explore conditions causing climate change and the influence of human behaviors. They also investigate actions that can be taken locally to mitigate the impacts of climate change. This course meets for three hours lecture and three hours laboratory study per week, which includes field studies and possible weekend field trips. Emphasizes reading, note taking, summarizing, and reporting.

ENV 110 Introduction to Soils/Lab (4)
Prerequisite: ENV 101.
This course introduces students to the physical, chemical and biological properties of soils, the origin, classification, and distribution of soils and their influence on people and food production, and the conservation and environmental impact of soil use.

ENV 123 Introduction to Physical Hydrology (3)
Prerequisite: ENG 100B.
This course is a qualitative introduction to the dynamics of surface and groundwater from an intuitive perspective, laying the foundation for understanding the physical mechanisms by which water is transported throughout a hydrologic system. Connectivity with the non-aquatic physical environment is also explored.

ENV 160 Introduction to Geographic Information System (3)
Prerequisite: Student must be accepted into a Summer Research Program.
During this course, students are introduced to Geographic Information System (GIS) software using the ArcInfo program. Faculty covers GIS planning methods and the uses and analysis of geographic and attributes data. Students are required to apply what they have learned to summer research projects. The course also includes an introduction to ArcInfo data commands and the ArcView display program. Students must use GIS in a summer research project and in a final presentation.

ENV 216 Irrigation and Drainage (3)
Prerequisite: ENV 123.
This course looks at design, evaluation and management of irrigation and drainage systems. It addresses concepts and processes such as soil-water-plant relationships, evapotranspiration and infiltration, water requirements, effective water use, system scheduling and planning.

ENV 218 Water Resources Technology (4)
Prerequisite: GLG 101 and MTH 110 or above.
In this course, students are introduced to the concepts of hydrology, water law, water resources management, and planning with special focus on the Navajo Nation.

ENV 225 Principles of Agroecology (4)
Prerequisite: ENV 101 or BIO 182.
This course introduces ecology in the analysis of agriculture and sustainable systems, with an emphasis on the fundamentals of agriculture: soils, plants, water, and the geographical and cultural context of farming systems. Topics include traditional farming, farm development and design, and sustainable farming practices.

ENV 230 Environmental Sampling and Monitoring (4)
Prerequisite: BIO 181 or BIO 182.
Covers the principles of geology, ecology, and introduces methods and techniques in environmental sampling and monitoring for water, air, and solids. This course meets for three hours lecture and three hours lab.
FINE ARTS (FA)

FA 101 Introduction to Theater (3)
A survey of theater, including basic elements and principles of production, styles, and historical perspectives of theater, dramatic literature, and criticism.

FA 102 Introduction to Acting and Storytelling (3)
The course will incorporate fundamental techniques of acting and storytelling through physical and vocal expression, improvisation, and monologue scene work, with an emphasis on characterizations and performance. A class performance of a dramatic production will be the course culmination.

FA 112 Basic Design (3)
This course involves creative, imaginative, and perceptual problem-solving using design, color theory, and critical evaluation. It covers two- and three-dimensional design projects for intuitive thinking and problem-solving. Two hours lecture and three hours lab per week.

FA 115 Beginning Drawing (3)
This course develops basic concepts, graphic sensitivity, and compositional skills in drawing. Two hours lecture and three hours lab per week.

FA 120 Beginning Ceramics (3)
Explorations in coil, slab, mold, and wheel methods. Introduction to firing and glazing techniques. Two hours lecture and three hours lab per week.

FA 121 Beginning Photography (3)
This introductory course in photography as an art medium includes operating a camera, developing black-and-white film, and enlarging negatives to make prints. Includes analysis of aesthetics and the historical background of photography during student critiques. Two hours lecture and three hours lab per week.

FA 131 Beginning Sculpture (3)
Introduction to media, materials, methods, and techniques in sculpture as an art medium. Emphasis on design. Two hours lecture and three hours lab per week.

FA 180 Introduction to Commercial Art (3)
Introduction to principles and processes of commercial art, including graphic design, layout, lettering, typography, illustration, and portfolio preparation. Two hours lecture and three hours lab per week.

FA 181 Digital Photography and Image Editing (3)
Prerequisite: Reading proficiency; Computer literacy or instructor’s permission.
An introductory course in the creation and manipulation of digital images. Students are introduced to the concepts and techniques of digital cameras and Adobe Photoshop to create, edit, and manipulate images. Focus on artistic aspects of the medium using the elements and principles of design. Two hours lecture and three hours lab per week.

FA 190 Beginning Painting (3)
Prerequisite: FA 112.
This course offers an introduction to practical applications of painting, emphasizing the personal exploration of ideas; also covers concepts such as functional color theory and atmospheric perspective. Two hours lecture and three hours lab per week.

FA 215 Intermediate Drawing (3)
Prerequisite: FA 115.
A second-semester course on drawing as an art medium. Emphasis on figures. Two hours lecture and three hours lab per week.

FA 221 Intermediate Photography (3)
Prerequisite: FA 121 or instructor’s permission.
A second-semester course on photography as an art medium. Refines camera and darkroom techniques. Includes critique of photographs, the historical background of photography, photographic vision, and the aesthetics of photography to help students develop individual styles. Two hours lecture and three hours lab per week.

FA 227 Art for Teachers (3)
This course is an introduction to methods and theories of art education for early childhood and elementary school, including art appreciation and art history.

FA 245 Life Drawing (3)
Prerequisite: FA 115 and FA 215.
An introduction to the development of skills in drawing the basic forms and gestures of the human figure. Two hours lecture and three hours lab per week.

FA 290 Intermediate Painting (3)
Prerequisite: FA 190 or equivalent.
This second-semester course in painting as an art medium offers further application of painting concepts and physical processes. Students are encouraged to show independent initiative in developing expertise in painting. Two hours lecture and three hours lab per week.
FOUNDATION STUDIES (FST)

FST 100 College Success Skills (3)
Prerequisite: Placement tests or instructor’s permission.
This course offers students opportunities to improve their study habits and skills and to develop effective thinking and planning necessary for success in college and in life. The course includes practice in academic skills (such as note taking, test taking, time management, and use of the library) as well as skills and strategies benefiting students in their everyday lives (reading labels and contracts, writing basic business letters, being proactive with others, taking responsibility for one’s actions, and researching and utilizing available resources). Students also begin exploring career options.

FST 129 Foundations of Reading I (3)
Prerequisite: Placement test.
Introduces a variety of reading skills and strategies, focusing on literal comprehension. Reading selections reflect pre-college-level reading demands and include topics related to Diné life and culture. (IP grade applicable).

FST 130 Foundations of Reading II (3)
Prerequisite: FST 129 or placement test.
Reinforces a variety of reading skills and strategies. Reading selections reflect pre-college-level reading demands and include topics related to Diné life and culture. (IP grade applicable).

FST 131 Advanced Reading (3)
Prerequisite: FST 130 or placement test.
Stresses higher-order cognitive skills through critical reading and comprehension. Competencies to be mastered include expressing implied main ideas, recognizing biased language, distinguishing between fact and opinion, locating supporting evidence, and utilizing a reading/study method. Emphasis placed on Native American reading materials. (IP grade applicable).

FST 133 Applied Communication I (3)
Prerequisite: Placement test.
This course uses the writing process to develop the students’ sentence-level writing skills as well as basic grammar, vocabulary building, and mechanical knowledge and skills. (IP grade applicable).

GEOLOGY (GLG)

GLG 101 Indigenous Physical Geology (4)
Prerequisite: ENG 100B, FST 131, and MTH 096.
High-school chemistry or physics is recommended.
Provides basic principles of geology and applications of chemistry and physics to geological problems with an emphasis on the geology of the Navajo Nation and topics of significance to Navajo people. Topics include rocks, minerals, regional landforms and structures, and earth processes, earth systems, and geologic time. This course meets for three hours lecture and three hours lab. Students will participate in field studies and possible weekend field trips.

GLG 102 Historical Geology (4)
Prerequisite: GLG 101.
Applies geologic principles to the interpretation of earth history and the evolution of life. This course meets for three hours lecture and three hours lab. Students will participate in field studies and possible weekend field trips.

GLG 203 Environmental Geology (4)
Prerequisite: GLG 101, CHM 151, and MTH 110 or above.
This course provides a quantitative study of environmental problems involving solid-earth systems and human interactions. Case studies concerning the Navajo Nation and the arid Southwest are given special emphasis. This course meets for three hours lecture and one three-hour lab per week. Some weekend field trips may be required.

GLG 229 Field and Laboratory Geology for Teachers (3)
Prerequisite: One college-level science course.
This modular (project-oriented) course in the principles of geology and methods of geology education is for practicing K-12 teachers. Provides hands-on field and lab experience to foster creative and technical skills that teachers require to develop student-centered lessons. Examples and activities are drawn from the Navajo land and environment, the Diné Education Philosophy, and the National Science Education Standards. Graduate-level credit may be arranged through a cooperating university. Some weekend field trips may be required.
HEALTH EDUCATION (HEE)

HEE 110 Introduction to Wellness (3)
An introductory class in wellness that covers health, cultural diversity, relationships, sexuality, stress management, substance use and abuse, nutrition, mental health, lifestyles, aging and death, alcoholism, communicable and chronic diseases, environmental health, and health care systems.

HEE 111 Personal and Community Health (3)
Explores how to achieve, maintain, and promote wellness. Also covers prevention and control of diseases, nutrition, consumer health, and ecology.

HEE 112 First Aid/CPR (3)
Techniques in basic first aid and CPR. Students receive certification upon successful completion of the course.

HISTORY (HST)

HST 101 World Civilization I (3)
Prerequisite: ENG 101 or concurrent enrollment. This course is a historical survey of Middle Eastern, Asian, Western, Native American, and African history from the earliest human civilizations to the European invasion of the Americas. This course emphasizes the general education special requirements in ethnic/race/gender and historical and global awareness (ERG, HA, and GA).

HST 102 World Civilization II (3)
Prerequisite: ENG 101 or concurrent enrollment. This course is a historical survey of Middle Eastern, Asian, Western, Native American, and African history from the European invasion of the Americas to the present. This course emphasizes the general education special requirements in ethnic/race/gender and historical and global awareness (ERG, HA, and GA).

HST 135 American History: Prehistory to 1865 (3)
Prerequisite: ENG 101 or concurrent enrollment. This course is a historical survey of the American experience from the period of European exploration to the end of the Civil War. This course emphasizes the general education special requirements in ethnic/race/gender and historical awareness (ERG and HA).

HST 136 American History: 1865 to Present (3)
Prerequisite: ENG 101 or concurrent enrollment. This course is a historical survey of the American experience from the conclusion of the Civil War to the present. This course emphasizes the general education special requirements in ethnic/race/gender and historical awareness (ERG and HA).

HST 201 Colonial Latin America (3)
Prerequisite: ENG 101. This course is a survey of the history and peoples of Latin America beginning with their origins, including European contacts, conquests, and the colonial era, and ending with the struggles for independence. The course emphasizes general education special requirements of intensive writing/critical thinking, and ethnic/race/gender and historical awareness (IW/CI, ER, and HA).

HST 202 Modern Latin America (3)
Prerequisite: ENG 101. This course is a historical survey of the history and peoples of Latin America from their independence to the present. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

HST 234 History of Native Americans: Precontact to the Modern Age (3)
Prerequisite: ENG 101. This course is a historical survey of Native American history from pre-Columbian times to the present. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

HST 245 History of the American West (3)
Prerequisite: ENG 101. This course is a historical survey of the American West from pre-Columbian times to the present. This course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

HST 246 Southwestern Borderlands (3)
Prerequisite: ENG 101. This course focuses on the cultural, political, socioeconomic, and ethnic evolution of the Southwestern Borderlands from prehistory to the present. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

HST 289 Selected Topics in History (1-3)
Prerequisite: ENG 101 or instructor’s permission. This course covers selected topics in history which are identified when the course is scheduled. This course may be repeated if there is a change in content.
HUMANITIES (HUM)

HUM 105 Introduction to Logic and Critical Thinking (3)
Prerequisite: ENG 100B or placement test and FST 131, or the reading proficiency requirement.
Introduction to basic principles of logical analysis. Students present and evaluate arguments in ordinary language using critical thinking and appropriate standards of evidence.

HUM 131 Music Appreciation (3)
No prior music experience necessary.
Designed to develop listening skills for increased listening pleasure. Utilizes community resources for live performances as well as audiovisual material. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

HUM 151 Intercultural Perspectives on the Southwest (3)
Prerequisite: ENG 101 or concurrent enrollment.
The course examines the modern literary and artistic works of Indigenous, Hispanic, and Euro Americana, both men and women, of the Southwest.

HUM 152 Film Appreciation (3)
A course in film history and the special qualities of film communication. Discusses the effects and technical aspects of film. Several American film genres are examined. Emphasizes the development of critical viewing abilities. Includes readings about film, film viewing, lectures, discussions, and a two-hour lab per week for film viewing.

HUM 221 Introduction to Philosophy (3)
Prerequisite: ENG 101 and FST 131.
An introduction to major issues in philosophy. Readings and discussion of writings by major philosophers. The course emphasizes the general education special requirement of intensive writing/critical thinking (IW/CI).

HUM 250 The Arts and Society (3)
Prerequisite: ENG 101 or concurrent enrollment.
A comparative study of humanity’s need for art and the attempts to create through the visual arts, literature, philosophy, music, and history. Designed to develop an appreciation for and understanding of European and modern American culture as artistic and creative expression. The student gains insight into the process of creating and understanding meaning through symbols or art.

MATHEMATICS (MTH)

MTH 096 Basic Mathematics (4)
This course will cover Whole Numbers, Fractions, Decimals, Geometry, Percent, Real Numbers, Equations and Inequalities. (IP grade is applicable).

MTH 100 Intermediate Algebra (4)
Prerequisite: Placement test or minimum grade of “C” in MTH 096.
This course will cover Graphs of Linear Equations, Exponents and Polynomials, Factoring, Rational Expressions, Systems of Linear Equations, Roots and Radicals. (IP grade applicable).

MTH 106 Survey on College Mathematics-The Art of Math (3)
Prerequisite: advisor and instructor’s approval.
This course will cover important concepts in MTH 110 and MTH 114, set theory, number system, functions, exponential models, equations, but will not focus on mathematical techniques. This course will emphasize the origin of mathematical ideas and its relation with Navajo philosophy. This course is designed as a replacement of MTH 110 or MTH 114 for non-traditional students and for students whose majors do not require mathematical skills and techniques.

MTH 110 College Algebra (4)
Prerequisite: Placement test or minimum grade of “C” in MTH 100 or instructor’s permission.
Covers functions and their graphs, including linear, quadratic, polynomial, rational, exponential, and logarithmic functions. Also covers the algebraic concepts necessary for the study of these functions. Four lecture hours per week.

MTH 111 College Trigonometry (3)
Prerequisite: Minimum Grade of “C” in MTH 110 or instructor’s permission.
Trigonometric functions, graphs, identities, inverse trigonometric functions, equations, applications, law of sines, and cosines. Two lecture hours and two workshop hours required per week.

MTH 114 College Mathematics (4)
Prerequisite: Placement test or minimum grade of “C” in MTH 100 or instructor’s permission.
Contemporary quantitative methods, especially descriptive statistics, elementary probability, statistical inference, linear and exponential models of growth and decay, and discrete models. Four lecture hours per week.
MTH 118 Finite Mathematics (3)
Prerequisite: Minimum grade of “C” in MTH 110 or instructor’s permission.
Matrices and the solution of linear systems, inequalities, linear programming, permutations and combinations, discrete probability, and a brief introduction to descriptive statistics.

MTH 180 Mathematics for Elementary School Teachers I (3)
Prerequisite: Grade of “C” or better in MTH 110 or MTH 114.
This course offers an in-depth look at our base 10 numeration system. It includes a study of number operations, properties of numbers and operations, computation, algorithms, and other numeration systems. Problem-solving is emphasized throughout.

MTH 181 Mathematics for Elementary School Teachers II (3)
Prerequisite: Grade of “C” or better in MTH 180.
This course investigates statistics, probability, measurement, and geometry. The geometry portion includes plane and solid geometry, geometric constructions, coordinate geometry, and transformational geometry. Problem-solving is emphasized throughout.

MTH 190 Pre-Calculus (5)
Prerequisite: Minimum of grade of “C” in MTH 110 or instructor’s permission.
Offers in-depth preparation for students in science, math, and engineering. Services as a prerequisite for calculus. Covers algebraic and geometric properties of functions (polynomial, rational, exponential logarithmic, and trigonometric); sequences and series; methods of proof; the binomial theorem; topics in analytic geometry; matrices; polar coordinates; complex numbers; vectors; and an introduction to limits. Five hours lecture per week.

MTH 191 Calculus I (5)
Prerequisite: Minimum grade of “C” in MTH 190 or instructor’s permission.
Introduction to calculus with an emphasis on problem-solving. Limits and continuity, differential and integral calculus of one variable, the fundamental theorem of calculus, with applications in business, social and behavioral sciences, and the natural sciences. Five hours lecture per week.

MTH 192 Calculus II (4)
Prerequisite: Minimum grade of “C” in MTH 191 or instructor’s permission.
Techniques of integration, applications of integration, parametric equations, polar coordinates, sequences, and series. Five hours lecture per week.

MTH 210 Discrete Math (3)
Prerequisite: MTH 110 or instructor’s permission.
Set theory, combinatorics, probability, graphs theory, and finite geometry. Topics relevant to Computer Science majors.

MTH 213 Statistics (4)
Prerequisite: Minimum grade of “C” in MTH 110 or MTH 114 or instructor’s permission. Cross listed with PSY 213.
Representation of data, measures of central tendency; standard deviation; sampling; normal, chi-square, student’s t, and F distributions; and regression and correlation. Basic concepts of experimental design and statistical analysis involved in quantitative research.

MTH 220 Calculus III (4)
Prerequisite: Minimum grade of “C” in MTH 192 or instructor’s permission.
Vector analysis, differentiation and integral calculus of several variables with applications. Five hours lecture per week.

MTH 221 Ordinary Differential Equations (3)
Prerequisite: Minimum grade of “C” in MTH 192 or instructor’s permission.
First-order differential equations, applications, higher-order differential equations, numerical methods, with applications in physical, biological, and social and behavioral science.

MTH 225 Elementary Linear Algebra (3)
Prerequisite: MTH 110 or instructor’s permission.
An introductory course for all science, engineering, and mathematics education majors. Topics include matrices, system of linear equations, determinants, vector spaces, linear transformations, and eigenvalues.
Course Descriptions

NAVAJO LANGUAGE (NAV)

NAV 101 Navajo as a Second Language I (4)
First semester course. Aimed at mastery of pronunciation, identification of sounds, thought patterns, and vocabulary. Students learn simple Navajo conversation. An individual, one-hour conversational practice workshop is mandatory for each class session. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

NAV 102 Navajo as a Second Language II (4)
Prerequisite: NAV 101.
Second semester course. Mastery of simple sentences. Combination of simple sentences with more complex sentences. Enlarging of vocabulary through oral exercises. An individual, one-hour conversational practice workshop is mandatory for each class session. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

NAV 201 Intermediate Navajo as a Second Language III (4)
Prerequisite: NAV 102.
Third-semester course. Students review the material taught in NAV 101 and NAV 102 and proceed to more advanced structures, situations, vocabulary, and functions. An individual, one-hour conversational practice workshop is mandatory for each class session.

NAV 202 Advanced Intermediate Navajo as a Second Language IV (4)
Prerequisite: NAV 201.
Fourth-semester course. Students review material from NAV 101, 102, and 201 and then proceed to more advanced structures, situations, functions and grammar. An individual, one-hour conversational practice workshop is mandatory for each class session.

NAV 211 Navajo Literacy I (3)
Designed to develop skills in reading and writing Navajo, as well as an understanding of the language and its sounds and structure. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

NAV 212 Navajo Literacy and Grammar II (3)
Prerequisite: NAV 211.
For Navajo speakers. Develops additional skills in reading and writing Navajo. Emphasis on grammatical structure. The course emphasizes the general education special requirement of ethnic/race/gender awareness (ERG).

NAV 231 Medical Terminology of the Navajo (3)
Prerequisite: NAV 101 or NAV 211.
Translation and use of medical terminology from English to Navajo and Navajo to English.

NAV 287 Navajo Transcription (3)
Prerequisite: NAV 212.
Interpretation, translation, and transcription of raw materials gathered from interviews, ceremonies, speeches, storytelling, and other contexts. Stresses the development of vocabulary, including specialized terminology and concepts.

NAV 289 Navajo Linguistics (3)
Prerequisite: NAV 212.
Introductory linguistics course covering basic concepts in sociolinguistics, psycholinguistics, syntax, phonology, and morphology. Navajo is used for concrete exemplification.

NAV 240 Navajo Public Speaking (3)
Prerequisite: NAV 212.
Students study videotaped presentations of twelve articulate Navajo speakers in genres of major oral performance. The presentations are analyzed in terms of style, theme, topic, structure, and effectiveness. Students are required to give oral presentations of various types, culminating in a 20-minute public speech. Students must work from extensive notes in Navajo.

NAV 301 Navajo Descriptive and Narrative Writing (3)
Prerequisite: NAV 212.
Students read and write descriptive and narrative texts in Navajo, complete weekly papers, and use word-processors to produce high-quality written products. One such text must be read over the radio.

NAV 350 Teaching Navajo to the Native Speaker (4)
Prerequisite: NAV 301.
Addresses major issues in teaching Navajo literacy and Navajo language arts to native speakers of Navajo.

NAV 351 Teaching Navajo as a Second Language (4)
Prerequisite: NAV 301.
Addresses major issues in the teaching/learning of second languages with specific emphasis on Navajo language as taught in the public schools.

NAV 401 Navajo Grammar and Applied Linguistics (3)
Prerequisite: NAV 289 and NAV 301.
Analysis of the Navajo language using the descriptive terminology of Young and Morgan (1987).
NAV 478 The Athabaskan Roots of Navajo (3)  
*Prerequisite: NAV 401 and NAV 289.*  
This course investigates the relationship between the Navajo language and the other languages of the Athabaskan branch of the Na-Dene language family. It traces sound changes from Proto-Athabaskan to modern Navajo. Texts from other Apachean languages and Athabaskan languages of the Pacific Coast and farther north are examined to explore common roots, syntax, morphology, and even cultural elements.

NIS 109 Chief Manuelito Scholars’ Navajo Government (2)  
*For high-school students only.*  
This course satisfies the history and government requirement for Chief Manuelito scholarship applicants. Course covers the history of Navajo government from the earliest days, through the changes in local leadership, the Naat’áanii system, headmen, and the emergence of the Navajo Tribal Council in 1868 as well as the discovery of oil and gas, and the need to approve leases. It also provides students with an overview of the relationship between Navajo Nation government and the federal government.

NIS 101 Navajo Pottery (3)  
The origin of Navajo pottery and development of pottery wares as an extension of human tools. Projects involve making pottery, design, and glaze.

NIS 103 Navajo Basketry (3)  
The origin, purposes, philosophy, and functions of Navajo baskets. Projects include making traditional designs, baskets, and water jugs.

NIS 105 Navajo Rug Weaving I (3)  
The origin, purposes, philosophy, and historical development of weaving from the Diné perspective. Rug weaving projects include traditional upright-loom weaving techniques and design.

NIS 107 Moccasin Making (3)  
The origin, purposes, philosophy, and historical development of moccasins. Includes projects in making male and female moccasins.

NIS 108 Navajo Silversmith I (3)  
The origin and cultural development of silver jewelry. Basic skills in making tools, designing, forming, cutting, piercing, and soldering.

NIS 111 Foundations of Navajo Culture (3)  
An introduction to the basic values of Diné society, past and present, including the clan system, philosophy of duality, oral narratives, and symbolic interpretations. Instruction takes place in Navajo and English.

NIS 150 Introduction to Navajo Herbology (3)  
Examines concepts fundamental to the Navajo use of herbs in environmental and ceremonial contexts. Instruction in Navajo and English. This course is offered only in the Summer or Fall semester.

NIS 205 Navajo Rug Weaving II (3)  
*Prerequisite: NIS 105.*  
Development of design, skills, and creativity in weaving geometrical, pictorial, and double-woven rugs, including the comparative study of ancient and contemporary weaving.

NIS 208 Navajo Silversmith II (3)  
*Prerequisite: NIS 108.*  
Creative design, intermediate skills, and lapidary techniques in silversmithing, including the comparative study of Navajo and American Indian jewelry craftsmanship.

NIS 220 Navajo Oral History (3)  
*Prerequisite: ENG 101 and NIS 111.*  
Examines Diné oral history and cosmology with an emphasis on ceremonial practices and world creation narratives. May include a field trip to Dinétah or other historical sites. This course is offered only in the Fall semester.

NIS 221 Navajo History to Present (3)  
*Prerequisite: ENG 101.*  
Examines Diné history beginning with anthropological theories about prehistoric migrations to and acculturation in the Southwest followed by the European contact period and ending with current events. Includes an overview of key aboriginal land settlements, federal Indian laws, court decisions, and other Indian policies within the context of Diné tribal, intertribal, city, county, state, and federal government relations. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI/ERG, and HA).

NIS 222 Contemporary Indian Affairs and Tribal Government (3)  
*Prerequisite: ENG 101, and NIS 221.*  
An overview of federal policies and programs since 1776 that have dealt with U.S. Indian Nations. Examines relationships between tribes and national, regional, and local governments, as well as the rise of a new, collective, national, and political Native American identity.
**Course Descriptions**

**NIS 225 Indians of the United States and North America (3)**
*Prerequisite: ENG 101 or concurrent enrollment. Cross-listed with ANT 225.*
A survey of indigenous groups of the U.S. and Canada, with an emphasis on changing economic and political forces that influence various tribal groups. Discussion of origins, customs, language, arts, and habitats.

**NIS 226 Navajo Nation Government (3)**
*Prerequisite: ENG 101 and NIS 221. Cross-listed with POS 226.*
The development of Navajo Nation government, concentrating on its evolution since the 1920s. Examines the legal and political basis of Navajo Nation government, its structure and functions as well as powers and services, fiscal changes, and administrative growth. Includes political relations, developments, and transitions related to state and federal governments. Highlights major contributions of Navajo Nation chairmen and presidents.

**NIS 230 Introduction to Policy Research Methods (3)**
*Prerequisite: ENG 101 and either NIS 226 or NIS 221. Cross-listed with POS 230.*
This course provides students with an introduction to Diné Policy. Students will learn the foundations of mainstream academic and traditional Diné research methods, gain an understanding of how to utilize both approaches, and apply these skills to existing Diné Policy Institute research.

**NIS 261 Navajo Oral Tradition and Styles (3)**
*Prerequisite: ENG 101 and NIS 111.*
Examines the philosophy and thinking of traditional elders in Navajo society by listening to and analyzing oral styles, including storytelling, oratory, prayers, and lectures. Instruction in English and Navajo.

**NIS 290 Native American Symposium (3)**
Selected topics in contemporary Native American affairs.

**NIS 292 Native American Holistic Expression (3)**
Examines the basic principles of Native American spiritual life, common philosophies and values, cycles of life, and contemporary ritual practices throughout North America.

**NIS 293 Native American Music (3)**
Focuses on music, dance repertoire, and teaching methods for use in the classroom. Discusses traditional tribal style, instruments, and social/ceremonial contexts with special emphasis on the Navajo Nation and other Southwest tribes.

**NIS 294 Diné Educational Philosophy I (3)**
*Prerequisite: NIS 111.*
Introduces teachings of the Diné knowledge and living systems. Relates them to curricula, pedagogy, and academic life in higher education. Advances learning of the basic Diné educational philosophy in both traditional and Western curricula.

**NIS 295 Diné Educational Philosophy II (3)**
*Prerequisite: NIS 294.*
This course is designed to develop intermediate-level knowledge in using SNBH components to advance student learning.

**NIS 311 Introduction to Navajo Holistic Healing (3)**
*Prerequisite: ENG 101 and NIS 111.*
A general discussion of major Navajo ceremonies of the summer and winter seasons according to Navajo teachings. Examines the development and organization of ceremonies with emphasis on their purpose, significance, and procedures. Includes study of ceremonies from the Hózhóóji (Blessing Ways) and Naayéé jí (Protection Ways). May include field experiences to local traditional healing ceremonies.

**PHYSICAL EDUCATION AND HEALTH (PEH)**

**PEH 113, 114, 119 Team Sports (1)**
*Restricted enrollment to student athletes.*
Members of all athletic teams may enroll in the courses with coach/faculty’s permission. Students sign a course contract and are responsible for knowing the rules and regulations of their sport. Students who quit or are dropped from the team are dropped from this course unless other arrangements are made.

**PEH 120 Strength Training (1)**
Introductory activities in strength training with individualized programs and a focus on safety, fitness, benefits, and exercise selection. One hour lab required.

**PEH 121 Advanced Strength Training (1)**
*Prerequisite: PER 120 or instructor’s permission.*
Advanced activities in advanced strength training, individualized programs, and exercise selection. One hour lab required.

**PEH 122 Fitness for Life (2)**
An individualized approach to physical fitness, designing personal fitness programs for cardiovascular development, strength, flexibility, weight control, and nutrition. Fitness testing administered at the beginning and end of class.
Course Descriptions

PEH 123 Archery (1)
Introductory activities in archery techniques. Includes the history of archery, equipment, safety, and individualized practice. One hour lab required.

PEH 125 Basketball (1)
Introductory activities in basketball skills, rules, and offensive and defensive strategies. Includes demonstrations, drills, and scrimmages. One hour lab required.

PEH 130 Physical Education Activity (1)
Introductory activity class that overviews a variety of physical activities and sports. One hour lab required.

PEH 132 Jogging (1)
Introductory activities in running techniques, program design, pacing, form, interval training, and distance running. One hour lab required.

PEH 135 Recreational Games (1)
Introductory activities in a variety of games, sports, and leisure activities. Activities include archery, bowling, basketball, badminton, billiards, jogging, softball, tennis, volleyball, strength training, table tennis, and traditional Navajo games. One hour lab required.

PEH 138 Volleyball (1)
Introductory activities in basic skills, rules, and offensive and defensive strategies in volleyball.

PEH 141 Aerobics (1)
Introductory activities in low- and high-impact exercises, training zones, body image, and exercise selection. One hour lab required.

PEH 143 Country and Western Dancing (1)
Introductory activities in Country and Western dancing, proper body movement, posture, rhythm and beats, and music selection. One hour lab required.

PEH 148 Outdoor Recreation (1)
Introductory activities, knowledge, and skills in hiking, camping, backpacking, mountaineering, canoeing, fishing, cross-country skiing, and traditional Navajo outdoor activities. One hour lab required.

PHYSICAL SCIENCE (PHS)

PHS 110 Principles of Physical Science (4)
Prerequisite: MTH 096 and ENG 100B.
PHY 110 is a conceptual physical science course emphasizing the relationship between physics and chemistry. Students will study the relationship between the Laws of Motion and chemical reactions, as well as topics related to nuclear, thermal and electrical energy.

PHYSICS (PHY)

PHY 101 Survey of Physics (4)
Prerequisite: ENG 100B, FST 131, or instructor’s permission.
A conceptual introduction to physics utilizing minimal mathematics. Designed for non-science majors and students with no prior physics background. Three hours lecture and three hours lab per week. Fulfills the general education requirement for a laboratory science course.

PHY 110 Algebra-based Physics I (4)
Prerequisite: PHY 110 or concurrent enrollment or instructor’s permission.
An algebra-based introduction to physics sequence designed for science majors who do not require calculus-based physics. Also suitable for liberal arts majors and general education students with no prior physics background; covers classical mechanics. Trigonometric requirement will be taught in the class. Three hours lecture and three hours lab per week.

PHY 111 Algebra-based Physics II (4)
Prerequisite: PHY 110 or equivalent course.
Second course in the algebra-based introduction to physics sequence designed for science majors who do not require calculus-based physics. Also suitable for liberal arts majors and general education student with no prior physics background; covers optics, electricity, and magnetism. Three hours lecture and three hours lab per week.

PHY 121 Calculus-based Physics I (4)
Prerequisite: MTH 191 or instructor’s permission.
First of three calculus-based courses designed for the science and engineering major with no prior physics background; covers classical mechanics. Three hours lecture and three hours lab per week.

PHY 131 Calculus-based Physics II (4)
Prerequisite: PHY 121 and MTH 192 or concurrent enrollment or equivalent courses.
Second of three calculus-based courses designed for the science and engineering major; covers electricity, magnetism, and optics. Three hours lecture and three hours lab per week.
**POLITICAL SCIENCE (POS)**

**POS 111 Introduction to Political Science (3)**
*Prerequisite: ENG 101.*
This course examines the principles, methods, topics, and concepts of political science in light of contemporary political events. Students will analyze power, authority, and political philosophy in diverse contexts, including tribal politics. This course meets teacher certification requirements and emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and global awareness (IW/CI, ERG, and GA).

**POS 170 American Government and Politics (3)**
*Prerequisite: ENG 101 or concurrent enrollment.*
American Government and Politics examines the origin of the U.S. Constitution as well as governmental structures, procedures, and politics at the federal, state, local, and tribal levels.

**POS 181 Arizona Constitution and Government (1)**
*Prerequisite: ENG 101 or concurrent enrollment.*
This course examines the Arizona Constitution in terms of its historical roots, content, modifications, and interpretations. It also examines Arizona’s governmental structures, procedures, and politics at all levels, including the Navajo tribal level. POS 181 meets Arizona teacher certification requirements.

**POS 226 Navajo Nation Government (3)**
*Prerequisite: ENG 101 and NIS 221. Cross-listed with NIS 226.*
The development of Navajo Nation government, concentrating on its evolution since the 1920s. Examines the legal and political basis of Navajo Nation government, its structure and functions as well as powers and services, fiscal changes, and administrative growth. Includes political relations, developments, and transitions related to state and federal governments. Highlights major contributions of Navajo Nation chairmen and presidents. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender and historical awareness (IW/CI, ERG, and HA).

**POS 230 Introduction to Policy Research Methods (3)**
*Prerequisite: ENG 101 and either NIS 226 or NIS 221. Cross-listed with NIS 230.*
This course provides students with an introduction to Diné Policy Institute’s unique approach to research. Students will learn the foundations of mainstream academic and traditional Diné research methods, gain an understanding of how to utilize both approaches, and apply these skills to existing Diné Policy Institute research. (See NIS/POS 230).

**POS 271 U.S. Constitution and Politics (2)**
*Prerequisite: ENG 101 or concurrent enrollment or instructor’s permission.*
This course examines the philosophical antecedents, historical development, and interpretations of the U.S. Constitution. It also examines federal governmental structures, procedures, and politics. POS 271 meets Arizona teacher certification requirements.

**PSYCHOLOGY (PSY)**

**PSY 111 Introduction to Psychology (3)**
*Prerequisite: ENG 101.*
This course is an introduction to the scientific study of individual behavior. It provides a broad overview of major approaches, concepts, issues, methods, findings, contributors, and applications of psychological knowledge to everyday life. It covers biological influences on behavior, sensation, perception, learning, cognition, motivation, emotion, personality, human development, psychopathology, and psychotherapy. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI).

**PSY 213 Statistics (4)**
*Prerequisite: Minimum grade of “C” in MTH 110 or MTH 114 or instructor’s permission. Cross-listed with MTH 213.*
Representation of data, measures of central tendency; standard deviation; sampling; normal, chi-square, student’s t, and F distributions; and regression and correlation. Basic concepts of experimental design and statistical analysis involved in quantitative research.

**PSY 215 Personal and Social Adjustment (3)**
*Prerequisite: ENG 101 or concurrent enrollment.*
An overview of basic psychological principles as they apply to coping with stress, interpersonal relationships, marriage, parenting, and working. Emphasis on learning to become a more competent and effective person. Course may carry one, two, or three credits.

**PSY 220 Expressive Arts Therapy (3)**
*Prerequisite: ENG 101 or concurrent enrollment.*
This course provides an overview of experiential styles for individuals in the counseling and behavioral health fields. Visual arts, music/sound, dance/movement, play therapy, psychodrama, and bioenergetics are examined as tools of therapy.
PSY 221 Cinema Therapy (3)
Prerequisite: ENG 101 or concurrent enrollment and at least one Psychology course.
Movies affect us because of their synergistic impact. This course will show the student and future counselor how film may help build a bridge between their client’s “reel” life and their experiences in real life.

PSY 240 Human Growth and Development (3)
Prerequisite: ENG 101.
This course provides an overview of the field of human growth and development from prenatal development and birth through adulthood and aging. Topics include physiology, perception, language, cognition, personality, social and moral development, family, and cultural and social influences on development. This course emphasizes the general education special requirements of intensive writing/critical thinking (IW/CI).

PSY 241 Abnormal Psychology (3)
Prerequisite: ENG 101.
This course will examine etiology, symptomatology, and classification of organic and functional behavior disorder, mental deficiencies, and other deviations. Treatment modalities overview will be examined.

PSY 250 Social Psychology (3)
Prerequisite: ENG 101.
This course is an overview of science-oriented approaches to the study of the impact of environment, particularly the social environment, on individual behavior and considers individual behavior but emphasizes the relationship between individual and group behavior. The course emphasizes the general education special requirements of intensive writing/critical thinking (IW/CI).

PSY 260 Drug Use and Abuse (3)
Prerequisite: ENG 101. Cross-listed with SOC 260.
This course examines current and historical patterns of alcohol and drug use, abuse, and control, including pharmacology and physiology of drugs. The use of PDR and DSM IV is presented with an emphasis on patterns of substance usage and programs for rehabilitation.

PSY 291 Introduction to Counseling (3)
Prerequisite: PSY 111 and ENG 101 or concurrent enrollment.
This course is an overview of various approaches to the techniques used in counseling. Mock counseling sessions and hands-on exercises are employed to demonstrate various counseling tools and styles.

PSY 292 Human Sexuality (3)
Prerequisite: ENG 101 or concurrent enrollment.
This survey course of the psychological aspects of human sexual behavior emphasizes cognitive, emotional, behavioral, and cultural factors that shape sexuality.

PUBLIC HEALTH (PUH)

PUH 111 Introduction to Public Health (3)
This course introduces students to all aspects of the field of public health, focusing on health promotion and disease prevention goals designed to establish and maintain healthy communities. The 3 core functions and 10 essential services of public health, as well as reading and lecture materials are organized and presented within the contexts of the Diné educational philosophy. This course is intended to help students become both knowledgeable and culturally competent public health professionals in the Navajo Nation.

PUH 141 Nutrition for Health (3)
Prerequisite: MTH 096 and concurrent ENG 100B.
General concepts of nutrition applied to food choices that support health, cultural, psychological, and economic implications of food choices. Current concepts and controversies in human nutrition. Carbohydrate, protein, lipids, vitamins, and minerals in nutrition, and the relation of nutrition to health throughout the life cycle.

PUH 191 Seminar in Public Health (3)
In this seminar, students are introduced to community health issues (especially in the Navajo Nation) and to problems faced in health care systems and health care delivery. Topics covered may include emergency services, the delivery and referral systems (both tribal and federal), and challenges, including alcohol use and abuse, illicit drug use, and mental health.

PUH 200 Principles of Health Education (3)
Prerequisite: Completion of FST 131 or reading proficiency requirement; PUH 111 and HEE 110 or concurrent enrollment.
This course introduces students to the field of health education. It explores social and behavioral theories, and determinants of health behavior of individuals and groups. In their final project students must apply course concepts to design a prospective health education intervention. Course emphases are on health education methods and issues relevant to the Navajo Nation. Guest speakers involved in health education on the Navajo Nation may provide presentations. Content of the course will facilitate application of the principles of SNBH.
Course Descriptions

PUH 201 Principles of Environmental Public Health (3)
Prerequisite: Completion of FST 131 PUH 111 or ENV 101 or another science class.
This course explores environmental health professionals’ roles in ensuring safe and healthy environments, including sanitation, food safety, and occupational safety, and air and water quality. Policies and activities of federal, state, local, and tribal entities are examined, with a focus on Navajo examples. Navajo cultural beliefs related to nature and the environment provide the foundation on which the course is structured.

PUH 202 Uranium and Environmental Health (3)
Prerequisite: Completion of FST 131 or reading proficiency requirement.
This course examines the impacts of uranium and the uranium mining industry on the people and land of the Navajo Nation. The primary emphasis is on environmental public health effects and efforts to remediate them. The course covers comprehensive information on all aspects of uranium, the uranium industry, and the health effects of exposure to uranium.

PUH 241 Human Nutrition (3)
Prerequisite: CHM 130 (recommended).
The principle of human nutrition as it relates to health issues is the primary focus of this course. Emphasis is placed on nutrients and how they affect the human body. The structure and function, digestion and absorption, and metabolism of carbohydrates, lipids, proteins, minerals, and vitamins are discussed. This course also examines energy, weight-management, nutritional requirements of different age groups, U.S. dietary trends, and guidelines for good nutrition and health.

PUH 270 Community Health Assessment and Planning (3)
Prerequisite: Completion of ENG 100B and PUH 111.
This is the first of two courses in which students examine assessment, planning, implementation, and evaluation in public health practice. The course focuses on assessment and planning as carried out in epidemiology, environmental public health, health education and promotion, and health services administration. It explores Navajo ways of knowing, defining, and thinking about health problems (Nitsáhákees) and the process of planning (Nahat’á) health intervention programs.

PUH 275 Health Services and Policy (3)
Prerequisite: Completion of PUH 111, ENG 101 or concurrent enrollment.
In this course, students are introduced to health services administration and the role of policy development in public health. The course covers national, state, local, and Navajo Nation health services, focusing on how they are organized and administered. U.S. public health services are compared with those on the Navajo Nation and other tribal communities. The course is taught in accordance with the Diné educational philosophy (primarily in the realm of liná).

PUH 280 Implementation and Evaluation of Public Health Interventions (3)
Prerequisite: Completion of PUH 111 and PUH 270. Completion or concurrent enrollment in ENG 101.
This is the second of two courses in which students examine assessment, planning, implementation, and evaluation in public health. The course focuses on implementation and evaluation as carried out in epidemiology, environmental health, health education and promotion, and health services administration. It is taught in accordance with the Diné educational philosophy (primarily in the realm of liná and Siihasin).

PUH 289 Public Health Emergency Preparedness (4)
This focused course covers practical knowledge, steps, and considerations relating to preparation for any potential public health emergency in the Navajo Nation. The course is based on online materials originally developed by the Arizona Center for Public Health Preparedness at the University of Arizona, adapted by Diné College to the Navajo Nation environment. There are no prerequisites, but prior completion of PUH 111 is recommended.

PUH 290 Public Health Research Methods (4)
Prerequisites: Knowledge of basic mathematical concepts (MTH 100), Biology (BIO 100 or above), and some computer literacy skills. ENG 101 and a Social and Behavioral Sciences course are recommended.
This research methods course covers basic concepts in public health, health promotion, and disease prevention, including its cultural aspects. The design and implementation of qualitative and quantitative research are covered, including hypothesis development, research design, development of research protocols, data analysis using computer software packages, and presentation of results.
PUH 295 Public Health Sciences (3)
Prerequisite: MTH 110 or MTH 118 and PUH 111
A basic introduction to epidemiology and biostatistics is provided in this mathematics-based course. Students are guided in identifying relevant and appropriate public health data and information sources. A special focus is on relationships of risk factors and disease outcomes, with attention to the health priorities of the Navajo Nation. The course also introduces students to epidemiological research designs and statistics, and ways in which they influence public health decision-making.

SOCIOLOGY (SOC)

SOC 111 Introduction to Sociology (3)
Prerequisite: ENG 101.
SOC 111 is a general introduction to sociological perspectives. Discussions of social institutions, class, power, conflict, change, culture, and socialization are integral to the course. The course emphasizes general education special requirements in ethnic/race/gender awareness (ERG).

SOC 205 Qualitative Research Methods (3)
Prerequisite: ENG 101.
This course introduces students to methods of conducting research into human societies and provides guidance and supervision as students conduct research in local communities.

SOC 210 Deviant Behavior (3)
Prerequisite: ENG 101.
This course examines behavior not accepted or approved by the society in which it occurs. It considers methods by which deviant behavior is studied, as well as theories of deviancy offered by sociologists, anthropologists, and psychologists. The course may focus on Navajo drinking behavior in its normative and deviant forms. It emphasizes the general education special requirements of ethnic/race/gender awareness (ERG).

SOC 215 Native Americans in American Society (3)
Prerequisite: ENG 101.
This course is a general review of current living conditions, roles, statuses, and images of American Indians. Faculty and students analyze social and cultural change and conflict. It examines the growth of urban indigenous groups and their adjustments to urbanization, as well as the social, economic, and political achievements of Native Americans. The course emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

SOC 220 Criminology (3)
Prerequisite: ENG 101.
Criminology is an examination of crime, theories of criminal development, type of offenders, crime statistics, and incarcerated penology. The course emphasizes the general education special requirements of ethnic/race/gender awareness (ERG).

SOC 225 Marriage and Family in a Changing Society (3)
Prerequisite: ENG 101.
This course examines marital relationships and social change. The course emphasizes the general education special requirements of ethnic/race/gender awareness (ERG).

SOC 230 Racial and Ethnic Relations (3)
Prerequisite: ENG 101.
This course examines minority and dominant group relations in the U.S. It explores patterns of prejudice and discrimination against racial and ethnic minorities, and assimilationist policies of the federal government and their impact on American Indians and the Navajo experience. SOC 230 emphasizes the general education special requirements of intensive writing/critical thinking and ethnic/race/gender awareness (IW/CI and ERG).

SOC 260 Drug Use and Abuse (3)
Prerequisite: ENG 101. Cross-listed with PSY 260.
This course examines current and historical patterns of alcohol and drug use, abuse, and control, including pharmacology and physiology of drugs. The use of PDR and DSM IV is presented with an emphasis on patterns of substance usage and programs for rehabilitation.

SOC 275 Social Stratification (3)
Prerequisite: ENG 101.
This course examines the unequal distribution of power, resources, income, and life changes in society. It analyzes economic and social classes, racism, ethnic stratification, colonialism within the U.S., gender stratification, and the changing position of women in society. It reviews the effects of poverty on individuals and communities. The course emphasizes the general education special requirements of ethnic/race/gender awareness (ERG).
SOCIAL SCIENCE (SSC)

SSC 100 General Social Science (3)
Prerequisite: FST 133 or placement test equivalency.
This course is an introduction to sociology, anthropology, and geography. It also includes material from political science, economics, and psychology. SSC 100 emphasizes concepts and terms common to the study of human societies, as well as fundamental academic skills.

SOCIAL WORK (SWO)

SWO 111 Social Work as a Vocation (1)
Prerequisite: ENG 101 or concurrent enrollment.
This course examines ego psychology as it is applied in social work.

SWO 211 Introduction to Social Work (3)
Prerequisite: ENG 101.
SWO is a continuation of SWO 111. This course offers an introduction to values, ethic, skills, and knowledge pertaining to social work. Social systems theory is emphasized.

SWO 242 Community Social Service Skills (3)
Prerequisite: ENG 101.
Examines casework, group skills, organization of communities, and family therapy. The course emphasizes case management, crisis intervention, and treatment planning, especially in substance abuse situations. Credit may be given for work in a community service setting (at the discretion of the faculty).

SWO 243 Community Social Services and Culture (3)
Prerequisite: ENG 101.
This course examines the interplay of cultural factors and social services. Pertinent anthropological and social work concepts are introduced. The course is the capstone of the professional social work track. Contemporary American Indian (and, more specifically, Navajo) social problems, such as suicide, homicide, alcoholism, and family violence, are explored. Traditional Diné philosophical tenets are applied as intervention strategies.

SWO 250 Client Processing (3)
Prerequisite: ENG 101.
This course examines the mandates, methods of operation, routines, goals, objectives, and technologies of human service organizations. Skills for direct interactions are studied.

SWO 295 Field Experience I (3)
Prerequisite: ENG 101.
Students are placed in community social service agencies for practical social work experience for a minimum of ten hours per week, offering opportunities to apply skills and to operationalize social knowledge and values in social work.

SWO 296 Field Experience II (3)
Prerequisite: ENG 101.
A continuation of SWO 295 with more advanced experiential applications.
