AIHEC AIMS

American Indian Higher Education Consortium (AIHEC)

<http://www.aihec.org/>

AIHEC is an advocate for stable and sufficient federal funding for both institutional operations and academics and community enhancing programs at TCUs. The American Indian Higher Education Consortium's (AIHEC) vision is sovereign nations through excellence in tribal higher education.

Mission

AIHEC is the collective spirit and unifying voice of our nation's Tribal Colleges and Universities (TCUs). AIHEC provides leadership and influences public policy on American Indian higher education issues through advocacy, research, and program initiatives; promotes and strengthens Indigenous languages, cultures, communities, and tribal nations; and through its unique position, serves member institutions and emerging TCUs.

Research activities at AIHEC are managed as part of a broad Research and Database Initiative. This Initiative evolved from the AIHEC Board of Directors' Fall 1994 Strategic Plan, which established research as the Consortium's second priority, and a 1996 directive from the Board of Directors, to include research as part of the Consortium's core operations. In response to the Board's commitment, AIHEC successfully secured funding for a major research initiative. This Initiative is working to enhance each college's research capabilities and is creating a national database on Tribal Colleges. The Initiative represents a collaborative effort between AIHEC and the American Indian College Fund. The Initiative is working to collect data on Tribal College enrollment, budgets, curricula, facilities, services, and student outcomes to inform the colleges, AIHEC, the American Indian College Fund, and the White House Initiative on Tribal Colleges and Universities.

AIHEC's landmark data collection initiative, American Indian Measures of Success (AIHEC AIMS), was launched in 2004 with generous funding from the Lumina Foundation for Education. The AIHEC AIMS initiative defines measures for TCU success that are relevant to the colleges and their communities. The AIMS data collection instrument, AIMS Key Indicator System (AKIS), was developed based on input from AIHEC, TCUs, accrediting organizations, American Indian College Fund, Bureau of Indian Affairs, and others. AKIS incorporates unique measures of success that are not included in traditional higher education reporting requirements.

The AIHEC-AIMS Key Indicator System (AKIS) is used to collect TCU data and submit electronically (starting 2013) to AIHEC for annual reporting; due each year in December.

Diné College History

Founded in 1968, Diné College is a public institution of higher education chartered by the Navajo Nation and accredited by the Higher Learning Commission. In 1971, Congress enacted the Navajo Community College Act to establish stable funding for the institution. Quickly after the college was established, the majority of Navajo students who pursued higher education did so at the College. Each year our enrollment is between 2,500 and 3,600 students per year. The College is a six site multi-campus system which serves the residents of the 26,000 square-mile Navajo Nation which spans the three states of Arizona, New Mexico, and Utah. The six education delivery sites across the high population areas of the Navajo Nation offer courses in Navajo language, history, and culture. The Tsaile and Shiprock campuses are accredited to offer degree programs. The academic programs prepare students to earn certificates, associates and bachelor degrees, to matriculate to four-year colleges and universities, or to join the workforce. The College offers nine baccalaureate degree programs, which include the BA program in Teacher Education which focuses on training bilingual and bicultural teachers, the BA program in Business Administration which focus on tribal business management and economic development, and our most popular new BA program in Psychology. The latest BA degree programs developed are Dine' Studies and Fine Arts, as well as a Bachelor Degree of Science in Biology and Public Health. In addition, Diné College offers our surrounding communities with dual-credit program. The College offers developmental courses at all sites for students who require preparation for college-level academic work. Rooted in Diné Language and culture, our College's mission is to advance quality student learning and development to ensure the well-being of the Diné People. The educational philosophy of Diné College "Sa'ah Naaghai Bik'eh Hozhoo," the Diné traditional living system, places Diné life in harmony with the natural world and the universe. This educational philosophy is at the heart of the college's mission and vision.
