

*Begins
June 14-19*

AGR 303 BEEKEEPING

*3 Credit Hours
Program Overview*

Diné College's Beekeeping program prepares a new generation of land stewards by integrating Navajo cultural knowledge with Western science. Students develop sound judgment and respect for both knowledge systems as they learn beekeeping, pollination, and environmental stewardship. Dual credit and concurrent enrollment opportunities engage high school students, build confidence, and allow them to earn college credit while exploring careers in agriculture.
