

NSF S-STEM Scholarship Program

S-STEM: About the Program

The National Science Foundation (NSF) Scholarship in Science, Technology, Engineering, and Mathematics (S-STEM) program awarded NAU a grant in 2021 to support the recruitment, retention, and graduation of high-achieving, underrepresented and financially disadvantaged students pursuing a BS degree in Mechanical Engineering, Civil Engineering, Environmental Engineering, Electrical Engineering, or Computer Science at NAU.

Who Can Apply?

- U.S. citizens, permanent, residents, nationals, or refugees who are incoming freshman or transfer students from AZ community colleges pursuing a degree in engineering or computer science at NAU as a full-time student
- Females and underrepresented minorities are highly encouraged to apply
- Must have unmet financial need determined by FASFA
- Must demonstrate academic excellence and maintain a 3.0 GPA
- Scholarships for 7 freshmen and 4 transfer students are available for the academic year 2023-2024

Benefits of the Program

- Faculty and peer mentoring support
- Opportunities for undergraduate research
- Career focused pathways including professional development, internships, and career support services
- S-STEM Scholars will receive up to \$10,000 per year to cover unmet financial needs
- Participation in research seminars, lab visits, professional development seminars, social events, student club networking, etc.

Important Deadlines and Additional Information

The deadline to apply for the 2023-2024 academic year is **April 17, 2023**. Complete application form, verification of financial need, proof of enrollment and recommendation letters must be submitted before deadline. Details on the application process and portal can be found here: nau.edu/nsf-s-stem.
