Nutritionist Dorian Venable talks about how Nutrition plays a large part in supporting a person’s immune system. A stronger immune system helps fight off disease.

Based on past research participants who are nutrient deficient experience longer recovery time and slow wound healing.

ZOOM Presentation April 14, 2021 2:00pm
Meeting ID 989 7720 1675
Passcode 161216

Preventive Nutrition during Covid-19

Sponsored by Student Activities
